The sun is a bright, glowing orb on the horizon, casting a warm orange and yellow light across the sky and reflecting on the water. The sky is filled with soft, wispy clouds. The water in the foreground is dark and textured with small waves.

Discord Mike Goldsmith, 2012-09-27 Noise is a widely recognized and ever increasing problem and a growing health concern in the modern world In Discord Mike Goldsmith looks at the science and history of the long battle between people and noise a battle that has changed our lives and molded our societies He investigates how increasing noise levels relate to human progress from the clatter of wheels on cobbles to the sound of heavy machinery explains how our scientific understanding of sound and hearing has developed and looks at noise in nature including the remarkable ways in which some animals such as shrimps use noise as a weapon or to catch prey Goldsmith also examines the importance of managing noise levels and developing suitable soundscapes in industry schools or public spaces In addition the book shows that noise in the sense of dissonance can also be used positively composers have employed it from Baroque music to Rock feedback medicine harnesses it to shatter kidney stones and treat cancer and even the military uses it in real and rumored weapons Goldsmith concludes by turning to the future discussing ways in which new science and new ideas may
