*Forging a Cherokee-American Alliance in the Creek War* Susan M. Abram, 2015-11-15 Explores how the Creek War of 1813 1814 not only affected Creek Indians but also acted as a catalyst for deep cultural and political transformation within the society of the United States Cherokee allies The Creek War of 1813 1814 is studied primarily as an event that impacted its two main antagonists the defending Creeks in what is now the State of Alabama and the expanding young American republic Scant attention has been paid to how the United States Cherokee allies contributed to the war and how the war transformed their society In *Forging a Cherokee American Alliance in the Creek War* Susan M Abram explains in engrossing detail the pivotal changes within Cherokee society triggered by the war that ultimately ended with the Cherokees forced removal by the United States in 1838 The Creek War also known as the Red Stick War is generally seen as a local manifestation of the global War of 1812 and a bright footnote of military glory in the dazzling rise of Andrew Jackson Jackson's victory which seems destined only in historic hindsight was greatly aided by Cherokee fighters Yet history has both marginalized Cherokee contributions to that conflict and overlooked the fascinating ways Cherokee society changed as it strove to accommodate rationalize and benefit from an alliance with the expanding American republic Through the prism of the Creek War and evolving definitions of masculinity and community within Cherokee society Abram delineates as has never been done before the critical transitional decades prior to the Trail of Tears Deeply insightful Abram illuminates the ad hoc process of cultural political and sometimes spiritual transitions that took place among the Cherokees Before the onset of hostilities the Cherokees already faced numerous threats and divisive internal frictions Abram concisely records the Cherokee strategies for meeting these challenges describing how for example they accepted a centralized National Council and replaced the tradition of conflict resolution through blood law with a network of lighthouse regulators And while many aspects of masculine war culture remained it too was filtered and reinterpreted through contact with the legalistic and structured American military Rigorously documented and persuasively argued Abram's award winning *Forging a Cherokee American Alliance in the Creek War* fills a critical gap in the history of the early American republic the War of 1812 the Cherokee people and the South

**Lenin's Private War** Lesley Chamberlain, 2008-06-24 In the autumn of 1922 Lenin personally drew up a list of some 220 undesirable intellectuals mostly philosophers academics scientists and journalists to be deported before the creation of the Soviet Union in December that year Two ships sailed from Petrograd that autumn taking around seventy of these eminent men and their families away to what became permanent exile in Berlin Prague and Paris Lenin's *Private War* tells the story of these writers journalists and scholars expelled from their homeland It describes the world they left behind and the emigre communities they were forced to join Lesley Chamberlain paints a rich portrait of this chilling historical moment using the journals letters and memoirs of those involved Lenin's *Private War* also tells the story of the fate of ideas not just those of Lenin but also of the men forced to leave their homeland Men like Nicholas Berdyaev

Semyon Frank and Sergei Bulgakov made unique contributions to the intellectual life of the twentieth century through their work on creativity and faith. They perpetuated core Russian cultural traditions that were banned in the Soviet Union and incomparably deepened Western understanding of Russian history and culture. *Private Dancer* Cree Storm, 2021-04-25 Sparrow always thought it would be romantic to be swept off his feet by a man but reality doesn't meet fantasy especially when it's bigfoot. The moment Congo saw Sparrow on stage he knew he was his mate. When someone jumps on stage Congo doesn't waste a moment getting his mate to safety. Funny thing is Sparrow believes they are mates but he refuses to believe in the danger coming for him.

**Winning the Cold War: Impact abroad of U.S. private information mass media; Impact abroad of special activities of selected private U.S. organizations; Problems and techniques of international communications, September 11, 12, and 13, 1963** United States. Congress. House. Committee on Foreign Affairs, United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations and Movements, 1963. Focuses on role of private business, educational and trade union organization in fostering positive U.S. image abroad. Classified material has been deleted. Civil War Courts-Martial of North Carolina Troops Aldo S. Perry, 2012-08-08. During the Civil War Confederate military courts sentenced to death more soldiers from North Carolina than from any other state. This study offers the first exploration of the service records of 450 of these wayward Confederates, most often deserters. Arranged by army corps division and brigade, it chronicles their military trials and frequent executions and offers explanations of how the lucky and the clever were able to avoid their fate. Focus on court activity by company allows for comparisons that emphasize the wide disparity in discipline within a regiment and brigade. By stressing the effectiveness of these deadly decisions as deterrents to others, this work maintains that an earlier and wider reliance on execution would have strengthened the Confederacy sufficiently to force a negotiated end to the war, thus saving many Confederate and Federal lives. The Drug War in America United States. Congress. House. Select Committee on Aging. Subcommittee on Health and Long-Term Care, 1991. *The Trial of Alexander McLeod* Alexander McLeod, 1841. Stenographic record of the trial of Alexander McLeod for the murder of Amos Durfee and the burning and destruction of the steamboat *Caroline*, a notorious incident in the 1837 Rebellion. The American steamer *Caroline* had been used by the rebels and their American sympathizers to bring men and supplies to the rebel camp on Navy Island above Niagara Falls. On the night of December 29, 1837, determined to cripple this supply line, a party of Canadians under Captain Andrew Drew seized the vessel, cut her adrift, and set her ablaze. During the incident, one American named Amos Durfee was killed. Three years later Alexander McLeod, former deputy sheriff of the Niagara district who allegedly took part in the affair, was arrested in Buffalo and charged with Durfee's murder. He was imprisoned for eleven months before he was tried and acquitted. This is a substantially more detailed and scarcer account than the one published the same year at the Sun office. See TPL 2469.

