Seeing Is Believing Approaches To Visual Research:

Seeing is Believing Christopher Pole, 2004-12-14 Rather than providing a step by step guide to the use of visual methods the authors draw on their experience of visual research to provide critical accounts of its use in the field its potential for unlocking otherwise unseen places spaces and social action and as a basis for the generation of conceptual and theoretical insight

Doing Visual Ethnography Sarah Pink, 2007 Those already proficient in ethnographic methods will find *Doing Visual Ethnography* a foray into what should be an increasingly normative terrain and what is certainly a much needed addition to the literature They will be challenged to simultaneously take on new methodological conceits and their application beyond traditional boundaries Library Information Science Research Following on from the success of *Doing Visual Ethnography* this fully revised and updated second edition explores the use and potential of photography video and hypermedia in ethnographic and social research It offers a reflexive approach to theoretical methodological practical and ethical issues of using these media now that they are increasingly being incorporated into field research Sarah Pink adopts the viewpoint that visual research methods should be rooted in a critical understanding of local and academic visual cultures the visual media and technologies being used and the ethical issues they raise The book demonstrates that these new challenges that shape ethnographic knowledge can be met by understanding the reflexivity and experience through which visual and ethnographic materials are produced and interpreted New to the Second Edition General updating of figures terminology and literature to bring the book up to date with recent innovations in theory practice and technology Annotated reading lists added to each chapter to guide the reader to further literature Completely rewritten chapter on digital technology to ensure the text is in line with the latest developments in technology and methodological thinking Drawing from her own experiences of using photography video and hypermedia in research as well as the work of others the author follows the research process from project design planning and implementing and practising fieldwork to analysis and representation suggesting how visual images and technologies can be combined to form an integrated process throughout the different stages of research The Second Edition of *Doing Visual Ethnography* is an excellent resource for students of sociology anthropology cultural studies media studies and those doing ethnographic and qualitative research It also provides valuable reading for researchers and postgraduates

Video Vision Martin J. Downing Jr., Lauren J. Tenney, 2020-11-09 In recent years the use of video has soared spurring debate about the body camera environment connection and other concepts a social scientist considering this research tool will face In this volume we zoom in on ethics methodology and analysis while also zooming out on a wider praxis The time is here to collectively identify our experiences methods and knowledge of video as a research methodology This compilation of work unpacks the use of video as a research tool Often through the interdisciplinary lens of environmental psychology as well as anthropology sociology and the broader field of psychology fascinating angles of the use of participant and naturalistic observations are captured along with that of participatory action

research Strategies such as recording video messages the creation of student informed videos and facilitating videos taken by or edited by research participants are coupled with methods for obtaining Institutional Review Board approvals analysis development of theory or action and presentation This volume presents thought provoking cutting edge research that is both accessible to students and useful for social scientists who are yearning for a more accurate way to collect analyze and present data in our hyper technical visual and competitive world SAGE Visual Methods Jason Hughes,2012-07-23 In contemporary Western societies the visual domain has come to assume a hitherto unprecedented cultural centrality Daily life is replete with a potentially endless stream of images and other visual messages from the electronic and paper based billboards of the street to the TV and Internet feeds of the home The visual has become imbued with a symbolic potency a signifying power that seemingly eclipses that of all other sensory data The central aim of this four volume collection is to explore key approaches to visual research methods and to consider some of the core principles issues debates and controversies surrounding the use of visual techniques in relation to three key enterprises 1 documentation and representation 2 interpretation and classification and 3 elicitation and collaboration Volume One Principles Issues Debates and Controversies in Visual Research serves as a theoretical backdrop to the field as a whole It introduces core epistemological ethical and methodological debates that effectively cut across the four volume collection as a whole Volume Two Documentation and Representation illustrates approaches to visual documentation and representation from classical documentaries to contemporary state of the art modes of visual anthropology and ethnography Volume Three Interpretation and Classification examines core debates surrounding and approaches to visual analysis Volume Four Elicitation and Collaboration explores participative approaches to visual inquiry The Handbook of Media Audiences Virginia Nightingale,2011-03-21 This handbook offers a comprehensive overview of the complexity and diversity of audience studies in the advent of digital media Details the study of audiences and how it is changing in relation to digital media Recognizes and appreciates valuable traditional approaches and identifies how they can be applied to and evolve with the changing media world Offers diverse perspectives from which being an audience theorizing audiences researching audiences and doing audience research are approached today Argues that the field works best by identifying particular audience problems and applying the best theories and research methods available to solving them Includes contributions from some of the most outstanding international scholars in the field **The Oxford Handbook of Qualitative Research** Patricia Leavy,2014 The Oxford Handbook of Qualitative Research presents a comprehensive and student friendly overview of the field of qualitative research and is intended for students of all levels faculty and researchers across the social sciences It provides strong focus on methods instruction with coverage of theoretical approaches analysis writing evaluation and the politics of research
