Prison Segregation Ellie Brown, 2023-04-21 Prison Segregation The Limits of Law explores the use of segregation in English prisons by examining how law is used and experienced and how human rights are upheld It draws on empirical research through interviews with staff

and prisoners to understand how law works or not in a site of the prison which is traditionally characterised by real imbalances of power The book draws on one of the first research studies of its kind an in depth ethnographic study of law culture and norms within the segregation unit It adopts a socio legal perspective to explore i how segregation is and should be used in prisons and how the law sets the parameters of that usage in theory ii the complex web of laws and rules as applies to segregation and their relationship with the actors responsible for their implementation iii how laws and rules can be undermined by the culture and context within which they are implemented It relies on the voices of prisoners and staff as well as observations and descriptions to bring experiences to life The accounts from staff and prisoners sometimes joyous sometimes harrowing provide a rich and rare insight into the segregation unit It provides access to and insights into parts of our criminal justice system which are typically impenetrable Whilst it is an academic study of law and power in segregation units and prison more broadly it is also a very human account of lived experiences The book is multi disciplinary in nature and will appeal to those with an interest in law sociology criminology and psychology It will also appeal to those seeking to understand socio legal research methods in the field of criminal justice However the book is also pragmatic and has a number of recommendations which would be of interest to practitioners lawyers prison managers and policy makers

Punishment and Incarceration Mathieu Deflem, 2014-10-16 This volume in the series Sociology of Crime Law and Deviance deals with aspects of punishment including sentencing incarceration and prison conditions in a variety of settings at local national and or regional levels **Disruptive Prisoners** Chris Clarkson, Melissa Munn, 2021-07-20 In this history of prison reform in mid twentieth century Canada the voices of prisoners help to provide a nuanced understanding of prisoners as active agents of change The Globalization of Supermax Prisons Jeffrey Ian Ross, 2013-02-10 Supermax prisons

conceived by the United States in the early 1980s are typically reserved for convicted political criminals such as terrorists and spies and for other inmates who are considered to pose a serious ongoing threat to the wider community to the security of correctional institutions or to the safety of other inmates Prisoners are usually restricted to their cells for up to twenty three hours a day and typically have minimal contact with other inmates and correctional staff Not only does the Federal Bureau of Prisons operate one of these facilities but almost every state has either a supermax wing or stand alone supermax prison The Globalization of Supermax Prisons examines why nine advanced industrialized countries have adopted the supermax prototype paying particular attention to the economic social and political processes that have affected each state Featuring essays that look at the U S run prisons of Abu Ghraib and Guantanamo this collection seeks to determine if the American model is the basis for the establishment of these facilities and considers such issues as the support or opposition to the building of a supermax and why opposition efforts failed the allegation of human rights abuses within these prisons and the extent to which the decision to build a supermax was influenced by developments in the United States Additionally contributors address such domestic matters as the role of crime rates media sensationalism and terrorism in each country s decision to build a supermax prison The Violence of Incarceration Phil Scruton, Jude McCulloch, 2023-04-21 Conceived in the immediate aftermath of the humiliations and killings of prisoners in Afghanistan and Iraq of the suicides and hunger strikes at Guantanamo Bay and of the disappearances of detainees through extraordinary rendition this book explores the connections between these shameful events and the inhumanity and degradation of domestic prisons within the allied states including the USA Canada Australia the UK and Ireland The central theme is that the revelations of extreme brutality perpetrated by allied soldiers represent the inevitable end product of domestic incarceration predicated on the use of extreme violence including lethal force Exposing as fiction the claim to the political moral high ground made by western liberal democracies is critical because such claims animate and legitimate global actions such as the war on terror and the indefinite detention of tens of thousands of people by the United States which accompanies it The myth of moral virtue works to hide silence minimize and deny the brutal continuing history of violence and incarceration both within western countries and undertaken on behalf of western states beyond their national borders *Beyond Incarceration* Paula Mallea, 2017-11-04 Paula Mallea sets out suggestions for a complete overhaul of Canada s incarceration model of criminal justice In its current state incarceration promotes recidivism and jeopardizes public safety is highly discriminatory and is ruinously expensive

Punished for Aging Adeline Iftene,2019-07-15 Built around the experiences of older prisoners Punished for Aging looks at the challenges individuals face in Canadian penitentiaries and their struggles for justice Through firsthand accounts and quantitative data drawn from extensive interviews this book brings forward the experiences of federally incarcerated people living their golden years behind bars These experiences show the limited ability of the system to respond to heightened needs while also raising questions about how international and national laws and policies are applied and why they fail to ensure the safety and well being of incarcerated individuals In so doing Adelina Iftene explores the shortcomings of institutional processes prison monitoring mechanisms and legal remedies available in courts and tribunals which leave prisoners vulnerable to rights abuses Some of the problems addressed in this book are not new however the demographic shift and the increase in people dying in prisons after long inadequately addressed illnesses with few release options adds a renewed sense of urgency to reform Working from the interview data contextualized by

participants lived experiences and building on previous work Iftene seeks solutions for such reform which would constitute a significant step forward not only in protecting older prisoners but in consolidating the status of incarcerated individuals as holders of substantive rights

Legal Violence and the Limits of the Law Amy Swiffen, Joshua Nichols, 2017-08-10 What is the meaning of punishment today Where is the limit that separates it from the cruel and unusual In legal discourse the distinction between punishment and vengeance punishment being the measured use of legally sanctioned violence and vengeance being a use of violence that has no measure is expressed by the idea of cruel and unusual punishment This phrase was originally contained in the English Bill of Rights 1689 But it and versions of it has since found its way into numerous constitutions and declarations including Article 5 of the Universal Declaration of Human Rights as well as the Amendment to the US Constitution Clearly in order for the use of violence to be legitimate it must be subject to limitation The difficulty is that the determination of this limit should be objective but it is not and its application in punitive practice is constituted by a host of extra legal factors and social and political structures It is this essential contestability of the limit which distinguishes punishment from violence that this book addresses And including contributions from a range of internationally renowned scholars it offers a plurality of original and important responses to the contemporary question of the relationship between punishment and the limits of law

Coping, Behavior, and Adaptation in Prison Inmates Edward Zamble, Frank J. Porporino, 2013-11-11 This book is the report of a collaborative effort Frank Porporino and I arrived at the starting point for our work together by very different routes Originally trained as an experimental psychologist I had become increasingly restive within the confines of the laboratory and spent a sabbatical year in the equivalent of a clinical internship I then spent some time as a part time consultant in a local penitentiary Most of my time in the institution was spent with inmates with a variety of problems probably about 50 individuals over the course of a year Although this was far fewer than a full time psychologist in the system might encounter it served as a quick cram course on problem prisoners and prisoner problems Very quickly my stereotypes about convicts were shown to be virtually useless I learned that the criminal classes included all levels of society and that the behavior of prisoners was the same as that of other human beings in a difficult environment
