agriculture forestry and fisheries translates into a virtual flow of land freshwater and marine ecosystems Part 3 describes how two widely used accounting tools i e Life Cycle Assessment and Green National Accounts deal with international aspects of ecosystem services and Part 4 shows how instruments like labelling bans or payments for ecosystem services in the private and public sector can influence trade patterns and the management of ecosystem services This collection is a valuable contribution to the global change science dealing with ecosystem services It illustrates the consequences of international trade on global ecosystem services and provides an overview of accounting tools and of market based policy instruments to address negative and positive externalities The book is certainly innovative because it brings together research findings from distinct disciplines especially Industrial Ecology and Ecosystem Sciences as well as Environmental Economics and Political Science     **Business Books** Newark Public Library.
