The Doctrine of State and the Principles of State Law Friedrich Julius Stahl, 2025-09-03 Suppose that Wilhelm I had never become King of Prussia and instead his brother Friedrich Wilhelm IV who was only 1 years his senior and had reigned since

1840 had been given the same number of years to live as he had For Wilhelm died in 1888 In that case the kind of kingship which is outlined in this book would in general if not in every detail continue to have been implemented in Prussia Events would most likely have continued to proceed along the lines they did in the 1850s Military expansion would not have been pursued in the teeth of opposition from the estates Otto von Bismarck would not have been installed as Chancellor Prussia would have maintained the peace seeking approach of its foreign policy as was exemplified in its neutral stance during the Crimean War Germany would not have been unified over the backs of Austria and France and by military annexation of the autonomous German territories the seeds would not have been sown for two world wars and a great depression How differently would history have turned out There would have been the example of a Christian monarchy pursuing the glory of God and not Realpolitik there would have been the rule of law based on the Word of God rather than the word of man there would have been maintained a system of representation which sustained the monarchy rather than the monied interest Above all a halt would have been called to the progression of unbelief and revolution But it was not to be Friedrich Wilhelm IV suffering from a series of strokes beginning in 1857 died in 1861 The author of this book Friedrich Julius Stahl died in the same year With them went the only hope for a peaceful Germany and a de revolutionized Europe In 1867 the Dutch statesman Guillaume Groen van Prinsterer asked the rhetorical question If King Frederick William IV were still alive would M von Bismarck have had the chance to carry out his vast designs L Empire Prussien et l Apocalypse p 56 His answer based on extensive citations from Stahl s writings was a resounding No Modern historiography knows nothing of this All it knows is that Friedrich Wilhelm IV lived in a romanticized past and refused to recognize the progress taking place all around him He was the reactionary monarch who stifled Prussia s advance into liberal modernity But we need to ask the question to what exactly did that progress actually lead Perhaps the King of Prussia and Stahl with him knew something that modern historians do not This second edition of The Doctrine of State and the Principles of State Law has been thoroughly reworked while also being supplemented with newly translated material **Greek Political Theory** Sir Ernest Barker,1925

Political Theory and International Relations Charles R. Beitz,1999-07-01 In this revised edition of his 1979 classic Political Theory and International Relations Charles Beitz rejects two highly influential conceptions of international theory as empirically inaccurate and theoretically misleading In one international relations is a Hobbesian state of nature in which moral judgments are entirely inappropriate and in the other states are analogous to persons in domestic society in having rights of autonomy that insulate them from external moral assessment and political interference Beitz postulates that a theory of international politics should include a revised principle of state autonomy based on the justice of a state s domestic institutions and a principle of international distributive justice to establish a fair division of resources and wealth among persons situated in diverse national societies Principles of Social Justice David Miller,2001-09-30 The meaning of social justice remains obscure and existing theories have failed to capture the way people in general think about issues of social

justice David Miller develops a new theory and argues that principles of justice must be understood contextually with each principle finding its natural home in a different form of human association      **Introduction to Modern Political Theory**
