Intensive Psychotherapy for Persistent Dissociative Processes: The Fear of Feeling Real (Norton Series on Interpersonal Neurobiology) Richard A. Chefetz, 2015-04-06 Winner of the International Society for the Study of Trauma and Dissociation s ISSTD Pierre Janet Writing Award 2015 What really happens in dissociation Dissociative processes have long burdened trauma survivors with the dilemma of longing to feel real at the same time as they desperately want to avoid the pain that comes with that healing a dilemma that often presents particularly acute difficulties for healing professionals Recent clinical and neurobiological research sheds some light into the dark corners of a mind undergoing persistent dissociation but its integration into the practice of talking therapy has never until now been fully realized Intensive Psychotherapy for Persistent

Dissociative Processes brings readers into the consultation room and into the minds of both patient and therapist like no other work on the treatment of trauma and dissociation Richard A Chefetz marries neuroscientific sophistication with a wealth of extended case histories following patients over several years and offering several verbatim session transcripts His unpacking of the emotionally impactful experience of psychodynamic talking therapy is masterfully written clearly accessible and singularly thorough From neurobiological foundations he builds a working understanding of dissociation and its clinical manifestations Drawing on theories of self states and their involvement in dissociative experiences he demonstrates how to identify persistent dissociation and its related psychodynamic processes including repetition compulsion and enactment He then guides readers through the beginning stages of a treatment with particular attention to the psychodynamics of emotion in both patient and therapist The second half of the book immerses readers in emotionally challenging clinical processes offering insight into the neurobiology of fear and depersonalization as well as case examples detailing struggles with histories of incest sexual addiction severe negativity negative therapeutic reactions enactment and object coercive doubting The narrative style of Chefetz s casework is nearly novelistic bringing to life the clinical setting and the struggles in both patient and therapist The only mystery in this clinical exposition as it explores several cases over a number of years is what will happen next In the depth of his examples and in continual self reflexive analysis of flaws in past treatments Chefetz is both a generous guide and an expert storyteller Intensive Psychotherapy for Persistent Dissociative Processes is unique in its ability to place readers in the consultation room of psychodynamic therapy With an evidence focused approach based in neurobiology and a bold clinical scope it will be indispensable to new and experienced therapists alike as they grapple with the most intractable clinical obstacles

Prolonged Exposure Steven F. Havill,2012-01-31 Savvy storytelling infused with a spicy Southwestern setting Not only does Havill offer a melancholy reinterpretation of that grand western myth of the slow talking fast thinking lawman he also writes crisp marvelously detailed police procedurals in which a mix of technical know how and informed common sense gets things done Booklist Bill Gastner is going crazy recuperating from heart surgery

Dreaming of green chili he's rescued by a phone call from back home The Undersheriff arrives in Posadas County only to learn that his own home has been burgled Moreover Gastner finds his cranky ancient neighbor Florencio Apodaca has borrowed a bit of land to bury his equally ancient wife and the dead woman's stepson questions if she died a natural death Meanwhile a young boy out camping has vanished from atop Cat Mesa A stringent search convinces Bill his treasured deputy Estelle Reyes Guzman and Sheriff Martin Holman that the boy has been spirited away Poisoned Pen Press has republished the five earlier novels in Steven Havill's carefully cleverly detailed police procedural series richly redolent of southern New Mexico

The New Bruckner Dermot Gault, 2016-03-03 The New Bruckner provides a valuable study of Bruckner's music focusing on the interaction of biography textual scholarship reception history and analysis Dr Dermot Gault conveys a broad chronological narrative of Bruckner's compositional development interpolating analytical commentaries on the works and critical accounts of the notoriously complex and editorial issues Gault corrects longstanding misconceptions about the composer's revision process and its relationship with the early editions and widely held critical opinions Bruckner's constantly evolving engagement with symphonic form is traced by taking each revision in due order rather than by taking each symphony on its own and by relating the symphonies to other mature works such as the Te Deum the three great Masses and the Quintet and argues that Bruckner's music became more organic and less schematic as the result of his revisions The book will be essential reading for those studying Bruckner's compositions the complex history of their reception and late Romantic music in general
