The fact that the whole world recognizes the rich musical heritage created by the Uzbek people in the development of world culture and art is a worthy assessment of our nation's long past history and present day.

Fundamental reforms in the continuous education system of our republic began in 2017. From the same year, work towards the final result at all levels of the education system, ensure the competitiveness of specialist personnel being trained in higher education, increase the potential of pedagogic personnel at all stages of the education system, improve the material and technical base of educational institutions, strengthening, provision of educational laboratories, science offices, provision of education with improved educational literature was put on the agenda as a priority task.

In particular, the Decree of the President of the Republic of Uzbekistan "On the Development Strategy of New Uzbekistan for 2022-2026" specifies the need to pay great attention to the development of education¹. The intensification of integrative and innovative processes has set itself the task of educating a well-rounded person who is qualified and professionally formed in music education. This, in turn, requires providing music education with new teaching methods, high-quality repertoire, educational literature, teachers to find, polish and learn performance traditions.

The head of our state said, "As we aim to turn Uzbekistan into a developed country, we can achieve this only through rapid reforms, science and innovation. For this, first of all, we need to educate new generation personnel who will be proactive reformers, who will think strategically, and who will be educated and qualified"².

Therefore, the aesthetic education of students with the help of Maqom musical tunes, raising education to a new level of quality, remains directly dependent on the effectiveness of its teaching.
