What Comes after Entanglement? Eva Haifa Giraud,2019-10-18 By foregrounding the ways that human existence is bound together with the lives of other entities contemporary cultural theorists have sought to move beyond an anthropocentric worldview Yet as Eva Haifa Giraud contends in What Comes after Entanglement for all their conceptual power in implicating humans in ecologically damaging practices these theories can undermine scope for political action Drawing inspiration from activist projects between the 1980s and the present that range from anticapitalist media experiments and vegan food activism to social media campaigns against animal research Giraud explores possibilities for

action while fleshing out the tensions between theory and practice Rather than an activist ethics based solely on relationality and entanglement Giraud calls for what she describes as an ethics of exclusion which would attend to the entities practices and ways of being that are foreclosed when other entangled realities are realized Such an ethics of exclusion emphasizes foreclosures in the context of human entanglement in order to foster the conditions for people to create meaningful political change

Sierra Leone David Harris,2014-06-01 Sierra Leone came to world attention in the 1990s when a catastrophic civil war linked to the diamond trade was reported globally This fleeting and particular interest however obscured two crucial processes in this small West African state On the one hand while the civil war was momentous brutal and affected all Sierra Leoneans it was also just one element in the long and faltering attempt to build a nation and state given the country s immensely problematic pre colonial and British colonial legacies On the other the aftermath of the war precipitated a huge international effort to construct a liberal peace with mixed results and thus made Sierra Leone a laboratory for post Cold War interventions Sierra Leone examines 225 years of its history and fifty years of independence placing state society relations at the centre of an original and revealing investigation of those who have tried to rule or change Sierra Leone and its inhabitants and the responses engendered It interweaves the historical narrative with sketches of politicians anecdotes the landscape and environment and key turning points alongside theoretical and other comparisons with the rest of Africa It is a new contribution to the debate for those who already know Sierra Leone and a solid point of entry for those who wish to know
