

Praise for *Monkeys, Men, and Missiles*

"The mind boggles at the energy which fueled not only a couple of hundred learned papers and three administrative jobs, but a hectic social life on both sides of the Atlantic as well as a contented family life in Birmingham and Norfolk....A deeply engaging book."

Times Literary Supplement

"[An] extraordinary experience, a kind of fast-forward eavesdropping on the Great and Good...of British public life."

Sunday Times

"In this fascinating and highly informative second volume of reminiscence, he sketches the rewards and disappointments of a lifetime spent at the interface of science and the public service."

New Statesmen & Society

"Engaging and important reminiscences."

Sunday Telegraph

"At once charming and erudite, *Monkeys, Men, and Missiles* is an authoritative history of many of the major decisions affecting the security of the West in the past four decades—a delightful book."

Robert S. McNamara

"Not only is this book remarkable for the continuity it provides over such a long period of time, but it is well worth reading just for the special insights...into the U.S.-U.K. relationship."

Monkeys Men And Missiles

Solly Baron Zuckerman

Monkeys Men And Missiles:

Monkeys, Men, and Missiles Solly Baron Zuckerman, 1989 An elegant and urbane memoir of 42 years of worldwide scientific controversy Zuckerman was a true polymath roaming the world of science from an English research facility to international diplomatic and negotiating circles Photos **Bulletin of the Atomic Scientists**, 1990-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Monkeys, Men, and Missiles Solly Zuckerman Baron Zuckerman, 1989 **Mountbatten, Cold War and Empire, 1945-79** Adrian Smith, 2022-11-17 Mountbatten Cold War and Empire 1945-79 focuses upon Admiral Lord Mountbatten as a commanding if controversial figure in the history of Britain and its empire from Churchill's wartime coalition through to the Labour governments of the 1960s and forms a sequel to Mountbatten Apprentice War Lord Written in three parts focusing on the premierships of Churchill and Attlee Eden Macmillan Douglas Home and Wilson this book examines the debates over Mountbatten's record in Southern Asia in 1943-6 and 1947-8 Additional chapters focus on Mountbatten's position at the heart of the British state and his pivotal role at key moments in the immediate post war era most notably the partition of India the Suez Crisis and the renewal of an ostensibly independent nuclear deterrent This book also considers Mountbatten's relationship with Anthony Eden both during and following the Suez Crisis as well as detailing Mountbatten's achievements as First Sea Lord and Chief of the Defence Staff under Harold Macmillan and his immediate successors Smith acknowledges Mountbatten's centrality to the history of Britain and its empire in the immediate post war era and in doing so presents a fascinating picture of one of the most prominent figures of the 20th century Smith's scrupulous examination of primary sources including those available in the Broadlands Archives results in a thorough examination of a controversial figure by eschewing often baseless speculation about Mountbatten's personal life Smith creates the first comprehensive overview of Admiral Lord Mountbatten's career from 1943 to the mid sixties *History of the Office of the Secretary of Defense: Into the missile age, 1956-1960* Alfred Goldberg, 1984 *It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle (1566-1643) to John Tyndall (1820-1893); Volume 2: Samuel Haughton (18210-1897) to John Stewart Bell (1928-1990)* Charles Mollan, 2007-11-15 Biographies of more than 100 Irish scientists or those with strong Irish connections in the disciplines of Chemistry and Physics including Astronomy Mathematics etc describing them in their Irish and international scientific social educational and political context Written in an attractive informal style for the hypothetical educated layman who does not need to have studied science Well received in Irish and international reviews *Imagining Nuclear War in the British Army, 1945-1989* Simon J. Moody, 2019-12-05 The primary mission assigned to the British Army from the 1950s until the end of the Cold War was deterring Soviet aggression in Europe by demonstrating the will and capability to fight with nuclear weapons in defence of NATO territory This surreal mission was unlike any other in history and raised a number of

conceptual and practical difficulties This comprehensive study observes how the British Army imagined nuclear war and how it planned to fight it Using new archival sources Simon J Moody analyses British thinking about tactical nuclear weapons the role of the Army within NATO strategy the development of theories of tactical nuclear warfare how nuclear war was taught at the Staff College the role of operational research and the evolution of the Army's nuclear war fighting doctrine He argues that the British Army possessed the intellectual capacity for organisational adaptation but that it displayed a cognitive dissonance about some of the more uncomfortable realities of nuclear war

