history ethics and philosophy It is a record of teachings passed down through the generations from the East and the West It contains the fullness of the sealed covenant established between man and the laws of the universe As we evolve as a race we take things out of our lives because we better understand who we are and what we have achieved The divine refers to the laws of nature and the universe that guide us in our everyday lives The creator that guides our everyday lives is not something that we should worship or pray to out of fear or love it is something that remains unseen and works in natural forces to explain all the events that happen on Earth It is merely a force and it is not necessary to belong to a group to experience the light The path to the light is straight and broad The creator of the universe is a divine and intellectual force by which all things came into being The sealed covenant is a pact between all of humanity to the world around us and the universal laws that guide our everyday lives to come together and love one another and come to make the world a better place for all people This shall usher in the evolution of religious traditions and humanity to a new age of prosperity

What Really Matters? Anita Torabi PhD,2016-07-30 In this short yet fascinating book you will read about everything that is important or even critical to us turns out to be less and less important over time We do not know what really matters in our lives One day we are happy by the next we are sad or worried When we are in a specific time place and condition we think that certain issues are important and critical and assign them a value You alone have the right to choose the best path to a

peaceful and enjoyable life You can be in any kind of position or have any level of income and be happy regardless of what goes around you If you have never given yourself time to think about your life and what you are doing this is the right time to do so This is the particular time that you can ask yourself if you are on the path that leads you to where you want to be and whether you are enjoying your life Ask yourself if you have a forgotten passion that is burning inside you a love for anything in this world that can take you to a higher level of energy and eagerness Find your passion today and decide to live a meaningful life that is free of fear      *Protocols of Proceedings of the International Marine Conference ,1890*
