Sara Westin

Monomania The Flight From Everyday Life In Literature And Art:

Monomania Marina Van Zuylen, 2018-05-31 This book is about the obsessive strategies people use to keep the arbitrary out of their lives it is about the fanaticism and intolerance linked to their ideas of perfection and permanence Those readers who have brushed against the dangers of the *id e fixe* who have come close to surrendering to something or someone diabolically seductive or coercive will recognize in these characters their own encounter with a dangerously systematized world From the introduction Monomania explores the cultural prominence of the *id e fixe* in Western Europe during the nineteenth and twentieth centuries Marina van Zuylen revives the term monomania to explore the therapeutic attributes of obsession She introduces us to artists and collectors voyeurs and scholars hypochondriacs and melancholics whose lives are run by debilitating compulsions that may become powerful weapons against the tyranny of everyday life In van Zuylen's view there is a productive tension between disabling fixations and their curative powers she argues that the *id e fixe* has acted as a corrective for the multiple disorders of modernity The authors she studies Charles Baudelaire Sophie Calle Elias Canetti George Eliot Gustave Flaubert and Thomas Mann among them embody or set in motion different manifestations of this monomaniacal imperative Their protagonists or alter egos live more intensely more meaningfully because of the compulsive pressures they set up for themselves Monomania shows that transforming life into art or at least into the artful drives out the anxiety of the void and puts in its place something so orderly and meaningful that it can take on the aura of a religion

The Cambridge History of French Literature William Burgwinkle, Nicholas Hammond, Emma Wilson, 2011-02-24 From Occitan poetry to Francophone writing produced in the Caribbean and North Africa from intellectual history to current films and from medieval manuscripts to bandes dessinées this History covers French literature from its beginnings to the present day With equal attention to all genres historical periods and registers this is the most comprehensive guide to literature written in French ever produced in English and the first in decades to offer such an array of topics and perspectives Contributors attend to issues of orality history peripheries visual culture alterity sexuality religion politics autobiography and testimony The result is a collection that despite the wide variety of topics and perspectives presents a unified view of the richness of French speaking cultures This History gives support to the idea that French writing will continue to prosper in the twenty first century as it adapts adds to and refocuses the rich legacy of its past

The Paradoxes of Planning Sara Westin, 2016-03-03 Why is it that modern architects and planners these benevolent and socially visionary experts have created environments that can make one feel so uneasy Using a philosophical and psycho analytical approach this book critically examines expert knowledge within architecture and urban planning Its point of departure is the gap between visions and realities intentions and outcomes in planning with particular focus on projects in Sweden that try to create an urban atmosphere Finding insights from the work of Sigmund Freud and his followers the book argues that urban planning during the 20th century is a neurotic activity prone to produce a type of alienation Besides trying to understand the gap

between intentions and outcomes in planning the book also discusses how to define the concept of the urban juxtaposing different knowledge traditions contrasting the positivistic theory of space syntax with poetic dialectical approaches the planner view of the city with that of the fl neur examining texts by Virginia Woolf and August Strindberg *Staging the Archive* Ernst van Alphen, 2014-11-15 Dedicated to art practices that mobilize the model of the archive *Staging the Archive* demonstrates the ways in which such archival artworks probe the possibilities of what art is and what it can do Through a variety of media methodologies and perspectives the artists surveyed here also challenge the principles on which the notions of organization evidence and documentation are built The earliest examples of the modern archival artwork were made in the 1930s but only since the 1960s have artists really embraced archival principles to inform structure and shape their works This includes practices that consist of archive construction archaeological investigation record keeping and the use of archived materials but also interrogations of the principles claims and effects of the archive *Staging the Archive* shows how artists read the concept of the archive against the grain questioning not only what the archive is and can be but what materials images or ideas can be archived Ernst van Alphen examines these archival artists and artworks in detail setting them within their social political and aesthetic contexts Exploring the works of Marcel Duchamp Marcel Broodthaers Christian Boltanski Annette Messager Fiona Tan and Sophie Calle among others he reveals how modern and contemporary artists have used and contested the notion of the archive to establish new relationships to history information and data

