Money And Modernity Pound Williams And The Spirit Of Jefferson:

Money and Modernity Alec Marsh, 2011-09-23 Marsh locates Pound and Williams firmly in the Jeffersonian tradition and examines their epic poems as manifestations of a Jeffersonian ideology in modernist terms The modernist poets William Carlos Williams and Ezra Pound were latter day Jeffersonians whose politics and poetry were strongly marked by the populism of the late 19th century They were sharply aware of the social contradictions of modernization and were committed to a highly politicized often polemical poetry that criticized finance capitalism and its institutions notably banks in the strongest terms Providing a history of the aesthetics of Jeffersonianism and its collision with modernism in the works of Pound and Williams Alec Marsh traces the money question from the republican period through the 1940s Marsh can thus read two modernist epics Pound's *Cantos* and Williams's *Paterson* as the poets hoped they would be read as attempts to break the hold of false financial values on the American imagination Marsh argues that Pound's and Williams's similar Jeffersonian outlooks were the direct result of the political battles of the 1890s concerning the meaning of money Although Pound's interest in money and economics is well known few people are aware that both poets were active in the Social Credit monetary reform movement of the 1930s and 1940s a movement shown by Marsh to have direct links to Jeffersonianism via American populism Ultimately the two poets took divergent paths with Pound swerving toward Italian fascism as exemplified in his *Jefferson* and or Mussolini and Williams becoming deeply influenced by the American pragmatism of John Dewey Thus Marsh concludes Pound embraced the fascist version of state capitalism whereas his old friend proclaimed a pragmatic openness to the new selves engendered by corporate capitalism *Money and Modernity* exemplifies the best of recent literary criticism in its incorporation of American studies and cultural studies approaches to bring new insight to modern masterworks

Love and Money Michael Tratner, 2021-02-25 When people speak about love and money they usually are referring to a conflict love distorted by the desire for money Such statements imply that love has a distinct form before economics interferes but this book aims to show that such a view simplifies what is going on because people have always been deeply shaped by everything in the social order including economics So when people say that money is distorting love what they are really saying is that the current relationship of love and economics is different from an earlier relationship This book seeks then to demonstrate the intertwining of the discourses of love and money over a long history by focusing on moments when parallel conceptions appear in economic theories and love stories The two discourses intersect because both seek to define qualities and behaviors of human beings which are most valuable and hence most desirable Similar descriptions of valuable behaviors appear at roughly the same time in economic theories of how to acquire wealth and literary stories of how to find ideal lovers By tracking mutual expressions of desire value and acquisition in economics and love stories this book argues for the ubiquity of the intertwining of these discourses while exploring shifts in conceptions of value It focuses on four eras when economic and romantic conceptions of what is most desirable were actively changing in

John Kasper and Ezra Pound Alec Marsh, 2015-05-21 John Kasper was a militant far right activist who first came to prominence with his violent campaigns against desegregation in the Civil Rights era Ezra Pound was the seminal figure in Anglo American modernist literature and one of the most important poets of the 20th century This is the first book to comprehensively explore the extensive correspondence lasting over a decade and numbering hundreds of letters between the two men John Kasper and Ezra Pound examines the mutual influence the two men exerted on each other in Pound's later life how John Kasper developed from a devotee of Pound's poetry to an active right wing agitator how Pound's own ideas about race and American politics developed in his discussions with Kasper and how this informed his later poetry Shedding a disturbing new light on Ezra Pound's committed engagement with extreme right wing politics in Civil Rights era America this is an essential read for students of 20th century literature

Ezra Pound and Confucianism Feng Lan, 2011-11-01 In *Ezra Pound and Confucianism* Feng Lan offers the first study of Ezra Pound's project of establishing a Confucian humanism as an alternative to Western modernism While Pound scholars are familiar with the American poet's commitment to Confucianism the question of how Confucianism systematically shaped Pound's thoughts has not been convincingly answered Lan shows that when confronted with what appeared to him a dehumanising modern world Pound discovered in Confucianism possible solutions to issues that he encountered in language politics and religion which Western intellectual tradition as a whole had failed to provide By integrating Confucian doctrines with received ideas from Western tradition Pound developed a humanist discourse and brought it to bear on the historical conditions of his time The result was a discourse characterized primarily by the following beliefs the human mind as the source of creation the individual's moral will as the basis of truth and social order the human partnership with the world of nature the self-perfectibility of human beings and their innate capability for internal transcendence in spiritual life Lan examines the strategies with which Pound reconstructed Confucianism into a systematic modern discourse focusing on his controversial translation of Confucian scriptures his rethinking of the nature of

language and poetry his political theory of the individual and the state and his formulation of an unorthodox spirituality Situating Pound's works in diverse cultural historical and intellectual contexts Ezra Pound and Confucianism demonstrates that despite its frequent divergence from the Confucian canon Pound's Confucian humanism gives his poetry an ideological coherence enriches the Western humanist tradition and asserts its relevance to the historical and cross cultural development of Confucianism in modern times

If Babel Had a Form Tze-Yin Teo, 2022-04-05 The likeness of form between Chinese and English sentences writes the American Sinologist Ernest Fenollosa around 1906 renders translation from one to the other exceptionally easy If Babel Had a Form asks not if his claim may be true but what its phantasmic surprise may yet do In twentieth century intersections of China and Asia with the United States translations did more than communicate meaning across politicized and racializing differences of language and nation Transpacific translation breached the regulative protocols that created those very differences of human value and cultural meaning The result Tze Yin Teo argues saw translators cleaving to the sounds and shapes of poetry to imagine a translingual likeness of form but not of meaning or kind At stake in this form without meaning is a startling new task of equivalence As a concept equivalence has been rejected for its colonizing epistemology of value naming a broken promise of translation and false premise of comparison Yet the writers studied in this book veered from those ways of knowing to theorize a poetic equivalence negating the colonial foundations of the concept they ignited aporias of meaning into flashpoints for a radical literary translation The book's transpacific readings glean those forms of equivalence from the writing of Fenollosa the vernacular experiments of Boxer Scholar Hu Shi the trilingual musings of Shanghai born Los Angeles novelist Eileen Chang the minor work of the Bay Area Korean American transmedial artist Theresa Cha and a post Tiananmen elegy by the exiled dissident Yang Lian The conclusion returns to the deconstructive genealogy of recent debates on translation and untranslatability displacing the axiom of radical alterity for a no less radical equivalence that remains pace Fenollosa far from easy or exceptional Ultimately If Babel Had a Form illuminates the demanding force of even the slightest sameness entangled in the translator's work of remaking our differences

Ezra Pound's Adams Cantos David Ten Eyck, 2013-02-28 Ezra Pound transformed his style of poetry when he wrote The Adams Cantos in the 1920s But what caused him to rethink his earlier writing techniques Grounded in archival material this study explores the extent to which Pound's poetry changed in response to his reading of 17th century American History and the social climate of the pre war period Drawing on the Ezra Pound papers David Ten Eyck documents the changes to Pound's documentary techniques establishing a chronology of the composition of The Cantos His close readings of specific passages set against the interwar years allow Ten Eyck to gain insights into Pound's 1930s political and social criticism Through references to the annotated copy of The Works of John Adams he explores Pound's engagement with Adams at the expense of Thomas Jefferson a figure formally at the heart of his previous work Ultimately this contextual and archival study uses John Adams and America to unlock the fascist beliefs and the later poetry of Ezra Pound
