The Political Representation of Immigrants and Minorities Karen Bird, Thomas Saalfeld, Andreas M. Wüst, 2010-10-06 In 2005 almost 700 000 immigrants acquired the citizenship of a member state of the European Union over 600 000 became US citizens nearly 100 000 became Australians and approximately 200 000 Canadians 2005 was not an exceptional year During the past decades many advanced liberal democracies have become more ethnically diverse societies This book breaks new ground in the analysis of the political representation of immigrants and visible minorities both theoretically and empirically It examines the upward trend in migrant and minority representation and demonstrates that there remain crucial differences across liberal democracies in the timing of these developments in channels of access for minority representatives in the policy focus and outcomes of minority representation in the nature of the connections between minority representatives and minority communities and in the nature of their relationships with constituents at large Part I analyses immigrants and visible minorities as voters who must be the starting point of any analysis of political representation Part II deals with the stage of candidate selection within political parties a crucial and under researched stage in the process of political representation Part III deals with immigrants and members of visible minorities once elected to

parliament and includes analyses of the Canadian Parliament the German Bundestag MPs in the United Kingdom and Members of the United States Congress The book will of interest to students and scholars of migration and ethnicity studies and political science especially those with an interest in political representation democratic institutions voting behaviour party organisation legislative behaviour and comparative politics Putting Voters in their Place Ron Johnston, Charles Pattie, 2006-10-12 Why do people living in different areas vote in different ways Why does this change over time How do people talk about politics with friends and neighbours and with what effect Does the geography of well being influence the geography of party support Do parties try to talk to all voters at election time or are they interested only in the views of a small number of voters living in a small number of seats Is electoral participation in decline and how does the geography of the vote affect this How can a party win a majority of seats in Parliament without a majority of votes in the country Putting Voters in their Place explores these questions by placing the analysis of electoral behaviour into its geographical context Using information from the latest elections including the 2005 General Election the book shows how both voters and parties are affected by and seek to influence both national and local forces Trends are set in the context of the latest research and scholarship on electoral behaviour The book also reports on new research findings **Ethnic minorities and social capital: exploring individual level determinants of trust and political participation in Britain**, *Clientelism and Democratic Representation in Comparative Perspective* Saskia Ruth-Lovell, Maria Spirova, 2019-10-15 Since the Third Wave of democratization research on clientelism has experienced a revival The puzzling persistence of clientelism in new and old democracies inspired researchers to investigate the micro foundations and causes of this phenomenon Though the decline of clientelistic practices such as vote buying and patronage in democratic contexts has often been predicted they have proven to be highly adaptive strategies of electoral mobilization and party building This volume seeks to contribute to this new line of research and develops a theoretical framework to study the consequences of clientelism for democratic governance Under governance we understand all processes of governing whether undertaken by a government market or network whether over a family tribe formal or informal organization or territory and whether through laws norms power or language

The UK General Election of 2010
 Justin Fisher, Christopher Wlezien, 2013-10-18 The 2010 general election was the most eagerly awaited contest in Britain since 1997 With opinion polls showing a closing gap between the parties the result was uncertain right up to polling day In the end the election was particularly noteworthy for three reasons First of all there were televised debates between leaders of the three largest parties This idea has long been called for but for a variety of reasons they had not occurred in Britain until 2010 Now they are here they are almost certainly here to stay Secondly the election led to the end of thirteen years of Labour rule Just as the 1964 and the 1997 elections had delivered the final blows to long standing one party government so 2010 did the same What made 2010 particularly significant however was that unlike 1964 or 1997 no single party assumed the reins of power Thirdly although the Conservatives ended up as the largest party by some margin they were still some twenty seats short of a majority of just one Not since the election of February 1974 had the result failed to produce a majority government in the Commons and before that we would have to go back to 1929 to find a similar outcome This book features high quality and data rich examinations of the election It is intended for audiences who want to go beyond a simple description of the election towards an enhanced understanding of why the election turned out the way it did This book was published as a special edition of Journal of Elections Public Opinion Parties

Immigration and Conflict in Europe
 Rafaela M. Dancygier, 2010-08-09 Contemporary debates give the impression that the presence of immigrants necessarily spells strife Yet as Immigration and Conflict in Europe shows the incidence of conflict involving immigrants and their descendants has varied widely across groups cities and countries The book presents a theory to account for this uneven pattern explaining why we observe clashes between immigrants and natives in some locations but not in others and why some cities experience confrontations between immigrants and state actors while others are spared from such conflicts The book addresses how economic conditions interact with electoral incentives to account for immigrant native and immigrant state conflict across groups and cities within Great Britain as well as across Germany and France It highlights the importance of national immigration regimes and local political economies in shaping immigrants economic position and political behavior demonstrating how economic and electoral forces rather than cultural differences determine patterns of conflict and calm

Brexitland Maria Sobolewska, Robert Ford, 2020-10-15 Authoritative account of the fundamental social and demographic changes that have shaped the turbulent and polarised politics of the UK today *Europeisation of Political*

Rights Agata Dziwulska, 2012 *The Politics of Migration and Immigration in Europe* Andrew Geddes, 2003-03-26 This text fulfills a major gap by comprehensively reviewing one of the most salient policy issues in Europe today migration and immigration It is the first book to address the question of whether we can legitimately speak of a European politics of migration that links states in terms of their policy response to each other and to an evolving EU policy The book carefully differentiates between different types of migration introduces the main concepts and debates and provides a broad comparative framework from which to assess the role and impact of individual states and the European Union EU and European integration to this key contemporary issue Topical and up to date the author fully reviews the politics and policies of immigration across the breadth and depth of Europe including the older immigration countries of France Germany and the United Kingdom the newer southern European countries and the enlargement states of East and Central Europe The Politics of Immigration and Migration in Europe is essential reading for all undergraduate and post graduate students of European politics political science and the social sciences more generally Andrew Geddes lectures at the School of Politics and Communications Studies University of Liverpool This book will be essential reading for students of migration and European integration but will also be important for decision makers and indeed anyone who wants to understand one of the burning issues of our times Stephen Castles Professor of Migration and Refugee Studies Director of the Refugee Studies Centre University of Oxford Dilemmas of Inclusion Rafaela M. Dancygier, 2017-09-05 As Europe's Muslim communities continue to grow so does their impact on electoral politics and the potential for inclusion dilemmas In vote rich enclaves Muslim views on religion tradition and gender roles can deviate sharply from those of the majority electorate generating severe trade offs for parties seeking to broaden their coalitions Dilemmas of Inclusion explains when and why European political parties include Muslim candidates and voters revealing that the ways in which parties recruit this new electorate can have lasting consequences Drawing on original evidence from thousands of electoral contests in Austria Belgium Germany and Great Britain Rafaela Dancygier sheds new light on when minority recruitment will match up with existing party positions and uphold electoral alignments and when it will undermine party brands and shake up party systems She demonstrates that when parties are seduced by the quick delivery of ethno religious bloc votes they undercut their ideological coherence fail to establish programmatic linkages with Muslim voters and miss their opportunity to build cross ethnic class based coalitions Dancygier highlights how the politics of minority inclusion can become a testing ground for parties showing just how far their commitments to equality and diversity will take them when push comes to electoral shove Providing a unified theoretical framework for understanding the causes and consequences of minority political incorporation and especially as these pertain to European Muslim populations Dilemmas of Inclusion advances our knowledge about how ethnic and religious diversity reshapes domestic politics in today's democracies
