Priorities And Christian Ethics:

Priorities and Christian Ethics Garth L. Hallett, 2008-11-27 Christians have agreed as have others that preference should go to some extent to one's nearest and also to some extent to the neediest. However, to what extent should we give preference to which group? And suppose these two preferences come into conflict as they frequently do. This book provides the fullest contemporary treatment of these issues. The author brings to bear all the resources of theological and philosophical reflection on a single representative case and from the single example sheds light on a wide range of comparable cases both private and public.

The Common Good and Christian Ethics David Hollenbach, 2002-08 The Common Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global. David Hollenbach draws on social analysis, moral philosophy and theological ethics to chart new directions in both urban life and global society. He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity.

The Public Forum and Christian Ethics Robert Gascoigne, 2001 This book addresses the question of the communication of Christian ethics in the public forum of liberal pluralist societies. Drawing on debates in philosophy, theology and sociological theory, it relates the problem of communication to fundamental questions about the nature of liberal societies and the identity of Christian faith and the Christian community. With particular emphasis on Kantian and neo-Kantian ethics, it explores the link between autonomy and community in liberal societies. The theology of *communio* expressed in revealed Christian traditions can reconcile autonomy and community. Any Christian attempt to communicate this vision must also reflect on Christianity's own identity, especially the ways in which its own self-consciousness grows in critical interaction with secularity. In this light, Christian ethical communication is both a witness to a distinctive identity founded in the revelation of the triune God and a vision of universal human solidarity which can reconcile autonomy and community.

Genetics and Christian Ethics Celia Deane-Drummond, 2006 In the immediate future we are likely to witness significant developments in human genetic science. It is therefore of critical importance that Christian ethics engages with the genetics debate since it affects not just the way we perceive ourselves and the natural world but also has wider implications for our society. This book considers ethical issues arising out of specific practices in human genetics including genetic screening, gene patenting, gene therapy, genetic counselling as well as feminist concerns. Genetics and Christian Ethics argues for a particular theological ethical approach that derives from a modified version of virtue ethics, drawing particularly on a Thomistic understanding of the virtues, especially prudence or practical wisdom and justice. The book demonstrates that a theological voice is highly relevant to contested ethical debates about genetics.

The Cambridge Companion to Christian Ethics Robin Gill, 2011-11-24 In this second edition of the best-selling Cambridge Companion to Christian Ethics, Robin Gill brings together twenty essays by leading experts to provide a comprehensive introduction to

Christian ethics which is both authoritative and up to date This volume boasts four entirely new chapters while previous chapters and all bibliographies have been updated to reflect significant developments in the field over the last decade Gill offers a superb overview of the subject examining the scriptural bases of ethics as well as discussing Christian ethics in the context of contemporary issues including war and the arms trade social justice ecology economics medicine and genetics All of the contributors have a proven track record of balanced comprehensive and comprehensible writing making this book an accessible and invaluable source not only for students in upper level undergraduate courses graduate students and teachers but anyone interested in Christian ethics today

Biotechnology, Human Nature, and Christian Ethics Gerald McKenny, 2018-01-19 It is a comprehensive and critical study of the normative status of human nature in biotechnology from a Christian perspective

Human Perfection, Transfiguration and Christian Ethics Robin Gill, 2024-05-16 Most people would agree that human perfection is unattainable Indeed theologians have typically expressed ambivalence about the possibility of human perfection Yet paradoxically depictions of human perfection are widespread In this volume Robin Gill offers an interdisciplinary study of human perfection in contemporary secular culture He demonstrates that the language of perfection is present in church memorials popular depictions of sport food music and art liturgy and philosophy He contrasts these examples with the socio psychological concept of maladaptive perfectionism using commercial cosmetic surgery as an example as well as the adaptive perfectionism suggested in the lives of Henry Holland Paul Farmer and more ambivalently Ludwig Wittgenstein Gill then provides an in depth analysis of New Testament and Septuagint usage of teleios and theological debates about the human perfection of Jesus He argues that the Synoptic accounts of the Transfiguration offer a template for a Christian understanding of perfection that has important ecumenical implications within social ethics