Blue Streak John Boyes, 2019-07-02 In the early 1950s the United States wished to concentrate its defence resources on the development of a 4 000 mile range intercontinental ballistic missile As a stop gap measure US defence chiefs hoped to assist Britain with the development of its own intermediate range missile Despite US concerns that British resources were limited the Air Ministry nonetheless proceeded with the missile called Blue Streak to fulfil the operational requirement which would give Britain an independent deterrent which should remain invulnerable until the early 1970s Blue Streak Britain's Medium Range Ballistic Missile traces the path from the political decision to issue the contracts through the early development and testing both in the UK and in Australia The reasons for the project's cancellation are considered and Blue Streak's subsequent role as the first stage of the ELDO civilian satellite launcher is noted A requirement of the project was the need to base the missiles in underground launchers to protect them from attack This aspect of the project is fully covered using recently available information and specially drawn plans

The Silent Deep James Jinks, Peter Hennessy, 2015-10-29 The Ministry of Defence does not comment upon submarine operations is the standard response of officialdom to enquiries about the most secretive and mysterious of Britain's armed forces the Royal Navy Submarine Service Written with unprecedented co operation from the Service itself and privileged access to documents and personnel *The Silent Deep* is the first authoritative history of the Submarine Service from the end of the Second World War to the present It gives the most complete account yet published of the development of Britain's submarine fleet its capabilities its weapons its infrastructure its operations and above all from the testimony of many submariners and the first hand witness of the authors what life is like on board for the denizens of the silent deep Dramatic episodes are revealed for the first time how HMS Warspite gathered intelligence against the Soviet Navy's latest ballistic missile carrying submarine in the late 1960s how HMS Sovereign made what is probably the longest ever trail of a Soviet or Russian submarine in 1978 how HMS Trafalgar followed an exceptionally quiet Soviet Victor III probably commanded by a Captain known as the Prince of Darkness in 1986 It also includes the first full account of submarine activities during the Falklands War But it was not all victories confrontations with Soviet submarines led to collisions and the extent of losses to UK and NATO submarine technology from Cold War spy scandals are also made more plain here than ever before In 1990 the Cold War ended but not for the Submarine Service Since June 1969 it has been the last line of national defence with the awesome responsibility of carrying Britain's nuclear deterrent The story from Polaris to

Trident and now Successor is a central theme of the book In the year that it is published Russian submarines have once again been detected off the UK's shores As Britain comes to decide whether to renew its submarine carried nuclear deterrent The Silent Deep provides an essential historical perspective In Mortal Hands Stephanie Cooke, 2009-07-01 This landmark history of nuclear power is perfectly timed for today when Americans are gravely concerned with nuclear terrorism and a nuclear renaissance is seen as a possible solution to global warming Few have truly come to terms with the complexities of an issue which may determine the future of the planet Nuclear weapons it was once hoped would bring wars to a close instead they spurred a massive arms race that has recently expanded to include North Korea and Iran Once seen as a source of unlimited electricity nuclear reactors breed contamination and have been used as covers for secret weapons programs from India and Pakistan to Iraq and Iran The evolving story of nuclear power as told by industry insider Stephanie Cooke reveals the gradual deepening of our understanding of the pros and cons of this controversial energy source Drawing on her unprecedented access Cooke shows us how time and again the stewards of the nuclear age the more is better military commanders and civilian nuclear boosters have fallen into the traps of their own hubris and wishful thinking as they tried to manage the unmanageable Their mistakes are on the verge of being repeated again which is why this book deserves especially close attention now