Listening and Longing Daniel Cavicchi, 2012-01-01 Winner of the Northeast Popular Culture Association's Peter C Rollins Book Award 2012 Winner of the ASCAP Deems Taylor Award 2012 *Listening and Longing* explores the emergence of music listening in the United States from its early stages in the antebellum era when entrepreneurs first packaged and sold the experience of hearing musical performance to the Gilded Age when genteel critics began to successfully redefine the cultural value of listening to music In a series of interconnected stories American studies scholar Daniel Cavicchi focuses on the impact of industrialization urbanization and commercialization in shaping practices of music audiences in America Grounding our contemporary culture of listening in its seminal historical moment before the iPod stereo system or phonograph Cavicchi offers a fresh understanding of the role of listening in the history of music *A Companion to Media Fandom and Fan Studies* Paul Booth, 2018-05-01 *A Companion to Media Fandom and Fan Studies* offers scholars and fans an accessible and engaging resource for understanding the rapidly expanding field of fan studies International in scope and written by a team that includes many major scholars this volume features over thirty especially commissioned essays on a variety of topics which together provide an unparalleled overview of this fast growing field Separated into five sections Histories Genealogies Methodologies Fan Practices Fandom and Cultural Studies Digital Fandom and The Future of Fan Studies the book synthesizes literature surrounding important theories debates and issues within the field of fan studies It also traces and explains the social historical political commercial ethical and creative dimensions of fandom and fan studies Exploring both

the historical and the contemporary fan situation the volume presents fandom and fan studies as models of 21st century production and consumption and identifies the emergent trends in this unique field of study **Threat** Georgina Evans, 2010 This collection of essays arises from the 7th annual Cambridge French Graduate Conference held July 4-5 2005 whose theme was threat *American Tyrannies in the Long Age of Napoleon* Elizabeth Duquette, 2023-08-29 What if the American experiment is twofold encompassing both democracy and tyranny That is the question at the core of this book which traces some of ways that Americans across the nineteenth century understood the perversions tyranny introduced into both their polity and society While some informed their thinking with reference to classical texts which comprehensively consider tyranny's dangers most drew on a more contemporary source Napoleon Bonaparte the century's most famous man and its most notorious tyrant Because Napoleon defined tyranny around the nineteenth century Atlantic world its features and emergence its relationship to democratic institutions its effects on persons and peoples he provides a way for nineteenth century Americans to explore the parameters of tyranny and their complicity in its cruelties Napoleon helps us see the decidedly plural forms of tyranny in the US bringing their fictions into focus At the same time however there are distinctly American modes of tyranny From the tyrannical style of the American imagination to the usurping potential of American individualism Elizabeth Duquette shows that tyranny is as American as democracy **Suffering Scholars** Anne C. Vila, 2018-02-01 As early as Aristotle's Problem XXX intellectual superiority has been linked to melancholy The association between sickness and genius continued to be a topic for discussion in the work of early modern writers most recognizably in Robert Burton's *The Anatomy of Melancholy* But it was not until the eighteenth century that the phenomenon known as the suffering scholar reached its apotheosis a phenomenon illustrated by the popularity of works such as Samuel Auguste Tissot's *De la santé des gens de lettres* first published in 1768 Though hardly limited to French speaking Europe the link between mental endeavor and physical disorder was embraced with particular vigor there as was the tendency to imbue intellectuals with an aura of otherness and detachment from the world Intellectuals and artists were portrayed as peculiarly susceptible to altered states of health as well as psyche the combination of mental intensity and somatic frailty proved both the privileges and the perils of knowledge seeking and creative endeavor In *Suffering Scholars* Anne C. Vila focuses on the medical and literary dimensions of the cult of celebrity that developed around great intellectuals during the French Enlightenment Beginning with Tissot's work which launched a subgenre of health advice aimed specifically at scholars she demonstrates how writers like Voltaire Diderot Rousseau and Mme de Staël responded to the suffering scholar syndrome and helped to shape it She traces the ways in which this syndrome influenced the cultural perceptions of iconic personae such as the philosophe the solitary genius and the learned lady By showing how crucial the so called suffering scholar was to debates about the mind-body relation as well as to sex and sensibility Vila sheds light on the consequences book learning was thought to have on both the individual body and the body politic not only in the eighteenth century but also into the decades following

the Revolution *Reading Style* Jenny Davidson, 2014-06-24 A professor critic and insatiable reader Jenny Davidson investigates the passions that drive us to fall in love with certain sentences over others and the larger implications of our relationship with writing style At once playful and serious immersive and analytic her book shows how style elicits particular kinds of moral judgments and subjective preferences that turn reading into a highly personal and political act Melding her experiences as reader and critic Davidson opens new vistas onto works by Jane Austen Henry James Marcel Proust and Thomas Pynchon adds richer dimension to critiques of W G Sebald Alan Hollinghurst Thomas Bernhard and Karl Ove Knausgaard and allows for a sophisticated appreciation of popular fictions by Stephen King Neil Gaiman Lionel Shriver George Pelecanos and Helen DeWitt She privileges diction syntax point of view and structure over plot and character identifying the intimate mechanics that draw us in to literature s sensual frameworks and move us to feel identify and relate Davidson concludes with a reading list of her favorite titles so others can share in her literary adventures and get to know better the imprint of her own reading style

Decoding **Monomania The Flight From Everyday Life In Literature And Art**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Monomania The Flight From Everyday Life In Literature And Art**," a mesmerizing literary creation penned by a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
