P.C. 832 ,1996 **The Violence-Free Workplace** Andrew Tufano, 2020-10-28 Organizations are ethically morally and legally required to maintain safe workplaces that protects employees visitors and anyone who frequents their establishments But why do organizations that employ uniformed security personnel as part of their overall workplace violence prevention program still struggle to create and maintain the safest possible workplaces To meet these obligations organizations often employ uniformed security officers to deter observe and report criminal behavior and in some contexts they physically interact with dangerous individuals to protect employees consumers and visitors from violent behaviors Unfortunately many

organizations don't utilize their security personnel to their fullest potential and organizational and community members continue to be victims of workplace violence. This book identifies the flawed principles, policies, and personnel decisions that organizations use and it provides practical solutions to address them. The book covers two major themes: the misapplication of law enforcement community safety principles to private free market businesses and the use of risk averse philosophies to their security officer's activities. This book covers the principles, policies, and personnel necessary for maximizing the effectiveness of uniformed security personnel to successfully mitigate potential workplace violence and create and maintain safe organizations. There is a strong need for this book since workplace violence prevention has taken on a new focus due to increases in workplace violence incidents and new laws requiring organizations to take a more serious approach to workplace violence prevention. The healthcare and campus markets are most affected by these laws and are under public scrutiny because of their vulnerable populations. These two markets combined employ the most non-contract proprietary private security personnel in the country. Both markets rely on uniform security officers to create and maintain safe communities and play an important role in their respective workplace violence prevention plans.
