Selected Essays Of Lenin:

Selected Essays of Lenin Vladimir Il'ich Lenin, 1970-01-01 **Russia in World History** Mikhail Nikolaevich Pokrovskii, 1970 **Alasdair MacIntyre's Engagement with Marxism**, 2008-03-31 Although Alasdair MacIntyre is best known today as the author of *After Virtue* 1981 he was in the 1950s and 1960s one of the most erudite members of Britain's Marxist Left being a militant within first the Communist Party then the New Left and finally the heterodox Trotskyist International Socialism group This selection of his essays on Marxism from that period aims to show that his youthful thought profoundly informed his mature ethics and that in the wake of the collapse of the state capitalist regimes in Russia and Eastern Europe the powerful and optimistic revolutionary Marxist ethics of liberation he articulated in that period is arguably as salient to anti capitalist activists today as it was half a century ago **The National Union Catalogs, 1963-**, 1964

How Haig Saved Lenin B. Pearce, 1987-11-12 **Lenin's Terror** James Ryan, 2012 This book explores the development of Lenin's thinking on violence throughout his career from the last years of the Tsarist regime in Russia through to the 1920s and the New Economic Policy and provides an important assessment of the significance of ideological factors for understanding Soviet state violence as directed by the Bolshevik leadership during its first years in power It highlights the impact of the First World War in particular its place in Bolshevik discourse as a source of legitimating Soviet state violence after 1917 and explains the evolution of Bolshevik dictatorship over the half decade during which Lenin led the revolutionary state It examines the militant nature of the Leninist worldview Lenin's conception of the revolutionary state the evolution of his understanding of dictatorship of the proletariat and his version of just war The book argues that ideology can be considered primarily important for understanding the violent and dictatorial nature of the early Soviet state at least when focused on the party elite but it is also clear that ideology cannot be understood in a contextual vacuum The oppressive nature of Tsarist rule the bloodiness of the First World War and the vulnerability of the early Soviet state as it struggled to survive against foreign and domestic opponents were of crucial significance The book sets Lenin's thinking on violence within the wider context of a violent world **Unfinished Leninism** Paul Le Blanc, 2014-06-17 A stimulating collection of essays on the revolutionary socialist Vladimir Lenin that survey fierce controversies over his life and ideas

Chenoy, Archana Upadhyay, 2021-04-07 The book reflects upon the Russian Revolution of 1917 and the ensuing developments in Russia the rest of the former Soviet Union Central and Eastern Europe and elsewhere in the world It discusses the impact of the legacies of the Russian Revolution on political systems ideologies economic and social structures and culture The book answers some pertinent questions To what extent are these legacies relevant today for the contextualisation of memory politics social institutions and international relations How does an analysis of 1917 and its legacies contribute to the comparative study of revolutions and social change

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1973 **Anti-Bolshevik Communism** Paul Mattick, Jr., 2017-09-29 This title was first published in 1978 Communism aims at putting working people in charge of their lives A multiplicity of Councils rather than a big state bureaucracy is needed to empower working people and to focus control over society Mattick develops a theory of a council communism through his survey of the history of the left in Germany and Russia He challenges Bolshevik politics especially their perspectives on questions of Party and Class and the role of Trade Unions Mattick argues that a The revolutions which succeeded first of all in Russia and China were not proletarian revolutions in the Marxist sense leading to the a association of free and equal producers but state capitalist revolutions which were objectively unable to issue into socialism Marxism served here as a mere ideology to justify the rise of modified capitalist systems which were no longer determined by market competition but controlled by way of the authoritarian state Based on the peasantry but designed with accelerated industrialisation to create an industrial proletariat they were ready to abolish the traditional bourgeoisie but not capital as a social relationship This type of capitalism had not been foreseen by Marx and the early Marxists even though they advocated the capture of state power to overthrow the bourgeoisie a but only in order to abolish the state itself a Nations of Nothing But Poetry Matthew Hart, 2010-04-22 Vernacular discourse from major to minor The impossibility of synthetic Scots or Hugh MacDiarmid s nationalist internationalism A dialect written in the spelling of the capital Basil Bunting goes home Tradition and the postcolonial talent T S Eliot versus E K Brathwaite Transnational anthems and the ship of state Harryette Mullen Melvin B Tolson and the politics of afro modernism Epilogue denationalizing Mina Loy *The SAGE Handbook of Marxism* Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s

Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates The Christian Century ,1924 **RetroSpace: Collected Essays on Chicano Literature** Juan

Bruce-Novoa,1990-01-01 RetroSpace is a collection of the seminal articles of the noted critic Bruce Novoa on the history and theory of Chicano literature *Revolution and State in Modern Mexico* Adam David Morton,2011-09-16 This groundbreaking study develops a new approach to understanding the formation of the postrevolutionary state in Mexico Adam David Morton links the rise and demise of the modern Mexican state to ongoing forms of class struggle that have shaped and restructured state and civil society He thus sheds valuable interdisciplinary light on debates on state formation by recovering radical tools of analysis such as uneven development and class struggle for the wider study of past and present politics in Mexico and more broadly Latin America *New Definitions of Lyric* Mark Jeffreys,1998 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory **Pantheons** Matthew Craske,2017-07-05 The institution of the pantheon has come a long way from its classical origins Invented to describe a temple dedicated to many deities the term later became so far removed from its original meaning that by the twentieth century it has been able to exist independently of any architectural and sculptural monument This collection of essays is the first to trace the transformation of the monumental idea of the pantheon from its origins in Greek and Roman antiquity to its later appearance as a means of commemorating and enshrining the ideals of national identity and statehood Illuminating the emergence of the pantheon in a range of different cultures and periods by exploring its different manifestations and implementations the essays open new historical perspectives on the formation of national and civic identities Speeches of Karl Liebknecht Karl Paul August Friedrich Liebknecht,1927
