Drawing lessons for the beginner and the frustrated artist This drawing guide book could prove helpful if you have low
confidence in drawing or if your efforts are less than satisfactory despite repeated attempts at capturing what are seen in
front You might be an absolute beginner or one who has spent a lifetime away from creative activities due to work or family
commitments You might cringe at the idea of picking up a pencil due to a severe inner critic or an affliction that can only be
described as picture dyslexia The first part of this book attempts to decode the underlying causes of this difficulty via a test
and questionnaire to be followed with special drawing exercises from the most basic The main part of this book does not take
the orthodox approach of informing on vanishing points perspectives and plotting but merely to help you see what is in front
of you Instead this book starts at the beginning to learn the language of line from A B and C Within you will find a series of
drawing exercises geared towards combating distorted perceptions in drawing by exercising all fields of vision This includes
exercises on visual judgment symmetrical drawing abstract drawing pictures within frames negative shapes the weight of

marks upside down drawing and more Further chapters explore the realms of tonality again via the language of shading from A B and C Opportunities for progression can be found within the latter chapters exploring specialised shading techniques A guide on the prescriptive areas of drawing can be found in the final chapter for guidance This includes a section on plotting your drawing the artist s viewfinder vanishing points and how to draw ellipses Print book s dimensions 8 5x5 5in and 110 pages With 15 500 words and around 90 images The author has a PCET qualification in teaching as well as a Degree in Fine Art

How to Draw What You See Easily & Magically Fast Larry Sparks,2019-08-19 HOW TO DRAW WHAT YOU SEE EASILY AND MAGICALLY FAST By Larry J SparksI have been an artist hobbyist for about 25 years I started out late in life learning to create artistic drawings and paintings I did not invent this technique to learn how to draw what you see It has been around for more than a century I just want to share what I learned The technique is simple so don t overthink it What you are going to do is learn how to draw what you see Your brain takes care of the rest Most of us have 2 hands If not then you will need another object to observe In my case I learned to draw with my right dominant hand by observing my left or other hand Pretty simple and only costs a little ink or pencil lead For most people starting out regardless of age you can train your brain to drive your dominant hand holding the pencil or whatever medium you choose by looking at your other hand AND NOT LIFTING THE PENCIL FROM THE PAPER or looking at the result of your sketch until you are finished Keep your eyes ONLY on the subject you are drawing You say No Way Generally you will see progress in just a couple of weeks or so You will want to keep practicing to get better You may even want to draw your foot or some other object if you become bored looking at your non dominant off hand But you will see incredible progress and with practice from time to time you will learn a skill that should last as long as you like to draw or paint In fact after 25 years I can fire up Photoshop set up a brush and color and use my mouse right dominant hand to draw and paint directly on the screen without ever looking at the mouse Wow Beats the heck out watching stuff on the box when you can learn a useful skill instead AND IT IS A GREAT HOBBY
