General Book of the Tarot A. E. Thierens, 2023-01-30 If ever a book should be written on the Romance of Symbolism its hypothesis of interpretation its traditional and imputed histories a considerable space would be allotted assuredly to Tarot cards while seeing that at this day there is more concern in the subject than was felt even in the past there would be a call not only to survey that which lies behind us a strange field of speculation and reverie but the prospect extending in front since every year brings forth some new proposition and provides material for future imaginative flights It is very curious to contrast those comparatively sober terms in which Court de Gebelin introduced his discovery of the cards though he sought to prove that their origin was in Ancient Egypt with the fantastic declamations of Eliphas Levi who affirmed not only that they were the Alphabet of Enoch Hermes Trismegistus and Cadmus but the Gospel of all Gospels a synthesis of science and the universal key of the Kabbalah

The Re-Enchantment of the West Christopher Partridge, 2005-01-04 As a book about emergent spirituality in the contemporary West this book focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West
