**Hollywood and History** Jem Duducu, 2023-09-15 There is no shortage of Hollywood films about historical events but what do the movies actually get right and why do they get so much wrong Hollywood loves a story good guys versus bad guys heroes winning the day and the guy gets the girl But we all know real life isn't exactly like that and this is even more true when we look at

history Rarely do the just prevail and the three act story cannot exist over continents and decades of human interaction So when Hollywood decides to exploit history for profit we end up with a wide array of films Some are comedies like Monty Python and the Holy Grail others are little more than action films playing dress up like Gladiator and many are Oscar contenders burdened with an enormous sense of self importance But very few are historically accurate From Cleopatra to Da 5 Bloods the reality is no matter what Hollywood s intentions are almost all historical films are an exaggeration or distortion of what really happened Sometimes the alterations are for the sake of brevity as watching a movie in real time about the Hundred Years War would literally kill you Other additions may be out of necessity since nobody thought to write down the everyday conversations between King Henry VIII and his second wife Anne Boleyn for The Other Boleyn Girl And some projects twist the facts to suit a more sinister purpose In Hollywood and History Jem Duducu takes readers through thousands of years of global history as immortalized and ultimately fictionalized by Hollywood exploring many facets of the representation of history in movies from the medieval times to the wild west and both World Wars Along the way readers will also better understand Hollywood s own history as it evolved from black and white silent shorts to the multiplex CGI epics of today As studios and audiences have matured through the years so too have their representations of history Armies will clash leaders will be slain empires will fall and a few historical inaccuracies will be pointed out along the way A must read for film and history fans alike

*Past and Present* James Chapman,2005-09-23 This ground breaking book takes as its focal point director Ken Loach s view that The only reason to make films that are a reflection on history is to talk about the present In the first book to take on this major genre in all its complexity James Chapman argues that historical films say as much about the times in which they are made as about the past they purport to portray Through in depth case studies of fourteen key films spanning the 1930s up to the turn of the twenty first century from The Private Life of Henry VIII and Zulu to Chariots of Fire and Elizabeth Chapman examines the place of historical films in British cinema history and film culture Looking closely at the issues that they present from gender class and ethnicity to militarism and imperialism he also discusses controversies over historical accuracy and the ways in which devices such as voice overs title captions and visual references to photographs and paintings assert a sense of historical verisimilitude Exploring throughout the book the dialectical relationship between past and present Chapman reveals how such films promote British achievements but also sometimes question them and how they project images of Britishness to audiences both in the UK and internationally
