**Dictionary of Prisons and Punishment** Yvonne Jewkes,Jamie Bennett,2013-01-11 Covers the rapidly developing and increasingly professionalized field of contemporary prison practice with its increased emphasis on skills and qualifications and its new set of ideas and concepts

The Politics of Redress Willem De Haan,2023-03-08 First published in 1990 The Politics of Redress is a product of and commentary on significant developments in critical criminology It shifts the emphasis from the criminologist as a police agent to a fighter for social justice The author focuses on the role of punishment in society in general and in criminology in particular urging the reader to reimagine the concept of punishment especially penal punishment The arguments addressed in this book range from a comparative analysis of penal policies in various countries to philosophical debates about whether

punishment is compatible with a just social order With the Black Lives Matter movement the topic of prison abolition has once again gripped society's conscience making this text a vital read for students of law criminology sociology philosophy and history

*The Expanding Prison* David Cayley, 1998 *The Expanding Prison* is a provocative cogent argument for prison reform David Cayley argues that our overpopulated prisons are more reflective of a society that is becoming increasingly polarized than of an actual surge in crime This book considers proven alternatives to imprisonment that emphasize settlement oriented techniques over punishment and move us towards a vision of justice as peace making rather than one of vengeance

*The Rise and Fall of the Rehabilitative Ideal, 1895-1970* Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history

**Punishment and Control in Historical Perspective** H. Johnston, 2008-10-24 Bringing together new research this book advances current theoretical understandings of punishment and control in society It provides a critical analysis of institutions punishment and the law and explores the delivery of punishment and experience of incarceration in Western societies from the early nineteenth century

**Towards Human Rights Compliance in Australian Prisons** Anita Mackay, 2020-11-11 Imprisoned people have always been vulnerable and in need of human rights protections The slow but steady growth in the protection of imprisoned people's rights over recent decades in Australia has mostly come from incremental change to prison legislation and common law principles A radical influence is about to disrupt this slow change Australian prisons and other closed environments will soon be subject to international inspections by the United Nations Subcommittee on the Prevention of Torture SPT This is because the Australian Government ratified the Optional Protocol to the Convention Against Torture and other Cruel Inhuman or Degrading Treatment or Punishment OPCAT in December 2017 Australia's international human rights law obligations as they apply to prisons are complex and stem from multiple Treaties This book distils these obligations into five prerequisites for compliance consistent with the preventive focus of the OPCAT

They are reduce reliance on imprisonment align domestic legislation with Australia s international human rights law obligations shift the focus of imprisonment to the goal of rehabilitation and restoration support prison staff to treat imprisoned people in a human rights consistent manner ensure decent physical conditions in all prisons Attention to each of these five areas will help all levels of Australian government and prison managers take the steps required to move towards compliance Human rights led prison reform is necessary both to improve the lives of imprisoned people and for Australia to achieve compliance with the international human rights legal obligations to which it has voluntarily committed itself

*Penal Servitude* Helen Johnston,Barry Godfrey,David J. Cox,2022-01-15 Established in 1853 after the end of penal transportation to Australia the convict prison system and the sentence of penal servitude offered the most severe form of punishment short of death in the criminal justice system and they remained in place for nearly a century *Penal Servitude* is the first comprehensive study to examine the convict prison system that housed all those who were sentenced to penal servitude during this time Helen Johnston Barry Godfrey and David Cox detail the administration and evolution of the system from its creation in the 1850s and the building of the prison estate to the classification of prisoners within it Exploring life in the convict prison through the experiences of the people who were subjected to it the authors shed light on various details such as prison diet education and labour What they find reveals the internal regimes the everyday endurances conformity resistance and rule breaking of convicts and the interactions with the warders medical officers and governors that shaped daily life in the system Reconstructing the life histories of hundreds of convict prisoners from detailed prison records criminal registers census data and personal correspondence *Penal Servitude* illuminates the lives of those who experienced long term imprisonment in the nineteenth and twentieth centuries *Crime Control as Industry* Nils Christie,2013-05-13 This classic text argues that crime control rather than crime itself is the real danger for our future Since the second edition was published in 1994 prison populations especially in Russia and America have grown at an increasingly rapid rate This third edition is published to take account of these changes and draw attention to the scale of an escalating problem It contains completely new chapters one on penal geography the other on the Russian case and has been extensively revised

extent their thinking beyond the received wisdom Pointers to success in course exams and written assessment exercises

**Principles of European Prison Law and Policy** Dirk van Zyl Smit, Sonja Snacken, 2009-01-08 In recent years European prison law and policy have emerged as a force to be reckoned with This book explores its development and analyses the penological and human rights foundations on which it is based It examines the findings of the European Committee for the Prevention of Torture the recommendations of the Council of Europe and the judgments of the European Court of Human Rights From these sources it makes the general principles that underlie European prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights The book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons The final chapter of the book considers how European prison law and policy could best be advanced in future The authors argue that the European Court of Human Rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the European Convention on Human Rights will allow it to do so It concludes that the growing cooperation on prison matters within Europe bodes well for the increased recognition of prisoners rights across Europe In spite of some countervailing voices Europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty

**Criminal Policy in Transition** Penny Green, Andrew Rutherford, 2000-11 This work arrives at a time when the literature in criminology is short of global perspectives It aims to help fill that gap while it presents important new insights into changing penal policy and practice The authors write knowledgeably about their home societies without being prematurely bounded by comparative criteria As a result they develop a complex and uneven image of similarities and differences of divergence and convergence through time In this sense the collection offers a model of how international collaborative work should proceed

**Release from Prison** Nicola Padfield, Dirk Van Zyl Smit, Frieder Dünkel, 2013-01-11 Release from prison is matter of increasing interest throughout Europe On the one hand arguments about the need to reduce prison numbers as well the consistent findings that prisoners can be integrated into society more effectively if they are subject to a period of supervision in the community have made early release policies attractive to governments and to academic commentators On the other hand there are concerns that early release may not be applied fairly to all prisoners This book aims to meet the need for comparative information on release from prison across Europe and explores some of the key themes and issues The body of the book focuses on country perspectives providing an invaluable survey of the situation in a number of European countries The introductory and concluding chapters place the comparative material in a broader perspective They explain how release policy is related to wider questions about justice and fairness in prison related decision making and the changing place of imprisonment in European society

**Pain and Retribution** David Wilson, 2014-03-15 Today the Tower of London is a tourist site home only

to the crown jewels but not long ago the imposing structure held traitors political prisoners and more often on their way to the chopping block Even outside of this famous building prisons have changed radically since the Norman Conquest in 1066 In the first book on the history of prisons in Britain former prison governor and professor of criminology David Wilson offers unrivaled insight into the penal system in England Scotland and Wales charting the rise and fall of forms of punishments that take place behind their walls Pain and Retribution explores prisons as an institution and examines how they are designed organized and managed Wilson reveals that prisons have to satisfy the demands of three interested parties the public from politicians and media commentators to everyday citizens the prison staff and the prisoners themselves He shows how prevailing concerns and issues of the times allow one faction or another to have more power at varying points in history and he considers how prisons are unable to satisfy all three at the same time leading to the system being seen as a failure despite rising numbers of prisoners and growing funds invested in keeping them incarcerated With intriguing comparisons between the prisons of New York City and Britain and searching questions about the purposes of the current penal system Pain and Retribution provides unparalleled access to prison landings staffs and the people behind the locked doors

**The Penal Voluntary Sector** Philippa Tomczak, 2016-10-04 Winner of the 2017 British Society of Criminology Book Prize The penal voluntary sector and the relationships between punishment and charity are more topical than ever before In recent years in England and Wales the sector has featured significantly in both policy rhetoric and academic commentary Penal voluntary organisations are increasingly delivering prison and probation services under contract and this role is set to expand However the diverse voluntary organisations which comprise the sector their varied relationships with statutory agencies and the effects of such work remain very poorly understood This book provides a wide ranging and rigorous examination of this policy relevant but complex and little studied area It explores what voluntary organisations are doing with prisoners and probationers how they manage to undertake their work and the effects of charitable work with prisoners and probationers The author uses original empirical research and an innovative application of actor network theory to enable a step change in our understanding of this increasingly significant sector and develops the policy centric accounts produced in the last decade to illustrate how voluntary organisations can mediate the experiences of imprisonment and probation at the micro and macro levels Demonstrating how the legacy of philanthropic work and neoliberal policy reforms over the past thirty years have created a complex three tier penal voluntary sector of diverse organisations this cutting edge interdisciplinary text will be of interest to criminologists sociologists of work and industry and those engaged in the voluntary sector

**Community Punishment** Gwen Robinson, Fergus McNeill, 2015-10-16 In Community Punishment European perspectives the authors place punishment in the community under the spotlight by exploring the origins evolution and adaptations of supervision in 11 European jurisdictions For most people punishment in the criminal justice system is synonymous with imprisonment Yet both in Europe and in the USA the numbers of people under some form of penal supervision in the community far exceeds the

numbers in prison and many prisoners are released under supervision Written and edited by leading scholars in the field this collection advances the sociology of punishment by illuminating the neglected but crucial phenomenon of mass supervision As well as putting criminological and penological theories to the test in an examination of their ability to explain the evolution of punishment beyond the prison and across diverse states the contributors to this volume also assess the appropriateness of the term community punishment in different parts of Europe Engaging in a serious exploration of common themes and differences in the jurisdictions included in the collection the authors go on to examine how community punishment came into being in their jurisdiction and how its institutional forms and practices have been legitimated and re legitimated in response to shifting social cultural and political contexts This book is essential reading for academics and students involved in the study of both community punishment and comparative penology but will also be of great interest to criminal justice policymakers managers and practitioners