[The Market Economy and Christian Ethics](#) Peter H. Sedgwick, 1999-10-07 Peter Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market He examines three aspects of the market economy first how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic Second what impact does the global economy have on local cultures Finally as manufacturing changes out of all recognition through the impact of technology and global competition what is the effect in terms of poverty Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985 1991 Sedgwick argues that its involvement deserves to be better known Moreover he recommends that the Churches remain part of the debate in reforming and humanizing the market economy

Healthcare Funding and Christian Ethics Stephen Duckett, 2023-01-26 Healthcare has an impact on everyone and healthcare funding decisions shape how and what healthcare is provided In this book Stephen Duckett outlines a Christian biblically grounded ethical basis for how decisions about healthcare funding and priority setting ought to be made Taking a cue from the parable of the Good Samaritan Luke 10 25 37 Duckett articulates three ethical principles drawn from the story

compassion as a motivator inclusivity or social justice as to benefits and responsible stewardship of the resources required to achieve the goals of treatment and prevention These are principles he argues that should underpin a Christian ethic of healthcare funding Duckett s book is a must for healthcare professionals and theologians struggling with moral questions about rationing in healthcare It is also relevant to economists interested in the strengths and weaknesses of the application of their discipline to health policy Christian Ethics and Moral Philosophy Craig A. Boyd,Don Thorsen,2018-11-06 This introductory textbook presents Christian philosophical and theological approaches to ethics Combining their expertise in philosophy and theology the authors explain the beliefs values and practices of various Christian ethical viewpoints addressing biblical teachings as well as traditional ethical theories that contribute to informed moral decision making Each chapter begins with Words to Watch and includes a relevant case study on a vexing ethical issue such as caring for the environment human sexuality abortion capital punishment war and euthanasia End of chapter reflection questions illustrations and additional information tables are also included *Hope and Christian Ethics* David Elliot,2017-07-14 The theological virtue of hope has long been neglected in Christian ethics However as social civic and global anxieties mount the need to overcome despair has become urgent This book proposes the theological virtue of hope as a promising source of rejuvenation Theological hope sustains us from the sloth presumption and despair that threaten amid injustice tragedy and dying it provides an ultimate meaning and transcendent purpose to our lives and it rejoices and refreshes us on the way with the prospect of eternal beatitude Rather than degrading this life and world hope ordains earthly goods to our eschatological end forming us to pursue social justice with a resilience and vitality that transcend the cynicism and disillusionment so widespread at present Drawing on Thomas Aquinas and virtue ethics the book shows how the virtue of hope contributes to human happiness in this life and not just the next Alcohol, Addiction and Christian Ethics Christopher C. H. Cook,2006-05-04 Addictive disorders are characterised by a division of the will in which the addict is attracted both by a desire to continue the addictive behaviour and also by a desire to stop it Academic perspectives on this predicament usually come from clinical and scientific standpoints with the moral model rejected as outmoded But Christian theology has a long history of thinking and writing on such problems and offers insights which are helpful to scientific and ethical reflection upon the nature of addiction Chris Cook reviews Christian theological and ethical reflection upon the problems of alcohol use and misuse from biblical times until the present day Drawing particularly upon the writings of St Paul the Apostle and Augustine of Hippo a critical theological model of addiction is developed Alcohol dependence is also viewed in the broader ethical perspective of the use and misuse of alcohol within communities *Self Love and Christian Ethics* Darlene Fozard Weaver,2002-10-17 Publisher Description **Altruism and Christian Ethics** Colin Grant,2000-11-16 Separated from its anchorage in religion ethics has followed the social sciences in seeing human beings as fundamentally characterised by self interest so that altruism is either naively idealistic or arrogantly self sufficient Colin Grant contends that as a modern secular

