Selected Educational Heresies William F. O'Neill, 1969 *Reconstructing Education* Greta Hofman Nemiroff, 1992-05-30
Drawing on elements of progressive education existential theory feminist pedagogy and values education critical humanism combines the holistic psychological concerns of humanistic education with the sociopolitical contextualization of critical pedagogy Developed over the past seventeen years in one of North America s most experimental postsecondary programs The New School of Dawson College this theory and practice responds to both the personal and the political needs of students *Reconstructing Education* is at once a review of this century s educational theories an account of the work at the school and an empowering illustration of the way in which schools can incite the motivation of students and encourage them to become active members in a truly democratic society The case study chapters on The New School give concrete examples of how this philosophy is manifested in the school s methodology structure and pedagogy and draws heavily on the written work of teachers and students To formulate a similar approach for a specific school it is essential to combine a rigorous analysis of existing educational models with the dialectical process of creating and recreating a new model defined by the articulation of both learners and teachers affective cognitive and socially constructed needs This is a valuable book for anyone concerned with alternative approaches to education and for courses on educational theory or the philosophy of education *Maria Montessori* Marion O'Donnell, 2014-10-23 Maria Montessori s work and thinking form a unique legacy to current educational thinking and practice In this text Marion O'Donnell explores the key themes of her philosophy of education and explores the relevance of Montessori practices today In a thorough survey and synthesis of Montessori s thinking and work this text examines the key aspects of Montessori education child development the learning environment the role of the teacher the role of the learner and parental involvement Within each key aspect the author considers the implications for Montessori education and the views of critics and supporters demonstrating their relevance to the demands of an education system within today s modern society The Collected Poems and Selected Prose Stanley Burnshaw, 2010-01-01 Stanley Burnshaw began to publish poems in the 1920s and founded his own verse journal in 1925 After serving as coeditor and drama critic of the *New Masses* weekly 1934-1936 he entered book publishing directing the Dryden Press until 1958 when he joined Henry Holt The first of his nineteen earlier works *Andr Spire and His Poetry* appeared in 1934 and the last in 1990 A Stanley Burnshaw Reader with an introduction by Denis Donoghue The present volume the definitive Burnshaw collection offers all the poems he wishes to preserve and a full representation of his prose including *My Friend My Father* in its entirety The *Collected Poems and Selected Prose* is vital reading for anyone wishing to be fully acquainted with the man whom Karl Shapiro called one of the best respected men of letters of our time **Selected Papers of the Summer School for Engineering Teachers**, 1929 Reprints in part Philosophical Psychology William F. O'Neill, George D. Demos, 2012-09-18 *Philosophical Psychology* contains many provocative and profound ideas some of which may be sensed as offensive by those

with rather thin intellectual skins Some readers in capitalistic societies may take offense at any suggestion that Marx had some good insights about a healthier way to achieve self actualization Others may find it bizarre to read that perhaps Hitler and Stalin were in some ways happier and more self actualized in their roles as brutal tyrants than they would have been in more normal roles The range of ideas and thinkers included in this work is extensive Authors Dr William F O Neill and Dr George Demos examine essential life issues such as pain pleasure society ethics and love culminating in a careful look at the various aspects of peak experience The chapters build toward a better understanding of the concepts of self actualization and peak experience This is essential reading for upper division and graduate level students seeking to deepen their understanding and apply the concepts of Abraham Maslow s theory of self actualization and its inherent role in education

Chamberlain** Thomas CHAMBERLAIN, 1842 **Geek Heresy** Kentaro Toyama, 2015-05-26 After a decade designing technologies meant to address education health and global poverty award winning computer scientist Kentaro Toyama came to a difficult conclusion Even in an age of amazing technology social progress depends on human changes that gadgets can't deliver Computers in Bangalore are locked away in dusty cabinets because teachers don't know what to do with them Mobile phone apps meant to spread hygiene practices in Africa fail to improve health Executives in Silicon Valley evangelize novel technologies at work even as they send their children to Waldorf schools that ban electronics And four decades of incredible innovation in America have done nothing to turn the tide of rising poverty and inequality Why then do we keep hoping that technology will solve our greatest social ills In this incisive book Toyama cures us of the manic rhetoric of digital utopians and reinvigorates us with a deeply people centric view of social change Contrasting the outlandish claims of tech zealots with stories of people like Patrick Awuah a Microsoft millionaire who left his engineering job to open Ghana's first liberal arts university and Tara Sreenivasa a graduate of a remarkable South Indian school that takes impoverished children into the high tech offices of Goldman Sachs and Mercedes Benz *Geek Heresy* is a heartwarming reminder that it's human wisdom not machines that move our world forward The Academic Profession Paul H.
