Paul Almasy Klaus Kleinschmidt, Paul Almasy, Axel Schmidt, 2001 **Paris** Paul Almasy, 2020 Unique snapshots from photojournalist legend Paul Almasy 1906 2003 An ideal gift for all fans and lovers of the city of Paris With photographs of artists and stars such as Alberto Giacometti Colette Serge Gainsbourg Man Ray and Yves Saint Laurent **Bikini Story** Patrik Alac, 2015-09-15 It was in 1946 that the world first came to hear of a coral atoll in the Marshall Islands called Bikini The following year French couturier Louis R ard borrowed the name and applied it to a bathing costume for women Breaking from decades of conformity R ard dared to undress women s bodies in order to better emphasize what remained clothed albeit in tiny wisps of material By taking up the bikini as popular beachwear women also found themselves thinking differently about their bodies An ideal of perfection was reinforced by the appearance on the cinema screen of stars such as Marilyn Monroe Brigitte Bardot and Ursula Andress all of whom were featured in bikinis that accentuated their own curvaceous contours More than a bathing costume the bikini made its own contribution during the 1970s to the sexual revolution and to the changing relationship between men and women in general This book investigates the history of the bikini and its effect on the evolution in the perception of women in society as women regained responsibility for the way they look and laid claim once more to full sexual equality A collection of images throughout this book illustrates this progression step by step over a period of more than 50 years France Jean-Louis Cohen, 2014-08-15 Everyone knows Notre Dame the Eiffel Tower and the chateaux of the Loire Valley but French architects have also produced some of the most iconic buildings of the twentieth century playing a central role in the emergence and development of modernism In France Jean Louis Cohen presents a complete narrative of the unfolding architectural modernity in the country grappling not only with the buildings but also with the political and critical context surrounding them Cohen examines the developments in urban design and architecture within France depicting the continuities and breaks in French architecture since 1900 against a broader international background Describing the systems of architectural exchange with other countries including Italy Germany Russia and the United States he offers a new view on the ideas projects and buildings otherwise so often considered only from narrow nationalistic perspectives Cohen also maps the problematic search for a national identity against the background of European rivalries and France s colonial past Drawing on a wealth of recent research this authoritatively written book will challenge the way design professionals and historians view modern French architecture **Paris OGN** Andi Watson, 2022-07-06 A new and expanded edition with artwork created specially for this volume Juliet a penniless American art student travels to the city of light to study painting To pay her way she paints portraits of wealthy debutantes One of her subjects is Deborah a young English woman suffocated by the narrow expectations of her aristocratic family Juliet is equally confined by the rigid academic structure of her art education and finds an unlikely kindred spirit in Deborah Juliet and Deborah s love for art brings them together even as their friends and family try to drive them apart A fairy tale romance

1001 Inventions Salim T. S. Al-Hassani, 2012 Modern society owes a tremendous amount to the Muslim world for the many groundbreaking scientific and technological advances that were pioneered during the Golden Age of Muslim civilization between the 7th and 17th centuries Every time you drink coffee eat a three course meal get a whiff of your favorite perfume take shelter in an earthquake resistant structure get a broken bone set or solve an algebra problem it is in part due to the discoveries of Muslim civilization

The Wall Beside the Work Derek Pigrum, 2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find It explores the work involved in art with a focus upon finding gathering and assembling charged and auratic objects on the wall beside the work The author employs the term Das Gegenwerk or the work towards the work This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods The multi mode transitional practices of Das Gegenwerk are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both Das Gegenwerk hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners we can gain an understanding of high level creativity It is neither a recipe nor a linear or cyclic approach Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows

Larry Clark and Masculinity Dirk Reynders, 2025-10-02 This book explores the visual representation of masculinity in the work of Larry Clark using this to prompt a wider conversation about the male body in visual culture and art Infamous for his often deeply personal depictions of teenage sexuality subcultures and drug use filmmaker and photographer Larry Clark also paid close attention to male identity as revealed for the first time in this book It explores the visual representation of masculinity in Clark's work revealing how his images of the male body differ from traditional depictions and function not only as objects of spectacle but as spectacular objects in themselves Despite being hugely influential there has been a lack of critical

attention paid to Clark's work following his celebrated photobook *Tulsa* 1971. Larry Clark and *Masculinity* is a vital contribution to research on Clark and visual and photography studies more broadly where it explores the photographer's depiction of the male subject as an object of desire. It also expands research in gender and queer studies by examining masculinity as a relational social and intercultural construct in media and society, enhancing our understanding of Clark's narrative and iconographic practice while simultaneously positioning his work at the centre of the cultural discourse around male subjectivity. Drawing on an array of Clark's work including his films *Kids* and *Ken Park* as well as his photographs *Masculinity* and *Visual Culture* offers a critical re-examination of Clark's impact on visual culture and gender representation. By positioning Clark's work at the centre of the cultural discourse around male subjectivity, it enhances our understanding of Clark's narrative and iconographic practice as a means of negotiating complex subjectivities.

The Great Cities in History
John Julius Norwich, 2016-08-02. A portrait of world civilization told through the stories of the world's greatest cities from ancient times to the present. Today for the first time in history the majority of people in the world live in cities. The implications and challenges associated with this fact are enormous. But how did we get here? From the origins of urbanization in Mesopotamia to the global metropolises of today, great cities have marked the development of human civilization. *The Great Cities in History* tells their stories starting with the earliest from Uruk and Memphis to Jerusalem and Alexandria. Next come the fabulous cities of the first millennium: Damascus and Baghdad, Teotihuacan and Tikal, and Chang'an, capital of Tang Dynasty China. The medieval world saw the rise of powerful cities such as Palermo and Paris in Europe, Benin in Africa, and Angkor in southeast Asia. The last two sections bring us from the early modern world with Isfahan, Agra, and Amsterdam to the contemporary city: London and New York, Tokyo and Barcelona, Los Angeles and São Paulo. The distinguished contributors including Jan Morris, Michael D. Coe, Simon Schama, Orlando Figes, Felipe Fernández Armesto, Misha Glenny, Susan Toby Evans, and A. N. Wilson evoke the character of each place: people, art, and architecture, government, and explain the reasons for its success.
