**Eighteenth-Century Authorship and the Play of Fiction** Emily Hodgson Anderson, 2009-05-15 This study looks at developments in eighteenth century drama that influenced the rise of the novel it begins by asking why women writers of this period experimented so frequently with both novels and plays Here Eliza Haywood Frances Burney Elizabeth Inchbald Maria Edgeworth and Jane Austen explore theatrical frames from the playhouse to the social conventions of masquerade to the fictional frame of the novel itself that encourage audiences to dismiss what they contain as feigned Yet such frames also as a result create a safe space for self expression These authors explore such payoffs both within their work through descriptions of heroines who disguise themselves to express themselves and through it Reading the act of authorship as itself a form of performance Anderson contextualizes the convention of fictionality that accompanied the development of the novel she notes that as the novel like the theater of the earlier eighteenth century came to highlight its fabricated nature authors could use it as a covert yet cathartic space Fiction for these authors like theatrical performance for the actor thus functions as an act of both disclosure and disguise or finally presents self expression as the ability to oscillate between the two in the play of fiction

Mellor,2000-05-22 A survey of British women s writings of the late eighteenth and early nineteenth centuries and the revolutionary New Woman they promoted British women writers were enormously influential in the creation of public opinion and political ideology during the years from 1780 to 1830 Anne Mellor demonstrates the many ways in which they attempted to shape British public policy and cultural behavior in the areas of religious and governmental reform education philanthropy and patterns of consumption She argues that the theoretical paradigm of the doctrine of the separate spheres may no longer be valid According to this view British society was divided into distinctly differentiated and gendered spheres of public versus private activities in the eighteenth and nineteenth centuries Surveying all the genres of literature drama poetry fiction non fiction prose and literary criticism Mellor shows how women writers promoted a new concept of the ideal woman as rationally educated sexually self disciplined and above all virtuous This New Woman these writers said was better suited to govern the nation than were its current fiscally irresponsible lecherous and corruptible male rulers Beginning with Hannah More Mellor argues that women writers too often dismissed as conservative or retrogressive instead promoted a revolution in cultural mores or manners She discusses writers as diverse as Elizabeth Inchbald Hannah Cowley and Joanna Baillie as Charlotte Smith Anna Barbauld and Lucy Aikin as Mary Wollstonecraft Charlotte Reeve and Anna Seward and concludes with extended analyses of Charlotte Smith s *Desmond* and Jane Austen s *Persuasion* She thus documents women writers full participation in that very discursive public sphere which Habermas so famously restricted to men of property Moreover the new career of philanthropy defined by Hannah More provided a practical means by which women of all classes could actively construct a new British civil society and thus become the mothers not only of individual households but of the nation as a whole Intellectual and social historians and not just feminists have long believed that the late 18th and early 19th centuries in Britain saw an increasing separation of the male public and female domestic realms with the result that the public sphere theorized by Jurgen Habermas and others to have emerged in the Enlightenment almost entirely excluded women With energy wit and admirable command of her sources Mellor author of distinguished books on Romanticism demonstrates that just the opposite was true in the years around 1800 women became the primary producers and consumers of writing in Britain and vitally participated in the discursive public sphere many arguing in their different ways for what Hannah More the most popular author of the period called a moral revolution in the national manners and principles A splendid survey of women novelists poets critics playwrights and social theorists this bracing and important work of revision deserves a place in serious academic libraries serving both undergraduates and advanced scholars D L Patey Choice *Selected Comedies* Mrs. Inchbald,1987 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)
