Priority Objectives for General Practice Vocational Training ,1985-01-01 **Educating the Future GP** Patrick McEvoy,1998 This excellent book is long overdue It will be of benefit to anyone with an interest in general practitioner education and anyone considering applying for the post of course organiser should read the opening chapters to prepare them for interview This is a thoughtful book written in a clear and witty style and it deserves a wide readership It provides an educational framework on which general practitioner teaching can be based British Journal of General Practice This book is excellent because it deals not only with the nuts and bolts of being a course organizer but also addresses the difficulties frustrations and emotions involved in a witty and entertaining manner Anyone with an interest in postgraduate medical education at any level would benefit from reading this book Update Paddy McEvoy s book has rapidly and deservedly established itself as invaluable to anyone responsible for any form of postgraduate medical education Education for General Practice As well as updating and revising the book throughout Paddy McEvoy has managed to include sections about the wider context of training without making the book overly long or losing any of the delightful flavour of the first edition I have no doubt that you will find it both useful and enjoyable **The GP Trainer's Handbook** Paul Middleton,Maurice Price,2011 The ten years since the First Edition of this book have witnessed revolutionary changes in GP training appraisal the new MRCGP exam and competence based assessments to name but three Greater availability of information has also transformed the social context of General Practice as a profession Despite this the one to one relationship between trainer and trainee remains the lynchpin of GP education and this manual s key principle that GP trainers are the key source of expertise in this field and that their experiences and ideas are a vital and still underused resource is as important as ever This new edition fully revised and updated to reflect the latest changes in both GP training and the profession remains an essential comprehensive manual of useful advice for GP trainers written by their peers Outlining educational methods training philosophies and reflections from practitioners experienced in the entire spectrum of GP education it provides a tool box of resources to cover the practicalities of training including e portfolios teaching consultation skills and numerous tips and tricks It is now augmented with an array of supporting material that includes checklists forms and evaluation tools accessed electronically via a code supplied with the book This book is vital reading for GP tutors and GP trainers as well as those considering such roles and for all those who manage and oversee the training of GP registrars The next generation of GPs will face even more changes in the landscape of primary care and it has become even more imperative that we provide high quality training This manual will support this process from the Foreword by Steve Field **The Practice Manager** Michael Drury,2017-09-29 As soon as this book first appeared in 1990 it became the standard text for the new generation of practice managers with responsibility for implementing many of the radical changes taking place in general practice It required reprinting several times to satisfy demand and has since undergone two major revisions to ensure that it is up to date This

Third Edition incorporates several new chapters and new contributors who reflect efficient and patient friendly practice and the continuing evolution of the NHS reforms Topics are presented in clear comprehensive and concise terms from which managers will derive confidence and understanding whether they use the book for background reading in the practice or as a textbook on the many training courses that have now adopted it **The Very Stuff of General Practice** Philippa

Moreton,1999 Looks at a wide range of important general practice issues relating to professional and practice development and quality improvement under the broad themes of teaching learning and leadership **Just a GP** Denis Pereira

Gray,2024-07-22 With General Practice currently facing existential challenges it is truly inspirational to be reminded what determined individuals with a clear set of intensely human values can achieve This is the story of an extraordinary career during a profoundly important phase in the history of British medicine someone who was justifiably proud to be just a GP Sir David Haslam CBE FRCGP Past President and Chairman of Council Royal College of General Practitioners Past President British Medical Association Past Chair National Institute for Health and Care Excellence NICE This autobiography from Sir Denis Pereira Gray offers a unique insight into the life and career of a hugely distinguished and influential general practitioner from what led him to study medicine learning his craft in the 1960s through years of clinical practice and research to senior leadership roles within and outside the Royal College of General Practitioners Through detailed diaries enlivened by wonderful anecdotes both personal and professional Sir Denis shares candidly with the reader a lifetime of experience gained and lessons learned highly applicable today when general practice is facing many challenges and detractors Both informative and inspirational Just a GP is an essential read for many who have journeyed through the profession with Sir Denis and those who are in the midst of or contemplating a career in general practice today

Professional Education for General Practice Peter Havelock,1995 Vocational training for general practice has been tremendously successful over the past two decades but the need became apparent at the beginning of the 1990s for revision of the education of GP trainers already experienced in setting up a training practice who were demanding a fresh more detailed consideration of the educational aspects of vocational training The authors of Professional Education for General Practice comprise general practitioners from training practices regional advisers in primary care and an expert in adult education They describe the history of vocational training and examine the educational requirements of adult learners then go on to discuss particular aspects of curriculum design assessment teaching methods trainer trainee relationships and evaluation followed by an appraisal of what changes are needed in training for general practice in the future Throughout the preparation of the book the authors worked closely with general practice trainers and trainees as well as their educators thus ensuring that the book is completely appropriate for these groups This book is essential for everyone involved in teaching GP trainers as well as for the trainers themselves and will be of interest to doctors training in primary care Postgraduate Medical Journal ,1994 **Canadian Family Physician** ,1986 *The Journal of the Royal College of General Practitioners*

,1983 **Information Sources in the Medical Sciences** Leslie Thomas Morton,S. Godbolt,1992 **BMJ** ,2002
Cumulated Index Medicus ,1994 **Primary Care for People with a Mental Handicap** Royal College of General Practitioners,1990 The Other Side of Medicine Dr. Peter Tate,Sally Irvine,2020-01-30 The Other Side of Medicine is an amusing and challenging reflection of changes and fashions in general practice Covering various themes including humanity in medicine communication and quality assessment of doctors Peter Tate offers an abundance of personal anecdotes and patient perspectives Doctors particularly general practitioners their trainers and examiners and medical students will find this romp through a half century of medical life invigorating and invaluable This book is a collection of articles and short stories covering a medical career Some are iconoclastic the theme of good communication in medicine runs throughout other themes are quality in doctors and the assessment of that quality but I hope the main strand of the book is humanity in medicine and my attempts at understanding what that is Peter Tate in the Preface British Reports, Translations and Theses Received by the British Library Lending Division (including Material from the Republic of Ireland).
