Boquet,2007-04-01 The Everyday Writing Center challenges some of the most comfortable traditions in its field and it does so with a commitment and persuasiveness that one seldom sees in scholarly discussion The book at its core is an argument for a new writing center consciousness one that makes the most of the writing center s unique and uniquely fluid identity Writing center specialists live with a liminality that has been acknowledged but not fully explored in the literature Their disciplinary identity is with the English department but their mission is cross disciplinary

their research is pedagogical but they often report to central administration Their education is in humanities but their administrative role demands constant number crunching This fluid identity explains why Trickster an icon of spontaneity shape shifting and the creative potential of chaos has come to be a favorite cultural figure for the authors of this book Adapting Lewis Hyde and others these authors use Trickster to develop a theme of ordinary disruptions the everyday as a source of provocative learning moments that can liberate both student writers and writing center staff At the same time the authors parlay Etienne Wenger s concept of community of practice into an ethos for a dynamic learner centered pedagogy that is especially well suited to the peculiar teaching situation of the writing center Through Trickster they question not only accepted approaches to writing center pedagogy but conventional approaches to race time leadership and collaboration as well They encourage their field to exploit the creative potential in ordinary events that are normally seen as disruptive or defeating and they challenge traditions in the field that tend to isolate a writing center director from the department and campus Yet all is not random for the authors anchor this high risk high yield approach in their commitment to a version of Wenger s community of practice Conceiving of themselves their colleagues student writers and student tutors as co learners engaged together in a dynamic life of learning the authors find a way to ground the excess and randomness of the everyday while advancing an ethic of mutual respect and self challenge Committed to testing a region beyond the edge of convention the authors of *The Everyday Writing Center* constantly push themselves and their field toward deeper more significant research and more reflective dynamic teaching
