Newspaper Journalism Peter Cole, Tony Harcup, 2009-11-13 Are newspapers faced with an existential threat or are they changing to meet the challenges of a digital world With the newspaper's role in a state of fundamental redefinition Newspaper Journalism offers a timely and up to the minute analysis of newspapers today in the context of their historical importance to society Drawing on their extensive experience in academia and also across local national mainstream and alternative newspapers Cole and Harcup write clearly and engagingly from both industry and scholarly perspectives and contend that far from dying newspapers are doing what they have always done adapting to a changing environment This text is essential reading for all students of the press with comprehensive and critical coverage of the most important debates in the study of newspaper journalism from ethics and investigative journalism to political economy and the future of the industry Given the shifting boundaries and central importance of newspapers it will be of interest to all students of journalism and the media Praise for the Journalism Studies Key Texts series It is easy to describe a good textbook for a specific journalistic format The ideal book has to satisfy a list of requirements that are also bullet pointed in journalism assignment outlines A text has to synthesize the existing body of knowledge explain concepts clearly have a logical order of topics and provide enough information and directions to pursue further study One may also hope it would include real life examples and be lucid vivid and a pleasure to read Hard to find Not anymore The new SAGE series Journalism Studies Key Texts satisfies the main requirements on the list Carefully planned and meticulously edited by Martin Conboy David Finkelstein and Bob Franklin the textbook series is a welcome contribution to the literature of journalism studies All three books follow the same structural template an overview of historical development explication of the political and economic frameworks within particular types of journalism a review of contemporary practices social demographics a comparative analysis of practices around the world a summary of main conceptual approaches an indication of future directions recommendations for further reading This strong organization resembles a template for a course outline This is intentional because the series is aimed both at students and their practice based lecturers who often come straight from industry and need time to adjust to the academic environment The series achieves its aim to bridge the sometimes too evident dissonance between journalism theory and practice They successfully situate discussions about journalism in social and historical contexts We see the faces of individual journalists the circumstances of news production the relationship with owners the battle between the public service and the profit nature of news the relevance of journalism work The detailed account of the

conditions under which newspaper radio and alternative journalism is produced and performed make the Journalism Studies Key Texts series mandatory reading for both journalism students and their lecturers Verica Rupar Journalism Studies

Publish and Perish: The Practice of Censorship in the British Isles in the Early Modern Period Isabelle Fernandes, 2020-10-06 The development of printing practices during Tudor rule led both to the dissemination of religious and secular knowledge and the development of a legal arsenal to control it While the vast majority of studies on censorship regard it as being at the origin of the notion of authorship critics tend to disagree on its actual influence on early modern writings Who among the Church and the secular state were its main supporters Did it aim at destroying or removing punishing or protecting hampering or regulating Did it propagate a culture of secrecy or on the contrary did it help to circulate new ideas and knowledge by controlling them and making them more acceptable to the masses If the answers to these questions are bound to differ according to the aesthetic and religious biases of both censors and censored they all lead to one major point of debate did censorship really work to stop some marginal threat or did it simply improve the lot of early modern writers who turned its limited negative effects into a comforting shield of self publicity By suggesting it suppressed neither artistic creativity nor subversive practices this volume analyses censorship in Britain and Ireland during the Tudor and Stuart periods as an instrument of regulation rather than a repressive tool Ideal for both graduate students and general readers interested in Early Modern History the work sheds new light on a topic as fascinating as it is often misunderstood

Doing News Framing Analysis II Paul D'Angelo, 2018-05-11 This volume presents original big picture perspectives on news framing Each chapter in this volume will feature an individual or team of framing analysts who take a reflective look at their own empirical work The editors goals are to identify the influences that determine the use of different theoretical and methodological approaches and to provide interpretive guides to news framing scholars regarding what news frames are how they can be observed in news texts and how framing effects are uncovered and substantiated in cultural group and individual sites Doing News Framing Analysis II will continue the work of its predecessor by giving talented framing scholars the space to write about their work and bring readers closer to the framing research project Global Islamophobia George Morgan, 2016-04-22 The decade since 9 11 has seen a decline in liberal tolerance in the West as Muslims have endured increasing levels of repression This book presents a series of case studies from Western Europe Australia and North America demonstrating the transnational character of Islamophobia The authors explore contemporary intercultural conflicts using the concept of moral panic revitalised for the era of globalisation Exploring various sites of conflict Global Islamophobia considers the role played by moral entrepreneurs in orchestrating popular xenophobia and in agitating for greater surveillance policing and cultural regulation of those deemed a threat to the nation s security or imagined community This timely collection examines the interpenetration of the global and the local in the West s cultural politics towards Islam highlighting parallels in the responses of governments and in the worrying reversion to a politics of coercion and assimilation

As such it will be of interest to scholars of sociology and politics with interests in race and ethnicity citizenship and assimilation political communication securitisation and The War on Terror and moral panics War Torn Guy Hodgson,2015

The British Press Temple, Mick,2008-09-01 Mick Temple offers an introduction to the history theory politics and potential future of British newspapers

Simulating Social Complexity Bruce Edmonds,Ruth Meyer,2017-11-24 This volume examines all aspects of using agent or individual based simulation This approach represents systems as individual elements having their own set of differing states and internal processes The interactions between elements in the simulation represent interactions in the target systems What makes this social is that it can represent an observed society Social systems include all those systems where the components have individual agency but also interact with each other This includes human societies and groups but also increasingly socio technical systems where the internet based devices form the substrate for interaction These systems are central to our lives but are among the most complex known This poses particular problems for those who wish to understand them The complexity often makes analytic approaches infeasible but on the other hand natural language approaches are also inadequate for relating intricate cause and effect This is why individual and agent based computational approaches hold out the possibility of new and deeper understanding of such systems This handbook marks the maturation of this new field It brings together summaries of the best thinking and practices in this area from leading researchers in the field and constitutes a reference point for standards against which future methodological advances can be judged This second edition adds new chapters on different modelling purposes and applying software engineering methods to simulation development Revised existing content will keep the book up to date with recent developments This volume will help those new to the field avoid reinventing the wheel each time and give them a solid and wide grounding in the essential issues It will also help those already in the field by providing accessible overviews of current thought The material is divided into four sections Introduction Methodology Mechanisms and Applications Each chapter starts with a very brief section called Why read this chapter followed by an abstract which summarizes the content of the chapter Each chapter also ends with a section on Further Reading Whilst sometimes covering technical aspects this second edition of Simulating Social Complexity is designed to be accessible to a wide range of researchers including both those from the social sciences as well as those with a more formal background It will be of use as a standard reference text in the field and also be suitable for graduate level courses

China's Internet in the 2000s Junhao Hong,2025-02-11 This book studies China's Internet in the 2000s with a focus on the challenges and dilemmas of the authorities and the battles between the authorities and the newly networked society in the cyber space which has been a critical centerpiece in the Chinese authorities struggle for political stability The book also examines the distinct technological means and political legal regulations restrictions used for Internet control unique characteristics and the implications of their influences on the political change and social transformation of the world's most populous country It illuminates the fierce competition between the authorities and the

newly networked Chinese society by looking at how Chinese netizens make every possible effort to gain access to the Internet for truth and make their voices and views heard while how the authorities use whatever possible means to prevent that from happening The in depth analyses of how these challenges dilemmas and battles have been affecting and changing China s political system the ruling communist ideology the public s access to information as well as the expression of the public s discourse are relevant to policymakers and analysts in both business and government sectors as well as scholars and researchers with an interest in Asian Studies Chinese Studies communication new media political science and sociology
