Seismicity Of Egypt Arabia And The Red Sea A Historical Review:

The Seismicity of Egypt, Arabia and the Red Sea N. N. Ambraseys, C. P. Melville, R. D. Adams, 1994-11-03 This book provides a catalog of earthquakes that have occurred in Egypt Arabia the Red Sea region and the surrounding areas of Libya Sudan and Ethiopia from the earliest times 184 BC to the present day By careful and intensive study of historical sources and a review of the instrumental data of this century the authors describe each earthquake as fully as possible and analyze each in a geographical and historical context They further scrutinize the completeness of the earthquake catalog over time and examine the range of sources and the problems associated with such historical records The Seismicity of Egypt, Arabia and the Red Sea Ambraseys N. N., 1994

Impact of Tectonic Activity on Ancient Civilizations Eric R. Force, 2015-08-27 Impact of Tectonic Activity on Ancient Civilizations Recurrent Shakeups Tenacity Resilience and Change observes a remarkable spatial correspondence of zones of active tectonism i e plate boundaries in the earth s crust with the most complex cultures of antiquity great ancient civilizations and continues to explore the meaning of this relationship from a number of independent angles Due to resulting site damage this distribution is counter intuitive Nevertheless systematic differences between tectonic and quiescent cultures show that tectonic activity corresponded in antiquity with more cultural dynamism Data of several independent types support direct cultural influence of tectonism including vignettes of the impact of tectonism in specific ancient cultures An expectation of change seems to be a feature such tectonic cultures shared and led to an acceleration of development These dynamics continue though much obscured in the present day Ferdowsi, the Mongols and the History of Iran Robert Hillenbrand, A.C.S. Peacock, Furuza Abdullaeva, 2013-11-18 I B Tauris in association with the Iran Heritage Foundation Iran s rich cultural heritage has been shaped over many centuries by its rich and eventful history This impressive book which assembles contributions by some of the world s most eminent historians art historians and other scholars of the Iranian world explores the history of the country through the prism of Persian literature art and culture The result is a seminal work which illuminates important yet largely neglected aspects of Medieval and Early Modern Iran and the Middle East Its scope from the era of Ferdowsi Iran s national epic poet and the author of the Shahnameh to the period of the Mongols Timurids Safavids Zands and Qajars examines the interaction between mythology history historiography poetry painting and craftwork in the long narrative of the Persianate experience As such Ferdowsi the Mongols and the History of Iran is essential reading and a reference point for students and scholars of Iranian history Persian literature and the arts of the Islamic World The Monastic Landscape of Late Antique Egypt Darlene L. Brooks Hedstrom, 2017-11-27 Darlene L Brooks Hedstrom offers a new history of the field of Egyptian monastic archaeology It is the first study in English to trace how scholars identified a space or site as monastic within the Egyptian landscape and how such identifications impacted perceptions of monasticism Brooks Hedstrom then provides an ecohistory of Egypt s tripartite landscape to offer a reorientation of the perception of the physical landscape She analyzes late antique documentary

evidence early monastic literature and ecclesiastical history before turning to the extensive archaeological evidence of Christian monastic settlements In doing so she illustrates the stark differences between idealized monastic landscape and the actual monastic landscape that was urbanized through monastic constructions Drawing upon critical theories in landscape studies materiality and phenomenology Brooks Hedstrom looks at domestic settlements of non monastic and monastic settlements to posit what features makes monastic settlements unique thus offering a new history of monasticism in Egypt

Ancient Earthquakes M. Sintubin,2010-01-01 Ancient earthquakes are pre instrumental earthquakes that can only be identified through indirect evidence in the archaeological archaeoseismology and geological palaeoseismology record Special Paper 471 includes a selection of cases convincingly illustrating the different ways the archaeological record is used in earthquake studies The first series of papers focuses on the relationship between human prehistory and tectonically active environments and on the wide range of societal responses to historically known earthquakes The bulk of papers concerns archaeoseismology showing the diversity of approaches the wide range of disciplines involved and its potential to contribute to a better understanding of earthquake history Ancient Earthquakes will be of interest to the broad community of earth scientists seismologists historians and archaeologists active in and around archaeological sites in the many regions around the world threatened by seismic hazards This Special Paper frames in the International Geoscience Programme IGCP 567 Earthquake Archaeology Archaeoseismology along the Alpine Himalayan Seismic Zone Publisher s description Saudi Arabia: An Environmental Overview Peter Vincent,2008-01-17 A comprehensive overview of Saudi Arabia s environment this volume is a unique and authoritative text on the geological and environmental aspects of Saudi Arabia a country about which little is known by the outside world Saudi Arabia is a fascinating country with a long tradition of environmental awareness and sensitivity pitted again International Order and the Politics of Disaster Scott D. Watson,2019-09-02 In this indispensable and comprehensive text Scott D Watson critically examines the current understanding of international order that underpins international disaster management and disaster diplomacy Based on empirical analysis of the three international disaster management regimes disaster relief disaster risk reduction and disaster migration and case studies of disaster diplomacy in the United States Egypt and China Watson argues that international disaster management and disaster diplomacy are not simply efforts to reduce the impact of disasters or to manage bilateral relations but to reinforce key beliefs about the larger international order Challenging the conventional understandings of disasters as natural as exogenous shocks or as unintended and accidental outcomes of the current order this text shows how the ideological foundations of the current heterogenous international order produce recurrent disasters International Order and the Politics of Disaster is a vital source for undergraduate or graduate students interested in international responses to disasters and complex humanitarian emergencies forced migration and displacement as well as climate change and development The Coptic Papacy in Islamic Egypt, 641-1517 Mark N. Swanson,2022-09-06 An authoritative account of the Coptic Papacy in Egypt

