Prisons And Punishments:

On Punishments and Prisons Oscar I (King of Sweden and Norway),1842 *The Meaning and Nature of Punishment* David Shichor,2006 Between Prison and Probation Norval Morris,1991 Across the country prisons are jammed to capacity and in extreme cases barges and mobile homes are used to stem the overflow Probation officers in some cities have caseloads of 200 and more In Between Prison and Probation Norval Morris and Michael Tonry offer a strategy for alleviating these problems Prisons, Punishment, and the Family Rachel Condry,Peter Scharff Smith,2018-10-04 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality

Prisons, Punishment and the Pursuit of Security D. Drake,2012-07-25 Drawing on research in men s long term maximum security prisons this book examines three interconnected problems the tendency of the prison to obscure other social problems and conceal its own failings the pursuit of greater levels of human security through repressive and violent means and the persistence of the belief in the problem of evil **Making Good** Martin Wright,1982 **Prisons, Punishment, and the Family** Rachel Condry,Peter Scharff Smith,2018-11-10 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but

also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality The Rise of the Penitentiary Adam Jay Hirsch,1992 Before the nineteenth century American prisons were used to hold people for trial and not to incarcerate them for wrong doing Only after independence did American states begin to reject such public punishment as whipping and pillorying and turn to imprisonment instead In this legal social and political history Adam J Hirsch explores the reasons behind this change Hirsch draws on evidence from throughout the early Republic and examines European sources to establish the American penitentiary s ideological origins and parallel development abroad He focuses on Massachusetts as a case study of the transformation and presents in depth data from that state He challenges the notion that the penitentiary came as a by product of Enlightenment thought contending instead that the ideological foundations for criminal incarceration had been laid long before the eighteenth century and were premised upon old criminological theories According to Hirsch it was not new ideas but new social realities the increasing urbanization and population mobility that promoted rampant crime that made the penitentiary attractive to postrevolutionary legislators Hirsch explores possible economic motives for incarcerating criminals and sentencing them to hard labor but concludes that there is little evidence to support this He finds that advocates of the penitentiary intended only that the prison pay for itself through enforced labor Moreover prison advocates frequently involved themselves in other contemporary social movements that reflected their concern to promote the welfare of criminals along with other oppressed groups **Papers Relating to the Late Disturbances in Barbados** ,1876 **Accounts and Papers of the House of Commons** Great Britain. Parliament. House of Commons,1876 **Statistics of the State of Queensland** Queensland. Registrar-General's Office,1910 *The Development of American Prisons and Prison Customs, 1776-1845* Orlando Faulkland Lewis,1922 In the attempt to decipher a number of strange events after he moves into an old cottage a boy discovers a group of English folk engaged in Devil worship **The Punishment and Prevention of Crime** Edmund Frederick Du Cane,1885 Statistics of the State of Queensland for the Year ... ,1903 **Parliamentary Papers** ,1903 English Local Prisons, 1860-1900 Sean McConville,Professor Sean Mcconville,2018-10-24 The local prisons of the latter half of the nineteenth century refined systems of punishment so harsh that one judge considered the maximum penalty of two years local imprisonment to be the most severe punishment known to English law next only to death This work examines how private perceptions and concerns became public policy It also traces the move in English government from the rural and aristocratic to the urban and more democratic It follows the rise of the powerful elite of the higher civil service describes some of the forces that attempted to

oppose it and provides a window through which to view the process of state formation Biennial Report of the State Board of Corrections and Charities to the Legislature of Minnesota Minnesota. State Board of Corrections and Charities, 1893
