Wynne,John E.R. Staddon,2013-06-17 This volume presents an international group of researchers who model animal and human behavior both simple and complex The models presented focus on such subjects as the pattern of eating in meals and bouts the energizing and shaping impact of reinforcers on behavior transitive inferential reasoning responding to a compound stimulus avoidance and escape learning recognition memory category formation generalization the timing of adaptive responses and chromosomes exchanging information The chapters are united by a common interest in adaptive behavior whether of human animal or artificial system and clearly demonstrate the rich variety of ways in which this fascinating area of research can be approached In so doing the book demonstrates the range of thought that qualifies as theorizing in the contemporary study of the mechanisms of adaptive behavior It has two purposes to bring together a very wide range of approaches in one place and to give authors space to explain how their ideas developed Journal literature often presents fully formed theories with no

explanation of how an idea came to have the shape in which it is presented In this volume however leaders in different fields provide background on the development of their ideas Where once psychologists and a few zoologists had this field to themselves now various types of computer scientists have added great energy to the mix *Genetic Programming III* John R. Koza,1999 Genetic programming GP is a method for getting a computer to solve a problem by telling it what needs to be done instead of how to do it Koza Bennett Andre and Keane present genetically evolved solutions to dozens of problems of design control classification system identification and computational molecular biology Among the solutions are 14 results competitive with human produced results including 10 rediscoveries of previously patented inventions OpenGL Programming Guide John Kessenich,Graham Sellers,Dave Shreiner,2016-07-25 Complete Coverage of OpenGL 4 5 the Latest Version Includes 4 5 4 4 SPIR V and Extensions The latest version of today s leading worldwide standard for computer graphics OpenGL 4 5 delivers significant improvements in application efficiency flexibility and performance OpenGL 4 5 is an exceptionally mature and robust platform for programming high quality computer generated images and interactive applications using 2D and 3D objects color images and shaders OpenGL Programming Guide Ninth Edition presents definitive comprehensive information on OpenGL 4 5 4 4 SPIR V OpenGL extensions and the OpenGL Shading Language It will serve you for as long as you write or maintain OpenGL code This edition of the best selling Red Book fully integrates shader techniques alongside classic function centric approaches and contains extensive code examples that demonstrate modern techniques Starting with the fundamentals its wide ranging coverage includes drawing color pixels fragments transformations textures framebuffers light and shadow and memory techniques for advanced rendering and nongraphical applications It also offers discussions of all shader stages including thorough explorations of tessellation geometric and compute shaders New coverage in this edition includes Thorough coverage of OpenGL 4 5 Direct State Access DSA which overhauls the OpenGL programming model and how applications access objects Deeper discussions and more examples of shader functionality and GPU processing reflecting industry trends to move functionality onto graphics processors Demonstrations and examples of key features based on community feedback and suggestions Updated appendixes covering the latest OpenGL libraries related APIs functions variables formats and debugging and profiling techniques

Adolescents and Constitutional Law Roger J. R. Levesque,2019-10-11 This textbook offers a foundation for understanding adolescents rights by articulating the complexity breadth and challenging nature of laws regulating adolescents It showcases the Supreme Court s key interpretations of the Constitution as it relates to adolescents rights Chapters examine relevant legal systems and the social contexts that legal systems control In addition chapters discuss constitutional issues and their nuances through actual cases that often offer alternative interpretations of constitutional rules The textbook guides readers through both well accepted and often ignored conceptions of adolescents rights It offers readers unfamiliar with the law the tools they need to understand the importance of adolescents constitutional rights and how they

can contribute to developing them Topics featured in this text include The role of parents and family systems in conceptualizing adolescents rights The complexities of providing health care to adolescents Religious freedom and adolescents rights relating to religion The flaws of child welfare systems The challenge of developing rights specifically for juveniles and delinquent youth Juvenile court systems and the differential treatment of adolescents The difference between the juvenile court system and the criminal court system Adolescents media rights Adolescents and Constitutional Law is an essential textbook for graduate students as well as a must have reference for researchers professors and related professionals in developmental psychology juvenile justice youth offending social work psychology and law family studies constitutional law and other interrelated disciplines   QoS Management of Web Services Zibin Zheng,Michael R. Lyu,2013-02-02 Quality of Service QoS is normally used to describe the non functional characteristics of Web services and as a criterion for evaluating different Web services QoS Management of Web Services presents a new distributed QoS evaluation framework for these services Moreover three QoS prediction methods and two methods for creating fault tolerant Web services are also proposed in this book It not only provides the latest research results but also presents an excellent overview of QoS management of Web sciences making it a valuable resource for researchers and graduate students in service computing Zibin Zheng is an associate research fellow at the Shenzhen Research Institute The Chinese University of Hong Kong China Professor Michael R Lyu also works at the same institute