from the coming of Islam to the onset of the Ottoman era by a leading religious studies scholar new in paperback In Volume 1 of this series Stephen Davis contended that the themes of apostolicity martyrdom monastic patronage and theological resistance were determinative for the cultural construction of Egyptian church leadership in late antiquity This second volume shows that the medieval Coptic popes 641 1517 CE were regularly portrayed as standing in continuity with their saintly predecessors however at the same time they were active in creating something new the Coptic Orthodox Church a community that struggled to preserve a distinctive life and witness within the new Islamic world order Building on recent advances in the study of sources for Coptic church history the present volume aims to show how portrayals of the medieval popes provide a window into the religious and social life of their community

Nubia, Ethiopia, and the Crusading World, 1095-1402 Adam Simmons, 2022-09-16 The Crusades had a wide variety of impacts on societies throughout Europe Asia and Africa One such notable impact was its role in the development of knowledge between cultures This book argues that the Nubian kingdom of Dotawo and the Latin Christians became increasingly more connected between the twelfth and early fourteenth centuries than has been acknowledged Subsequently when Solomonic Ethiopian Latin Christian diplomatic relations began in 1402 they were building on the prior connections of Nubia either wittingly or unwittingly Ethiopia became the Ethiopia that the Latin Christians had previously been aiming to develop relations with The histories of Nubia Ethiopia and the Crusades were directly and indirectly entwined between the twelfth century and 1402 By placing Nubia and Ethiopia within the wider context of the Crusades new perspectives can be made regarding the international activity of Nubia and Ethiopia between the twelfth and fifteenth centuries and the regional role reversal of Dotawo and Solomonic Ethiopia from the early fourteenth century Prior to the fourteenth century Nubia had been the dominant Christian power in the region before Solomonic Ethiopia began to replace it including by adopting elements of discourse which had previously been attributed to Nubia such as its ruler being the recognised protector of the Christians of north east Africa This process should not be viewed in isolation of the wider regional geo political context Nubia Ethiopia and the Crusading World 1095 1402 will appeal to all those interested in the history of the Crusades Nubia and Ethiopia particularly concerning inter regional physical and intellectual connectivity

The Ancient Mediterranean Environment between Science and History William V. Harris, 2013-07-25 Scientists historians and archaeologists are at last beginning to collaborate seriously on studies of the long term history of the environment The fruit of an international conference held in Rome in 2011 The Ancient Mediterranean Environment between Science and History brings together scientists and scholars who are interested in the interaction of their several disciplines as well as in specific problems such as the effects of climate change and other environmental factors on historical developments and events the sources of the energy and fuel used in ancient civilizations and the effects of humans on the lands around the Mediterranean The collection balances broad Mediterranean wide studies and tightly focused studies of particular regions in Italy and Jordan

Cultures and Disasters Fred Krüger, Greg

Bankoff, Terry Cannon, Benedikt Orłowski, E. Lisa F. Schipper, 2015-04-24 Why did the people of the Zambesi Delta affected by severe flooding return early to their homes or even choose to not evacuate How is the forced resettlement of small scale farmers living along the foothills of an active volcano on the Philippines impacting on their day to day livelihood routines Making sense of such questions and observations is only possible by understanding how the decision making of societies at risk is embedded in culture and how intervention measures acknowledge or neglect cultural settings The social construction of risk is being given increasing priority in understand how people experience and prioritize hazards in their own lives and how vulnerability can be reduced and resilience increased at a local level Culture and Disasters adopts an interdisciplinary approach to explore this cultural dimension of disaster with contributions from leading international experts within the field Section I provides discussion of theoretical considerations and practical research to better understand the important of culture in hazards and disasters Culture can be interpreted widely with many different perspectives this enables us to critically consider the cultural boundedness of research itself as well as the complexities of incorporating various interpretations into DRR If culture is omitted related issues of adaptation coping intervention knowledge and power relations cannot be fully grasped Section II explores what aspects of culture shape resilience How have people operationalized culture in every day life to establish DRR practice What constitutes a resilient culture and what role does culture play in a society s decision making It is natural for people to seek refuge in tried and trust methods of disaster mitigation however culture and belief systems are constantly evolving How these coping strategies can be introduced into DRR therefore poses a challenging question Finally Section III examines the effectiveness of key scientific frameworks for understanding the role of culture in disaster risk reduction and management DRR includes a range of norms and breaking these through an understanding of cultural will challenge established theoretical and empirical frameworks Geoheritage of Volcanic Harrats in Saudi Arabia Mohammed Rashad Moufti, Károly Németh, 2016-06-24 This book records the geoheritage values of globally significant yet little known volcanic geosites in Saudi Arabia It is the first of its kind to focus on the Middle East clearly showing the hidden geoheritage value of the volcanic Arabian Peninsula s harrats and demonstrating why the Saudi Arabian volcanic fields are unique Along with the systematic geosite description the book introduces scientifically founded geoeducational programs that can be used to develop our understanding of volcanic geoheritage values of volcanic fields It offers a detailed and comprehensive research based description of four of the most accessible volcanic harratts in Saudi Arabia and an additional summary of other more remote fields Additionally it discusses geoeducational programs that could be used to link these volcanic areas and use them in volcanic hazard education *Concise Biographical Companion to Index Islamicus* Wolfgang Behn, 2006-03-01 This second of the three volume Who s Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of

authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his her proper perspective A tremendous achievement and a true must for every library *The Miracles of Exodus* Colin J. Humphreys,2024-05-21 The Real Story of the ExodusColin Humphreys a world renowned Cambridge University scientist reveals for the first time the concrete scientific truth behind the Exodus miracles The Burning Bush Caused by a volcanic vent that opened up under the bush Crossing the Red Sea The water was pushed back by a very strong wind blowing all night This is a known physical phenomenon called wind setdown The details given in the Bible mean we can pinpoint where the Red Sea crossing occurred Drowning Pharaoh s Army When the very strong wind suddenly stopped blowing the water rushed back in the form of a rapidly returning bore wave sweeping Pharaoh s army into the sea Mount Sinai The real Mount Sinai is in present day Saudi Arabia not the Sinai Desert as is generally assumed *Environmental Hazards in the Arabian Gulf Region* Abd el-aziz Khairy Abd el-aal,Abdullah Al-Enezi,Qusaie E. Karam,2024-12-03 This book discusses the environmental hazards in the Gulf countries GCC The publication of this book is of great importance to all those interested and knowledgeable in the field Climate change leads to the occurrence of major environmental hazards that must be reduced by estimating the extent of climate change and developing appropriate solutions to mitigate those effects Climate changes are produced indirectly as a result of human activities with uncalculated consequences The process of climate change is always accompanied by catastrophic environmental problems such as global warming high temperatures storms hurricanes floods desertification processes air pollution and the extinction of many types and forms of animals and plants The Gulf countries are located in the eastern part of the Arabian Peninsula where the crude oil is extracted in several fields The states suffer from many environmental problems as a result of its geographical location global climate change and also from oil extraction operations The problems include high temperatures induced earthquakes and pollution in the soil and marine coast as well as desertification processes sand dunes movement and other environmental problems Earthquakes are also recorded from and near the oil fields indicating the link between the oil extraction process and the occurrence of earthquakes Indeed the environmental studies published in the Gulf state are very few and do not meet the need of the scientific community in region which need more important environmental publications that help in the great and rapid urban developments in the area

Natural Disasters and Development in a Globalizing World Mark Pelling,2003 Authorative and comprehensive this book makes clear that there are links between global scale processes and local experiences of disaster but underlies the difficulty of attributing blame for individual disasters on specific global pressures Geological Setting, Palaeoenvironment and Archaeology of the Red Sea Najeeb M.A. Rasul,Ian C.F. Stewart,2018-12-05 This book gathers invited contributions from active researchers to provide an up to date overview of the geological setting of the Red Sea It discusses aspects ranging

from historical information to modern research in the Red Sea and presents findings from rapidly advancing emerging fields This semi enclosed young ocean basin provides a unique opportunity to study the development of passive continental margins in order to examine the current status of that region In addition to studies on the Sea itself it includes those from related fields on the littoral zone The book is of interest to geoscientists and non specialists alike

The House of Serenos, Part II Paola Davoli, 2022-09-06 A comprehensive study of the archaeology of the House of Serenos The House of Serenos Part II is the second of four books devoted to publishing the archaeology of the House of Serenos a richly decorated late antique villa of a local elite located in Amheida ancient Trimithis in the Dakhla Oasis of Egypt The House of Serenos Part II synthesizes the archaeological information presented in detail in other volumes in a comprehensive study of the architectural and archaeological history of the house and its relationship to its natural and built environments from construction through expansion and renovation to its eventual abandonment around the end of the fourth century The volume includes discussions of archaeological method stratigraphy architecture and the archaeological assemblages discovered in the House of Serenos and reveals what all this can tell us about the inhabitants and their experience living in this high status residence at the edge of the Roman Empire
