

A serene sunset scene over a calm body of water. The sun is a bright, glowing orb in the upper left, casting a long, shimmering reflection down the center of the water. A small, dark boat is visible on the water, positioned near the reflection of the sun. The horizon is a dark, silhouetted line of land or trees. The sky is a gradient of warm colors, from deep orange near the sun to a darker, muted orange towards the horizon.

Volume 11, Tome I: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard s relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The present volume documents these different traditions of the philosophical reception of Kierkegaard s thought and the articles featured demonstrate the vast reach of Kierkegaard s writings in philosophical contexts that were often quite different from his own Tome I is dedicated to exploring the reception of Kierkegaard in Germanophone and Scandinavian philosophy Kierkegaard has been a major influence for such different philosophical projects as phenomenology hermeneutics dialogical thinking critical theory Marxism logical positivism and ordinary language philosophy Similarly in Denmark and Norway Kierkegaard s writings have been more or less constantly discussed by important philosophers despite the later dominance of analytic philosophy in these countries The present tome features articles on the leading Germanophone and Scandinavian philosophers influenced by Kierkegaard s thought