concept altruism is a parody on the self giving love of Christianity so that its dismissal represents a social levelling that loses the depths that theology makes intelligible and religion makes possible The Christian affirmation is that God is characterised by self giving love agape then expected of Christians Lacking this theological background the focus on self interest in sociobiology and economics and on human realism in the political focus of John Rawls or the feminist sociability of Carol Gilligan finds altruism naive or a dangerous distraction from real possibilities of mutual support This book argues that to dispense with altruism is to dispense with God and with the divine transformation of human possibilities *Science and Christian Ethics* Paul Scherz,2019-05-09 There is a growing crisis in scientific research characterized by failures to reproduce experimental results fraud lack of innovation and burn out In *Science and Christian Ethics* Paul Scherz traces these problems to the drive by governments and business to make scientists into competitive entrepreneurs who use their research results to stimulate economic growth The result is a competitive environment aimed at commodifying the world In order to confront this problem of character Scherz examines the alternative Aristotelian and Stoic models of reforming character found in the works of Alasdair MacIntyre and Michel Foucault Against many prominent virtue ethicists he argues that what individual scientists need is a regime of spiritual exercises such as those found in Stoicism as it was adopted by Christianity in order to refocus on the good of truth in the face of institutional pressure His book illuminates pressing issues in research ethics moral education and anthropology *Moral Passion and Christian Ethics* Robin Gill,2017-03-06 Using a range of disciplines this book explores the relationship between moral passion and rational ethical deliberation **Family and Christian Ethics** Petruschka Schaafsma,2023-08-10 In this book Petruschka Schaafsma offers an innovative appraisal of family Eschewing the framework of worry and renewal that currently dominates family studies she instead explores the topic through the concepts of givenness and dependence Givenness highlights the fact that family is not chosen dependence refers to being intimately included in each other s identities and lives Both experiences are challenging especially in a contemporary context where independence and freedom to shape one s own life have become accepted ideals Schaafsma shows the impasses to which these ideals lead in several disciplines theology philosophy sociology social anthropology and care ethics She moves constructively beyond them by tapping literary artistic and biblical sources for their insights on family Grounded in a theological approach to family as mystery rather than problem she develops an understanding of the current controversial character of family that accounts for both its ordinary and transcendent character This title is available as Open Access on Cambridge Core *Global Justice, Christology and Christian Ethics* Lisa Sowle Cahill,2013-01-17 Global realities of human inequality poverty violence and ecological destruction call for a twenty first century Christian response which links cross cultural and interreligious cooperation for change to the Gospel This book demonstrates why just action is necessarily a criterion of authentic Christian theology and gives grounds for Christian hope that change in violent structures is really possible Lisa Sowle Cahill argues that theology and biblical interpretation are already embedded in and indebted to ethical

political practices and choices Within this ecumenical study she explores the use of the historical Jesus in constructive theology the merits of Word and Spirit Christologies the importance of liberation and feminist theologies as well as theologies from the global south and also the possibility of qualified moral universalism The book will be of great interest to all students of theology religious ethics and politics and biblical studies *Love and Christian Ethics* Frederick V.

Simmons, Brian Sorrells, 2016 At the heart of Christian ethics is the biblical commandment to love God and to love one's neighbor as oneself But what is the meaning of love Scholars have wrestled with this question since the recording of the Christian gospels and in recent decades teachers and students of Christian ethics have engaged in vigorous debates about appropriate interpretations and implications of this critical norm In *Love and Christian Ethics* nearly two dozen leading experts analyze and assess the meaning of love from a wide range of perspectives Chapters are organized into three areas influential sources and exponents of Western Christian thought about the ethical significance of love perennial theoretical questions attending that consideration and the implications of Christian love for important social realities Contributors bring a richness of thought and experience to deliver unprecedentedly broad and rigorous analysis of this central tenet of Christian ethics and faith William Werpehowski provides an afterword on future trajectories for this research *Love and Christian Ethics* is sure to become a benchmark resource in the field **Peter Singer and Christian Ethics** Charles C.
