Monstrous And The Dead Burke Marx Fascism:

The Monstrous and the Dead Mark Neocleous, 2005 Examines the use of metaphors of monstrosity and the place of the dead in political theory specifically in relation to conservatism Marxism and fascism *Imagining the Dead in British Literature and Culture, 1790-1848* David McAllister, 2018-09-29 This book offers the first account of the dead as an imagined community in the early nineteenth century It examines why Romantic and Victorian writers including Wordsworth Dickens De Quincey Godwin and DIsraeli believed that influencing the imaginative conception of the dead was a way to either advance or resist social and political reform This interdisciplinary study contributes to the burgeoning field of Death Studies by drawing on the work of both canonical and lesser known writers reformers and educationalists to show how both literary representation of the dead and the burial and display of their corpses in churchyards dissecting rooms and garden cemeteries responded to developments in literary aesthetics psychology ethics and political philosophy *Imagining the Dead in British Literature and Culture 1790 1848* shows that whether they were lauded as exemplars or loathed as tyrants rendered absent by burial or made uncannily present through exhumation and display the dead were central to debates about the shape and structure of British society as it underwent some of the most radical transformations in its history **Marx's Temporalities** Massimiliano Tomba, 2012-11-09 The book rethinks key categories of Marx's work beyond any philosophy of history showing how the plurality of temporal layers that are combined and come into conflict in the violently unifying historical dimension of modernity are central to Marx's thought **Twisted Mirrors: Reflections of Monstrous Humanity**, 2020-09-25 *Twisted Mirrors* is a collection of papers which examine the monstrous in relation to humanity Culled from an international conference these essays were written by scholars from a variety of fields and represent a broad cross section in the scholastic investigation of the monstrous *The Reasoning of Unreason* John Roberts, 2018-08-23 The twenty first century so far has seen the global rise of authoritarian populism systematic racism and dogmatic metaphysics Even though these events demonstrate the growth of an age of unreason in this original and compelling book John Roberts resists the assumption that such thinking displays an unthinking irrationality or loss of reason instead he asserts that an important feature of modern reactionary politics is that it offers a supposedly convincing integration of the particular and the universal This move is defined by what Roberts calls the reasoning of unreason and has deep roots in the history of Western thought and politics Tracing the dark history of enlightenment disenlightenment John Roberts explores the reasoning of unreason across centuries from Aquinas William of Ockham the most important treatise on witchcraft *Malleus Maleficarum* Locke Kant and Count Arthur de Gobineau to Social Darwinism Nazism Carl Schmitt Leo Strauss and Friedrich von Hayek Roberts provides a new set of philosophical political tools to understand the formation and denigration of the rational subject and the current reinvestment in various forms of political unreason globally *The Reasoning of Unreason* is the first book to draw on the philosophy of reason political philosophy political theory and political history in order to produce a dialectical account of

the making of reason internal to the forces of unreason and the limits of reason **Monsters, Catastrophes and the Anthropocene** Gaia Giuliani, 2020-10-29 *Monsters Catastrophes and the Anthropocene A Postcolonial Critique* explores European and Western imaginaries of natural disaster mass migration and terrorism through a postcolonial inquiry into modern conceptions of monstrosity and catastrophe This book uses established icons of popular visual culture in sci fi doomsday and horror films and TV series as well as in images reproduced by the news media to help trace the genealogy of modern fears to ontologies and logics of the Anthropocene By logics of the Anthropocene the book refers to a set of principles based on ontologies of exploitation extermination and natural resource exhaustion processes determining who is worthy of benefiting from value extraction and being saved from the catastrophe and who is expendable Fears for the loss of isolation from the unworthy and the expendable are investigated here as originating anxieties against migrants invasions terrorist attacks and planetary catastrophes in a thread that weaves together re emerging past nightmares and future visions This book will be of great interest to students and academics of the Environmental Humanities Human and Cultural Geography Political Philosophy Psychosocial Studies Postcolonial Studies and Critical Race and Whiteness Studies Gender Studies and Postcolonial Feminist Studies Cultural Studies Sociology Cultural Anthropology Cinema Studies and Visual Studies

Burke on the Sublime Edmund Burke, 2013-12-28 New critical edition of this seminal text in the philosophy of art

Critique of Security Mark Neocleous, 2008-05-12 This book brings together a range of diverse discussions about security in order to sustain a genuine critique of the subject It is unique in its examination of the historical and political links between social security and national security and in its assessment of the way that emergency powers as the most intense realisation of the rhetoric of national security have been synthesised with normal law Among other ideas and concepts Mark Neocleous discusses the place of security in the liberal tradition of political theory Building on insights from Foucault and Marx he argues that liberalism s central category is not liberty but security He also deals with the role of security in justifying the introduction and continuation of emergency powers through a historical excavation of the state of emergency a political reading of the way emergency powers are only tangentially concerned with warfare and a theoretical reading of the debate between Schmitt and Benjamin **The Universal Adversary** Mark Neocleous, 2016-02-12 The history of bourgeois

modernity is a history of the Enemy This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state the Universal Adversary The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks But an attack from who or what This book the first to appear on the topic shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation Within the Universal Adversary there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker This reference reveals the conjoined power of the contemporary mobilisation of

security and the defence of capital But it also reveals much more Taking the figure of the disgruntled worker as its starting point the book introduces some of this worker s close cousins figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind the Zombie the Devil and the Pirate In situating these figures of enmity within debates about security and capital the book engages an extraordinary variety of issues that now comprise a contemporary politics of security From crowd control to contagion from the witch hunt to the apocalypse from pigs to intellectual property this book provides a compelling analysis of the ways in which security and capital are organized against nothing less than the Enemies of all Mankind War Power, Police Power Mark Neocleous, 2014-02-12 Why is liberalism so obsessed with waste Is there a drone above you now Are you living in a no fly zone What is the role of masculinity in the war on terror And why do so many liberals profess a love of peace while finding new ways to justify slaughter in the name of peace and security In this the first book to deal with the concepts of war power and police power together Mark Neocleous deals with these questions and many more by radically rethinking the relationship between war power and police power
