Prison Media Anne Kaun, Fredrik Stiernstedt, 2023-05-09 How prisoners serve as media laborers while the prison serves as a testing ground for new media technologies Prisons are not typically known for cutting edge media technologies Yet from photography in the nineteenth century to AI enhanced tracking cameras today there is a long history of prisons being used as a testing ground for technologies that are later adopted by the general public If we recognize the prison as a central site for the development of media technologies how might that change our understanding of both media systems and carceral systems Prison Media foregrounds the ways in which the prison is a model space for the control and transmission of information a place where media is produced and a medium in its own right Examining the relationship between media and prison architecture as surveillance and communication technologies are literally built into the facilities this study also considers the ways in which prisoners themselves often do hard labor as media workers labor that contributes in direct and indirect ways to the latest technologies developed and sold by multinational corporations like Amazon There is a fine line between ankle monitors and Fitbits and Prison Media helps us make sense of today's carceral society *Prison Radicalization* United States. *Therapeutic Correctional Relationships* Sarah Lewis, 2016-04-20 The relationship between offender and criminal justice

practitioner has shifted throughout rehabilitative history whether situated within psychological interventions prison or probation This relationship has evolved and adapted over time but interpersonal processes remain central to offender work However little work has critically focused upon the challenging task of developing and sustaining positive relationships with offenders This book addresses this gap providing an in depth exploration of the processes which underpin correctional relationships within probation Through an innovative methodology it examines how practitioners can enhance their practice by understanding how relationships form deepen and end effectively For the first time it draws on the experiences of offenders and practitioners to uncover the darker side to relationships identifying how they can rupture and break down From this exploration it presents alternative ways in which relationships can be repaired and safeguarded within correctional practice In essence this book assists practitioners in becoming successful supporters of change In an increasingly competitive and politicised climate this book outlines how political and organisational tensions can impact upon the flow of relationships across the criminal justice system Uniquely this book examines how these tensions can be overcome to produce transformative changes Lewis suggests that therapeutic correctional relationships can thrive within a number of correctional settings and presents the core principles of relational practice and dynamic model of therapeutic correctional relationships to assist in achieving quality and sustainable practice This book will appeal to criminological and psychological scholars as well as students studying probation and prison practice offender rehabilitation and desistance New Perspectives on Prison