**Deep Change and Emergent Structures in Global Society** Andrea M. Maccarini, 2019-03-01. This book addresses the

problem of the transition to new forms of social order in the global world As a haunting sense of historical discontinuity pervades Western societies it offers a fresh perspective on the issue focusing on two basic coordinates to pinpoint the developmental path of rapidly changing societies one is the mechanism of unfettered social morphogenesis and the other is the specific kind of societal unification brought about by globalization with the related closure of the world The book draws on the theoretical work produced in the five volumes of the Springer series Social Morphogenesis and applies it in a sustained and concerted approach to the empirical examination of macro social change The first part of the book presents the social ontology of the morphogenetic approach and discusses its capacity to interpret macrosocial transitions The second part then draws a prospective outline of the social formation known as the morphogenic society showing how unbound morphogenesis in a globalized world shapes such crucial phenomena as social norms war and violence openness and closure as adaptive responses from social organizations Lastly the third part examines the anthropological consequences of these societal trends focusing on self and character as well as on human fulfillment and the good life

**Korean War Atrocities** United States. Congress. Senate. Committee on Government Operations, 1954 *The Six-Shooter State* Jonathan Obert, 2018-10-18 American violence is schizophrenic On the one hand many Americans support the creation of a powerful bureaucracy of coercion made up of police and military forces in order to provide public security At the same time many of those citizens also demand the private right to protect their own families home and property This book diagnoses this schizophrenia as a product of a distinctive institutional history in which private forms of violence vigilantes private detectives mercenary gunfighters emerged in concert with the creation of new public and state forms of violence such as police departments or the National Guard This dual public and private face of American violence resulted from the upending of a tradition of republican governance in which public security had been indistinguishable from private effort by the nineteenth century social transformations of the Civil War and the Market Revolution

State-Private Networks and Intelligence Theory Tom Griffin, 2022-06-30 This book examines the United States neoconservative movement arguing that its support for the 2003 invasion of Iraq was rooted in an intelligence theory shaped by the policy struggles of the Cold War The origins of neoconservative engagement with intelligence theory are traced to a tradition of labour anti communism that emerged in the early 20th century and subsequently provided the Central Intelligence Agency with key allies in the state private networks of the Cold War era Reflecting on the break up of Cold War liberalism and the challenge to state private networks in the 1970s the book maps the neoconservative response that influenced developments in United States intelligence policy counterintelligence and covert action With the labour roots of neoconservatism widely acknowledged but rarely systematically pursued this new approach deploys the neoconservative literature of intelligence as evidence of a tradition rooted in the labour anti communist self image as allies rather than agents of the American state This book will be of great interest to all students of intelligence studies Cold War history United States foreign policy and international relations

*Privatizing War* William Feldman, 2016-06-17 This book offers a comprehensive moral theory of privatization in war It examines the kind of wars that private actors might wage separate from the state and the kind of wars that private actors might wage as functionaries of the state The first type of war serves to probe the ad bellum question of whether private actors can justifiably authorize war while the second type of war serves to probe the in bello question of whether private actors can justifiably participate in war The cases that drive the analysis are drawn from the rich and complicated history of private military action stretching back centuries to the Italian city states whose mercenaries were reviled by Machiavelli The book also takes up the hypothetical examples conjured by philosophers the private protective agencies of Robert Nozick's Anarchy State and Utopia for example and the private armies of Thomas More's Utopia The aim of this book is to propose a theory of privatization that retains currency not only in assessing current military engagements but past and future ones as well In doing so it also raises a set of important questions about the very enterprise of war This book will be of much interest to students of ethics political philosophy military studies international relations war and conflict studies and security studies
