Seh Holy Roman Empire 1495 1806:

The Holy Roman Empire 1495-1806 R. J. W. Evans, Michael Schaich, Peter H. Wilson, 2011-03-24 The volume presents an accessible summary of several decades of research on the Holy Roman Empire concentrating on its constitutional religious and social history between 1495 and 1806 A notable feature is the presentation of succinct summaries by leading continental scholars whose work has largely been inaccessible in English

Death and the City in Premodern Europe Martin Christ, Carmen González Gutiérrez, 2024-10-18 Through a range of case studies this book traces how death shaped cities and vice versa It argues that by focusing on death and the city we can open up new avenues of research into religious political and cultural change Dying in a city was significantly different from dying in a village or the countryside Cities and towns were centres of commerce and learning shaping discourses on death The importance of urban centres meant that events had a large audience there for example when people were executed Urban diversity led to a wide variety of deathways which also had to be regulated by urban magistrates The placement of dead bodies and the urban arrangement of cemeteries were related to the high population density in towns urban hygiene and religious changes such as the Reformation The fact that many cities were seats of power had a direct impact on the design of necropolises and the performance of funerary rituals It was also in urban centres that religious ethnic and cultural diversity tended to be more pronounced leading to compromise and conflict when it came to burials and commemoration Considering death and the city can therefore help us understand much broader processes of dying urbanity and change over time This book is essential reading for all students and academics of death in the premodern period The chapters in this book were originally published as a special issue of *Mortality*

The Holy Roman Empire, 1495-1806 Peter Hamish Wilson, 1999 Drawing on a wealth of specialist studies Peter Wilson offers an alternative way of looking at the Empire seeing it not as a failed monarchy or flawed forerunner of a later German nation state but on its own terms as a multi layered structure combining monarchical hierarchical and federal elements Key stages in the Empire's development are explained within the context of wider European history while a final section provides a comprehensive guide to its main institutions and developments across the last four centuries of its existence

BOOK JACKET *Feminist Perspectives on Law and Literature* Laura Schmitz-Justen, Laura A. Zander, Hanna Luise Kroll, Laura Wittmann, 2025-04-21 The interdisciplinary study of law and literature can help us better understand intersectionality and vice versa intersectional feminist perspectives are extremely valuable in the study of law and literature Of course neither feminist nor intersectional approaches are new in and of themselves for decades literary scholarship has studied the impact of particular constellations of gender race and class when it comes to representations of women in literary texts and has succeeded in shaking monolithic and stereotypical notions of womanhood However research at the intersection of law literature and feminism has so far been limited and insular Bringing together more than twenty international researchers from related disciplines this volume is the first to bring questions of intersectional feminism to the forefront of

law and literature scholarship From reproductive and trans gender justice in law and literature to feminist practices that intervene in judicial discourse this volume brings into focus a wide range of cultural and legal phenomena in which gender and the law intersect in literary texts The volume s commitment to intersectionality fittingly extends to its very make up the contributors were selected to represent a diverse range of positions in terms of their gender career stage and nationality

The Holy Roman Empire, 1495-1806: A European Perspective Robert Evans, Peter Wilson, 2012-07-25 This text offers a collective exploration of aspects of cross border and transnational interaction in the Holy Roman Empire **The Holy Roman Empire 1495-1806** Peter H. Wilson, 1999-10-01 The Holy Roman Empire lasted for over a millennium yet its development and institutions are still commonly dismissed as largely irrelevant to broader historical issues Recent scholarship challenges this view but until now has failed to provide a convincing interpretation of the political structure which provided the framework within which such major events as the Reformation and the Thirty Years War developed Drawing on a wealth of specialist studies Peter Wilson offers an alternative way of looking at the Empire seeing it not as a failed monarchy or flawed forerunner of a later German nation state but on its own terms as a multi layered structure combining monarchical hierarchical and federal elements Key stages in the Empire s development are explained within the context of wider European history **Reich and Nation** John G.
