The Invention of Race in the European Middle Ages Geraldine Heng, 2018-03-08 In The Invention of Race in the European Middle Ages Geraldine Heng questions the common assumption that the concepts of race and racisms only began in the modern era Examining Europe s encounters with Jews Muslims Africans Native Americans Mongols and the Romani Gypsies from the 12th through 15th centuries she shows how racial thinking racial law racial practices and racial phenomena existed in medieval Europe before a recognizable vocabulary of race emerged in the West Analysing sources in a variety of media including stories maps statuary illustrations architectural features history saints lives religious commentary laws political and social institutions and literature she argues that religion so much in play again today enabled the positing of fundamental differences among humans that created strategic essentialisms to mark off human groups and populations for racialized treatment Her ground breaking study also

shows how race figured in the emergence of homo europaeus and the identity of Western Europe in this time Islamic Law in Action Kristen Stilt, 2012-01-12 A dynamic account of the practice of Islamic law this book focuses on the actions of a particular legal official the muhtasib whose vast jurisdiction included all public behavior In the cities of Cairo and neighboring Fustat during the Mamluk period 1250 1517 the men who held the position of muhtasib acted as regulators of markets and public spaces generally They traversed their jurisdictions carrying out the duty to command right and forbid wrong and were as much a part of the legal landscape as the better known figures of judge and mufti Taking directions from the rulers the sultan foremost among them they were also guided by legal doctrine as formulated by the jurists combining these two sources of law in one face of authority The daily workings of the law are illuminated by the reports of the muhtasib in the vivid Mamluk era chronicles which often also captured the responses of the individuals who encountered the official The book is organized around actions taken by the muhtasib in the areas of Muslim devotional and pious practices crimes and offenses the management of Christians and Jews market regulation and consumer protection the specific markets for essential bread currency and taxes and public order The case studies presented show that while legal doctrine was clearly relevant to the muhtasib's actions the policy demands of the sultan were also quite significant and rules from both sources of authority intersected with social political economic and personal factors to create full and vibrant scenarios that reveal the practice of Islamic law A Cultural History of Race in the Middle Ages Thomas Hahn, 2023-06-01 This volume presents a comprehensive and collaborative survey of how people individually and within collective entities thought about experienced and enacted racializing differences Addressing events texts and images from the 5th to the 16th centuries these essays by ten eminent scholars provide broad multi disciplinary analyses of materials whose origins range from the British Isles Western Iberia and North Africa across Western and Eastern Europe to the Middle East These diverse communities possessed no single word equivalent to modern race a term raza for genetic religious cultural or territorial difference that emerges only at the end of the medieval period Chapter by chapter this volume nonetheless demonstrates the manifold beliefs practices institutions and images that conveyed and enforced difference for the benefit of particular groups and to the detriment of others Addressing the varying historiographical self consciousness concerning race among medievalist scholars themselves the separate analyses make use of paradigms drawn from social and political history religious environmental literary ethnic and gender studies the history of art and of science and critical race theory Chapters identify the eruption of racial discourses aroused by political or religious polemic centered upon conversion within and among Jewish Christian and Islamic communions and inspired by imagined or sustained contact with alien peoples Authors draw their evidence from Hebrew Latin Arabic and a profusion of European vernaculars and provide searching examinations of visual artefacts ranging from religious service books to maps mosaics and manuscript illuminations **The ^AOxford Dictionary of Islam** John L. Esposito, 2004-10-21 Designed for general readers with little or no knowledge of Islam this superb Oxford Dictionary provides

more than 2 000 vividly written up to date and authoritative entries organized in an easy to use A to Z format The Dictionary focuses primarily on the 19th and 20th centuries stressing topics of most interest to Westerners What emerges is a highly informative look at the religious political and social spheres of the modern Islamic world Naturally readers will find many entries on topics of intense current interest such as terrorism and the Taliban Osama bin Laden and al Qaida the PLO and HAMAS But the coverage goes well beyond recent headlines There are biographical profiles ranging from Naguib Mahfouz the Nobel Prize winner from Egypt to Malcolm X including political leaders influential thinkers poets scientists and writers Other entries cover major political movements militant groups and religious sects as well as terms from Islamic law culture and religion key historical events and important landmarks such as Mecca and Medina A series of entries looks at Islam in individual nations such as Afghanistan the West Bank and Gaza Bosnia Herzegovina and the United States and there are discussions of Islamic views on such issues as abortion birth control the Internet the Rushdie Affair and the theory of evolution Whether we are listening to the evening news browsing through the op ed pages or reading a book on current events references to Muslims and the Islamic world appear at every turn The Oxford Dictionary of Islam offers a wealth of information for anyone curious about this burgeoning and increasingly important world religion
