## **Race Sex And Policy Problems:**

Race, Sex, and Policy Problems Marian Lief Palley, Michael B. Preston, 1979      Race, Class, and Education Kenneth J. Meier, Joseph Stewart, Robert E. England, 1989 While most school systems have undergone some formal desegregation to eliminate inequities in access to education inequities and discrimination nonetheless remain In this study covering 170 major school districts during the years between 1968 and 1984 the authors discuss the remaining obstacles to equal opportunity in education Clustering of students into separate classes or groups of classes based on perceived learning potential is one form of discrimination that remains disciplinary policy resulting in suspension or expulsion is the other Based on their findings Meier Stewart and England argue that the single most important factor in improving the access of black students to equal educational opportunities is having black teachers in the classroom a goal attainable through use of the political system In a very concise book Meier Stewart and England build a damning case against standard education policies as contributors to the resegregation of our schools In the process they give us an excellent example of what good policy analysis is by carefully blending empirical documentation with evaluation and prescription Mary Kweit Public Administration Review

**Encyclopedia of Policy Studies, Second Edition** Stuart Nagel, 2020-08-18 This entirely updated and enlarged Second Edition of a landmark reference text continues to provide comprehensive coverage of every important aspect of policy studies discussing concepts methods utilization formation and implementation both internationally and across each level of government      **Policy Discourses, Gender, and Education** Elizabeth J. Allan, 2012-10-12 Despite over thirty years of activism and legislation to eliminate discrimination parity has yet to be achieved for women in academe This book describes policy discourse analysis as a framework for considering how those involved in policy making efforts may make use of discourses that inadvertently undermine the intended effect of the policies they set forth Allan illustrates the methods of policy discourse analysis by describing their use in a study of twenty one women s commission reports In so doing she highlights the important work of university women s commissions while uncovering policy silences and making visible the powerful discourses framing gender equity policy initiatives in higher education Her findings reveals how dominant discourses of femininity access professionalism race and sexuality contribute to constructing women s status in complex and at times contradictory ways This important volume will interest researchers across a number of disciplines including policy studies educational leadership higher education and cultural studies of education      *Resources in Women's Educational Equity*, 1980 Literature cited in AGRICOLA Dissertations abstracts international ERIC ABI INFORM MEDLARS NTIS Psychological abstracts and Sociological abstracts Selection focuses on education legal aspects career aspects sex differences lifestyle and health Common format bibliographical information descriptors and abstracts and ERIC subject terms used throughout Contains order information Subject author indexes      Beyond Race, Sex, and Sexual Orientation Sonu Bedi, 2013-09-02 The conventional interpretation of equality under the law singles out certain groups or classes for

constitutional protection women racial minorities and gays and lesbians The United States Supreme Court calls these groups suspect classes Laws that discriminate against them are generally unconstitutional While this is a familiar account of equal protection jurisprudence this book argues that this approach suffers from hitherto unnoticed normative and political problems The book elucidates a competing extant interpretation of equal protection jurisprudence that avoids these problems The interpretation is not concerned with suspect classes but rather with the kinds of reasons that are already inadmissible as a matter of constitutional law This alternative approach treats the equal protection clause like any other limit on governmental power thus allowing the Court to invalidate equality infringing laws and policies by focusing on their justification rather than the identity group they discriminate against

*Gender, Class and Education (Routledge Revivals)* Stephen Walker, Len Barton, 2013-11-05 First published in 1983 Gender Class and Education is a collection of papers that formed presentations at the Westhill Sociology of Education Conference in January 1982 and is the fifth such collection to emerge from the annual conference The conference theme Race Class and Gender was not only chosen because of its topicality but also to provide a framework for debate between educational researchers and teachers The papers focus on the reproduction of gender relations through education and provide important insights into how this process works how it is resisted in schools and colleges and the possibilities for radical intervention This volume includes three teaching bibliographies on gender and education which were not presented at the conference but were compiled specially for the book

*The Dynamics of Opportunity in America* Irwin Kirsch, Henry Braun, 2016-01-22 Across the country our children are beginning life from very different starting points Some have aspirations and believe they can be achieved For too many others aspirations are tempered if not dashed by the sobering realities of everyday life These different starting points place children on distinctly different trajectories of growth and development ultimately leading to vastly different adult outcomes How did we get to a place where circumstances of birth have become so determinative And what must we do within communities and across our country to better equalize opportunity for more Americans both young and old The editors of this volume contend that if as a nation we do nothing then we will continue to drift apart placing an unsustainable strain on the nation's social fabric and the character of its democracy Consequently understanding the dynamics governing the distribution and transmission of opportunity and transforming this understanding into policies and programs is critical for not only the life outcomes of individual Americans and their children but also the country as a whole The goal of Educational Testing Service's Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action and how best to do so This volume contains 14 chapters including an epilogue written by leaders from a range of

fields including education economics demography and political science Collectively they not only illuminate key aspects of the problem but also offer suggestions of what policies programs and changes in practices could begin to reverse the trends we are seeing Written in an engaging style this volume constitutes an essential foundation for informed discussion and strategic analysis

**The Global Political Economy of Sex: Desire, Violence, and Insecurity in Mediterranean Nation States** A. Agathangelou, 2004-10-14 At the intersection of the warmth of hearth and home and the dangers of the street lies the tenuous position of women engaged in reproductive labour those involved in the sex trade and those in domestic positions These are women who are vulnerable exploited and whose dirty work allows for the reproduction of traditional social mores and roles Yet while they are used to sustain tradition dialectically they reflect the hyperconnections of globalization through the migration of women the development of placement agencies that often are little but fronts for transnational crime and the transfer of money from the developed countries to the oppressed world This book focuses on the interaction of the global and the local through a close investigation of the political economy of desire and reproduction in three states that blur the line between developed and developing Greece Turkey and Cyprus These are countries at the crossroads in flux whose peripheral siting at the centre of global capitalism provides unusual insight into the dark recesses of patriarchy paternalism and exploitation

The Integration and Protection of Immigrants Paul Van Aerscht, Patricia Daenzer, 2016-02-24 In Scandinavian countries immigration is a sensitive issue and legislators approach to the questions it has raised has varied over the years Whatever immigrant and integration policies are adopted in a democratic society it is clear that the legislation and the authorities have to ensure that the individual rights of the immigrants residing in its territory are respected With Canada as a point of reference this book draws attention to weaknesses in the regulation and implementation of integration provisions threatening the immigrants individual rights in the EU member states of Denmark Finland and Sweden The study challenges readers to critically review the meaning of rights and the notion of global caring It takes a critical look at how vulnerable immigrants fare in a largely immigrant nation with a welfare capitalism legacy when compared to three European nations which claim to embrace institutional welfare models This book will be of great interest to scholars and decision makers interested in Scandinavian or Canadian immigration and integration policies
