Passages In Modern Sculpture:

Passages in Modern Sculpture Rosalind E. Krauss, 1981-02-26 Studies major works by important sculptors since Rodin in the light of different approaches to general sculptural issues to reveal the logical progressions from nineteenth century figurative works to the conceptual work of the present Passages in Modern Sculpture Rosalind Krauss, 1985 *Passages in Modern Sculpture* Rosalind E. Krauss, 1981 Passages in Modern Sculpture Rosalind E. Krauss, 1981 **Passages in Modern Sculpture**, 1977 **Passages in Modern Sculpture** Rosalind E. Krauss, 1989 Modern sculpture, 1988

Modern Sculpture A.M. Hammacher, 1970 **Modern Sculpture** Abraham Marie Hammacher, 1988-01-01 Looks at prominent sculptors of the twentieth century discusses major movements and trends and shows works in a variety of mediums **'A Passage in Women's Sculpture'** Ronn Beattie, 2010-11 This book presents one contemporary lineage of women sculptors whose work comes from a site of domestic experience developed via a passage of alterity into sculptural form using a haptic hands on manner of material making This lineage is offered partially in response to Rosalind Krauss's 1977 *Passages in Modern Sculpture* which gave an almost exclusively male lineage for the development of the modern extended field of Western sculpture practice The passage outlined in this book introduces women sculptors who were trained by all male tutors who subsequently become tutors themselves significantly widening the teaching of sculpture in Fine Art Departments of Colleges and Universities It outlines certain changes in both the teaching and making of sculpture and the author's own experience of these changes Sculpture and the Museum Christopher R. Marshall, 2017-07-05 *Sculpture and the Museum* is the first in depth examination of the varying roles and meanings assigned to sculpture in museums and galleries during the modern period from neo classical to contemporary art practice It considers a rich array of curatorial strategies and settings in order to examine the many reasons why sculpture has enjoyed a position of such considerable importance and complexity within the institutional framework of the museum and how changes to the museum have altered in turn the ways that we perceive the sculpture within it In particular the contributors consider the complex issue of how best to display sculpture across different periods and according to varying curatorial philosophies Sculptors discussed include Canova Rodin Henry Moore Flaxman and contemporary artists such as Rebecca Horn Rachel Whiteread Mark Dion and Olafur Eliasson with a variety of museums in America Canada and Europe presented as case studies Underlying all of these discussions is a concern to chart the critical importance of the acquisition placement and display of sculpture in museums and to explore the importance of sculptures as a forum for the expression of programmatic statements of power prestige and the museum's own sense of itself in relation to its audiences and its broader institutional aspirations The Choreographic Jenn Joy, 2014-10-10 An investigation of dance and choreography that views them not only as artistic strategies but also as intrinsically theoretical and critical practices The choreographic stages a conversation in which artwork is not only looked at but looks back it is about contact that touches even across distance The choreographic moves between the corporeal and

cerebral to tell the stories of these encounters as dance trespasses into the discourse and disciplines of visual art and philosophy through a series of stutters steps trembles and spasms In *The Choreographic* Jenn Joy examines dance and choreography not only as artistic strategies and disciplines but also as intrinsically theoretical and critical practices She investigates artists in dialogue with philosophy describing a movement of conceptual choreography that flourishes in New York and on the festival circuit Joy offers close readings of a series of experimental works arguing for the choreographic as an alternative model of aesthetics She explores constellations of works artists writers philosophers and dancers in conversation with theories of gesture language desire and history She choreographs a revelatory narrative in which Walter Benjamin Pina Bausch Francis Al s and Cormac McCarthy dance together she traces the feminist and queer force toward desire through the choreography of DD Dorvillier Heather Kravas Meg Stuart La Ribot Miguel Gutierrez luciana achugar and others she maps new forms of communicability and pedagogy and she casts science fiction writers Samuel R Delany and Kim Stanley Robinson as perceptual avatars and dance partners for Ralph Lemon Marianne Vitali James Foster and Janet Cardiff and George Bures Miller Constructing an expanded notion of the choreographic Joy explores how choreography as critical concept and practice attunes us to a more productively uncertain precarious and ecstatic understanding of aesthetics and art making

Sculptural Materiality in the Age of Conceptualism Marin R. Sullivan, 2017-07-05 *Sculptural Materiality in the Age of Conceptualism* is structured around four distinct but interrelated projects initially realized in Italy between 1966 and 1972 Yayoi Kusama's *Narcissus Garden* Michelangelo Pistoletto's *Newspaper Sphere* *Sfera di giornali* Robert Smithson's *Asphalt Rundown* and Joseph Beuys's *Arena* These works all utilized non traditional materials collaborative patronage models and alternative modes of display to create a spatially and temporally dispersed arena of matter and action with photography serving as a connective material thread within the sculpture it reflects While created by major artists of the postwar period these particular projects have yet to receive substantive art historical analysis especially from a sculptural perspective Here they anchor a transnational narrative in which sculpture emerged as a node a center of transaction comprising multiple material phenomenon including objects images and actors When seen as entangled polymorphous entities these works suggest that the charge of sculpture in the late postwar period came from its concurrent existence as both three dimensional phenomena and photographic image in the interchanges among the materials that continue to activate and alter the constitution of sculpture within the contemporary sphere
