

THE PRIVATE PAPERS OF SENATOR VANDENBERG

This is "inside history" of the finest type. Most of it is in the form of a diary, pounded out night after night on the Senator's portable typewriter. The diary is supplemented by letters, speeches and memoranda, all of them linked by the necessary minimum of editorial comment. The result is of the greatest importance to historians, of immense interest to the general public, and, withal, a warm, even humorous, self-portrait of one of the best loved figures in the political life of our time.

The story begins with that turning point in history, the passage, in September 1939, of the Lend-Lease Bill, and forms a continuous narrative right up to Vandenberg's death in 1951. The material is so rich that if one began referring to highlights, one wouldn't know where to end. Revealed here, for instance, is the process whereby one of America's leading isolationists became one of its leading internationalists. Even after Pearl Harbour, when Vandenberg announced "support without reservation to the President in his answer to Japan", he was still privately recording his doubt and his regrets. But he is soon making his first small step along the road towards a bipartisan foreign policy: and it is fascinating to watch his mind changing. He is highly suspicious of Roosevelt's secret commitments with Stalin, but supports the UNRRA Bill in 1943, while still referring to himself as an

Morris, 1952 **The Private Papers of Senator Vandenberg /edited by A.H. Vandenberg, Jr ,1953** The Conversion
of Senator Arthur H. Vandenberg Lawrence S. Kaplan, 2015-05-19 The United States has looked inward throughout most of

its history preferring to avoid foreign entanglements as George Washington famously advised After World War II however
Americans became more inclined to break with the past and take a prominent place on the world stage Much has been

written about the influential figures who stood at the center of this transformation but remarkably little attention has been
paid to Arthur H Vandenberg 1884 1951 who played a crucial role in moving the nation from its isolationist past to an

internationalist future Vandenberg served as a U S senator from Michigan from 1928 to 1951 and was known in his early
career for his fervent anti interventionism After 1945 he became heavily involved in the establishment of the United Nations

and was a key player in the development of NATO As chairman of the Senate Foreign Relations Committee during 1947 and
1948 Vandenberg helped rally support for President Truman s foreign policy including the Marshall Plan and his leadership

contributed to a short lived era of congressional bipartisanship regarding international relations In The Conversion of
Senator Arthur H Vandenberg Lawrence S Kaplan offers the first critical biography of the distinguished statesman He

demonstrates how Vandenberg s story provides a window on the political and cultural changes taking place in America as the
country assumed a radically different role in the world and makes a seminal contribution to the history of U S foreign policy

K. Lauck, Gleaves Whitney, Joseph Hogan, 2018-11 In comparison to such regions as the South the far West and New England
the Midwest and its culture have been neglected both by scholars and by the popular press Historians as well as literary and

art critics tend not to examine the Midwest in depth in their academic work And in the popular imagination the Midwest has
never really ascended to the level of the proud literary South the cultured democratic Northeast or the hip innovative West

Coast Finding a New Midwestern History revives and identifies anew the Midwest as a field of study by promoting a diversity
of viewpoints and lending legitimacy to a more in depth rigorous scholarly assessment of a large region of the United States

that has largely been overlooked by scholars The essays discuss facets of midwestern life worth examining more deeply

including history religion geography art race culture and politics and are written by well known scholars in the field such as Michael Allen Jon Butler and Nicole Etcheson

Congress and the Foreign Policy Process Cecil V. Crabb, Jr., Glenn J. Antizzo, Leila S. Saredidine, 2000-02-01 In this highly original and thoroughly informed study Cecil V Crabb Jr Glenn Antizzo and Leila S Saredidine identify and examine recurring modes or patterns of legislative behavior over the span of America s diplomatic experience Although congressional involvement in foreign policy making has received much scholarly attention this work is groundbreaking in that it focuses on those patterns of congressional conduct that have repeated themselves over time and on the basis of experience will probably continue to occur Thus it creates a large predictable framework of legislative activity concerning America s problems abroad to which students of U S foreign policy can relate Congress s actions in any era The authors identify four models of legislative conduct congressional assertiveness and activism in foreign affairs congressional acquiescence in diplomatic leadership by the president a bipartisan approach and a division of labor model in which both the president and Congress play significant but essentially different roles In examining each of these modes the authors explore the circumstances and factors that gave rise to each pattern and evaluate its positive and negative results for the overall foreign policy of the United States Brimming with lively language and invaluable observations Congress and the Foreign Policy Process offers a thought provoking means to understanding a complex and important area in the study of American government

The Most Noble Adventure Greg Behrman, 2007-08-07 In this landmark character driven history Greg Behrman tells the story of the Marshall Plan the unprecedented and audacious policy through which America helped rebuild World War II ravaged Western Europe With nuanced vivid prose Behrman recreates the story of a unique American enterprise that was at once strategic altruistic and stunningly effective and of a time when America stood as a beacon of generosity and moral leadership When World War II ended in Europe the continent lay in tatters Tens of millions of people had been killed Ancient cities had been demolished The economic financial and commercial foundations of Europe were in shambles Western Europe

s Communist parties feeding off people's want and despair were flourishing as to the east Stalin's Soviet Union emerged as the sole superpower on the continent The Marshall Plan was a four year 13 billion more than 100 billion in today's dollars plan to provide assistance for Europe's economic recovery More than an aid program it sought to modernize Western Europe's economies and launch them on a path to prosperity and integration to restore Western Europe's faith in democracy and capitalism to enmesh the region firmly in a Western economic association and eventually a military alliance It was the linchpin of America's strategy to meet the Soviet threat It helped to trigger the Cold War and eventually to win it Through detailed and exhaustive research Behrman brings this vital and dramatic epoch to life and animates the personalities that shaped it The narrative follows the six extraordinary American statesmen George Marshall Will Clayton Arthur Vandenberg Richard Bissell Paul Hoffman and W Averell Harriman who devised and implemented the Plan as well as some of the century's most important personalities Winston Churchill Josef Stalin Joseph McCarthy who are also central players in the drama told here More than a humanitarian endeavor the Marshall Plan was one of the most effective foreign policies in all of American history in large part because as Behrman writes it was born and executed in a time when American foreign policy was defined by its national interests and the very best of ideals

Senatorial Politics and Foreign Policy Malcolm E. Jewell, 2021-09-15 Bipartisanship has become so associated with the conduct of foreign policy that partisanship has virtually been forgotten In this persuasive study of senatorial politics Malcolm E Jewell reasserts the importance of partisanship arguing that increased party responsibility is the best guarantee for the establishment of sound policy and for the continued support of policy once established The author bases his conclusions on a study of the Senate during the Truman and Eisenhower administrations
