How can Christianity touch the imagination of our contemporaries when ever fewer people in the West identify as religious Timothy Radcliffe argues we must show how everything we believe is an invitation to live fully God says I put before you life and death choose life Anyone who understands the beauty and messiness of human life novelists poets filmmakers and so on can be our allies whether they believe or not The challenge is not today's secularism but its banality We accompany the disciples as they struggle to understand this strange man who heals casts out demons and offers endless forgiveness In the face of death he teaches them what it means to be alive in God Then he embraces all that afflicts and crushes humanity Finally Radcliffe explores what it means for us to be alive spiritually physically sacramentally justly and prayerfully The result is a compelling new understanding of the words of Jesus I came that they may have life and have it abundantly **Sense and Spirituality** James

J. McCullough,2015-06-02 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God's purposes James McCullough suggests how these dynamics can mutually enhance each other with the arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them *Communities of Care* Talia

Schaffer,2025-07-08 What we can learn about caregiving and community from the Victorian novel In *Communities of Care* Talia Schaffer explores Victorian fictional representations of care communities small voluntary groups that coalesce around someone in need Drawing lessons from Victorian sociality Schaffer proposes a theory of communal care and a mode of

critical reading centered on an ethics of care In the Victorian era medical science offered little hope for cure of illness or disability and chronic invalidism and lengthy convalescences were common Small communities might gather around afflicted individuals to minister to their needs and palliate their suffering Communities of Care examines these groups in the novels of Jane Austen Charlotte Bront Charles Dickens George Eliot Henry James and Charlotte Yonge and studies the relationships that they exemplify How do carers become part of the community How do they negotiate status How do caring emotions develop And what does it mean to think of care as an activity rather than a feeling Contrasting the Victorian emphasis on community and social structure with modern individualism and interiority Schaffer s sympathetic readings draw us closer to the worldview from which these novels emerged Schaffer also considers the ways in which these models of carework could inform and improve practice in criticism in teaching and in our daily lives Through the lens of care Schaffer discovers a vital form of communal relationship in the Victorian novel Communities of Care also demonstrates that literary criticism done well is the best care that scholars can give to texts
