Women in Prison Barbara H. Zaitzow, Jim Thomas, 2003 It is old news that the conditions and policies of women s

prisons are different from those for incarcerated men. Less evident however is how gender differences shape those policies and how gender identity and roles shape women's adaptation and resistance to prison culture and control. The papers in this collection explore how the gender based attitudes that women bring to prison frame how they respond to the prison environment and how gender stereotypes continue to affect the treatment and opportunities of incarcerated women today. It looks particularly at how the personal and social problems imported into the prison setting become part of the intricate web of prison culture and how extensively women's prison experience reflects the control and domination they experienced in the outside world.

Prisoners' Children Roger Shaw, 2023-10-25. Justice it is said is about acquitting the innocent and punishing the guilty. Why then asks Roger Shaw are the children of imprisoned parents often penalised the most? The abuse, stigma and neglect experienced by many of these children raise serious questions about the nature of criminal justice. Originally published in 1992, *Prisoners Children* provides the first in depth look at these hidden victims of crime and examines ways in which the harm can be reduced. The contributors, a wide range of leading practitioners and academics in the field, address such diverse issues as the psychological impact of parental incarceration on children, the added problem of racism facing black children and their families and the particular needs of mothers and babies in prison. *Prisoners Children* is a major resource for anyone who needs to know what can be done to confront these and other issues within prisons, the probation service and schools.

Prisons, Inmates and Governance in Latin America Máximo Sozzo, 2022-04-29. This edited collection addresses the topic of prison governance which is crucial to our understanding of contemporary prisons in Latin America. It presents social research from Nicaragua, the Dominican Republic, Venezuela, Colombia, Ecuador, Brazil, Peru, Uruguay and Argentina to examine the practices of governance by the prisoners themselves in each unique setting in detail. High levels of variation in the governance practices are found to exist not only between countries but also within the same country between prisons and within the same prison and between different areas. The chapters make important contributions to the theoretical concepts and arguments that can be used to interpret the emergence, dynamics and effects of these practices in the institutions of confinement of the region. The book also addresses the complex task of explaining why these types of practices of governance happen in Latin American prisons as some of them appear to be a legacy of a remote past but others have arisen more recently. It makes a vital contribution to the fundamental debate for prison policies in Latin America about the alternatives that can be promoted.

inmates the treatment of older women prisoners and the possibility of an elderly justice system **The Politics of the Prison and the Prisoner** Susan Easton,2018-06-13 In recent years there has been a resurgence of interest in the role of the prison as a source of political ideas and site of political engagement as well as in the prisoner's quest for citizenship The rising number of prisoners has increased fiscal burdens which has meant that imprisonment has become a more important political issue There is also greater interest in the prison as a site of political activism and in the generation of radical political ideas within the prison context and the formation of political networks within prison which extend beyond the prison walls This book considers the prison as a site of political protest discusses the quest for citizenship and the denial or negation of citizenship in prison examines the discovery of politics in prison and the role of the prison in increasing political awareness explores the treatment of political prisoners and reflects on the prisoner as a political problem for politicians negotiating pressures from the media and the public when addressing prisoners demands Drawing on a range of contemporary and historical topics such as prison riots radicalisation and the denial of voting rights and including discussion of cases from the UK US and Russia this book examines the prison as a political institution and as a site of both politicisation and political protest This book will be of interest to students and academics engaged with prisons penology punishment and corrections

Prisons and Prisoners John Townsend,2006 The history of prisons is full of pain Suffering prisoners were often shown to the public to bring shame to the prisoner but also to warn others not to end up in prison This title looks at the history of prisons as well as those unfortunate enough to end up inside them **Prisons & Prisoners** Constance Lytton,Jane Warton,2016-09-30 Originally published in 1914 EXCERPT FROM Prisons Prisoners Some Personal Experiences DEDICATION TO PRISONERS WHEN for a short while I shared your lot I asked myself through all my waking hours if there were any friendly thought which could act beneficently for all prisoners no matter how various the training of their previous lives no matter whether distress of circumstance drunkenness selfish action cruelty or madness had been the cause which brought them into prison And there seemed this one thing It is a single idea but needs many words to give it shape Lay hold of your inward self and keep tight hold Reverence yourself Be just kind and forgiving to yourself For the inner you of yourself is surely the only means of communication for you with any good influence you may once have enjoyed or hope some day to find the only window through which you can look upon a happier and more lovable life the only door through which some day you will be able to escape unbarring it to your own release from all that is helpless selfish and unkind in your present self Public opinion which sent you to prison and your gaolers who have to keep you there are mostly concerned with your failings Every hour of prison existence will remind you of these afresh Unless you are able to keep alight within yourself the remembrance of acts and thoughts which were good a belief in your own power to exist freely when you are once more out of prison how can any other human being help you If not the inward power how can any external power avail But if you have this comforter within you hourly keeping up communication with all that you have known and loved of good in your life with

all the possibilities for good that you know of in your hands your mind your heart then when you are released from prison however lonely you may be or poor or despised by your neighbours you will have a friend who can really help you There will be people who visit you in prison and who watch over you at first when you come out They will try to help you but unless they truly understand your lot understanding your goodness as well as your badness and sympathising with your badness as well as with your goodness they will seem far off from you Who knows though but what you may help them In my ignorance and impudence I went into prison hoping to help prisoners So far as I know I was unable to do anything for them But the prisoners helped me They seemed at times the direct channels between me and God Himself imbued with the most friendly and powerful goodness that I have ever met Prisoners I wish I could give to you for your joy something of the help you gave to me and that in many ways I could follow your example

The Restorative Prison Byron R. Johnson, Michael Hallett, Sung Joon Jang, 2021-09-05 Drawing on work from inside some of America's largest and toughest prisons this book documents an alternative model of restorative corrections utilizing the lived experience of successful inmates fast disrupting traditional models of correctional programming While research documents a strong desire among those serving time in prison to redeem themselves inmates often confront a profound lack of opportunity for achieving redemption In a system that has become obsessively and dysfunctionally punitive often fewer than 10% of prisoners receive any programming Incarcerated citizens emerge from prisons in the United States to reoffend at profoundly high rates with the majority of released prisoners ending up back in prison within five years In this book the authors describe a transformative agenda for incentivizing and rewarding good behavior inside prisons rapidly proving to be a disruptive alternative to mainstream corrections and offering hope for a positive future The authors expertise on the impact of faith based programs on recidivism reduction and prisoner reentry allows them to delve into the principles behind inmate led religious services and other prosocial programs to show how those incarcerated may come to consider their existence as meaningful despite their criminal past and current incarceration Religious practice is shown to facilitate the kind of transformational identity work that leads to desistance that involves a change in worldview and self concept and which may lead a prisoner to see and interpret reality in a fundamentally different way With participation in religion protected by the U S Constitution these model programs are helping prison administrators weather financial challenges while also helping make prisons less punitive more transparent and emotionally restorative This book is essential reading for scholars of corrections offender reentry community corrections and religion and crime as well as professionals and volunteers involved in correctional counseling and prison ministry
