Racism And The Administration Of Justice:

Racism and the Administration of Justice Amnesty International, 2001 In 1994 up to a million men women and children were slaughtered in Rwanda in just 100 days The genocide showed how quickly racism in this case in the form of ethnic hatred can erupt into bloodshed and despair particularly when it is fuelled by those in power or those seeking power Racism to varying degrees and in various forms infects virtually every country of the world The law and its administration which should uphold the values of justice and equality is one of the primary forces in opposing the effects of racism Yet justice systems all too often fail in this purpose and instead mirror the prejudices of the society they serve Based on research conducted by Amnesty International in recent years this publication shows that members of ethnic minorities often suffer torture ill treatment and harassment at the hands of the police In many parts of the world they face unfair trials and discriminatory sentencing which puts them at increased risk of harsh punishments including the death penalty Action to combat racism is needed urgently This report concludes with recommendations on how governments can work to end racism in the administration of justice Racism and the Administration of Justice ,2001 *Encyclopedia of Human Rights* Edward H. The Trump Administration Toby S. James,2022-04-27 The Trump presidency has been one of the most eventful and controversial in American history with consequences for the governance and policy of the US and beyond While Trump left office claiming a long list of Trump Administration Accomplishments his time in office was also marked by a hailstorm of criticism But beyond the sensationalist tweets and news stories what policy effects did he bring This volume provides an extensive and authoritative set of studies evaluating Donald Trump s impact on American society and beyond It provides a new layered framework for assessing the policy impact of leaders which can be used for understanding presidential and prime ministerial leadership more widely Chapters explore his impact on American democracy Congress the Supreme Court the economy the COVID 19 pandemic the environment American soft power the international system and more The chapters in this book were originally published as a special issue of the journal Policy Studies Social Inequality, Criminal Justice, and Race in Tennessee Gerald K. Fosten,2017-12-21 This book examines the national criminal justice system s and the state of Tennessee criminal justice system s policies in terms of how they balance the citizens need for prisons with the private sector s desire for profits and the policies effects on the incarceration rate of African American males in the state of Tennessee There are important often neglected connections among prison sentencing felony disenfranchisement voting and the continuing problematic issues of race in America particularly in Tennessee This state serves as a representative case study from which to examine local state and national criminal justice systems disparate outcomes and social inequality The book therefore investigates ethically questionable public private business relationships and arrangements that contribute to socially constructed economic policy instruments used to fulfill conservatives and white supremacists objectives for white

domination in Tennessee Through mass incarceration and felony disenfranchisement African Americans in particular African American males have been discriminated against and systematically excluded from political participation employment housing education and other social programs This book is grounded on the Racial Contract Theory and Racial Group Threat Theory Racial Threat Theory or Group Threat Theory The Racial Contract Theory is used to show how racism itself is an intentionally devised institutionalized political arrangement of official and unofficial rule of official and unofficial policy socioeconomic benefit and norms for the preferential distribution of material wealth and opportunities The Racial Group Threat Theory is employed to demonstrate how growth in the comparative size of a subordinate group increases that group s capacity to use democratic political and economic institutions for its benefit at the expense of the dominant group *Tax Law and Racial Economic Justice* Andre L. Smith, 2015-06-03 No study of Black people in America can be complete without considering how openly discriminatory tax laws helped establish a racial caste system in the United States how they were designed to exclude blacks from lucrative markets and the voting franchise and how tax laws extracted and redistributed vast sums of black wealth Not only was slavery nearly a 100% tax on black labor so too was Jim Crow apartheid and tax laws specified the peculiar institution as negro slavery The first instances of affirmative action in the United States were tax laws designed to attract white men to the South The nineteenth century Federal Tariff indirectly redistributed perhaps a majority of the profits from slavery from the South to the North and is the principle reason the Confederate states seceded The only constitutional amendment obtained by the Civil Rights Movement is the Twenty Sixth Amendment abolishing poll taxes in federal elections Blending traditional legal theory neoclassical economics and a pan African view of history these six interrelated essays on race and taxes demonstrate that even in today s supposedly post racial society there is no area of human activity where racial dynamics are absent **In re Chmura (After Remand), 464 MICH 58 (2001)**, 2001 117565

Criminal Justice Administration: Strategies for the 21st Century Clyde Cronkhite, 2008 Law Enforcement Policing Security *Documents* United Nations. Economic and Social Council, 1981 Faith Communities and the Fight for Racial Justice Robert Wuthnow, 2023-11-14 The communities congregations and faith based coalitions that have been working for racial justice over the past fifty years Have progressive religious organizations been missing in action in recent struggles for racial justice In *Faith Communities and the Fight for Racial Justice* Robert Wuthnow shows that contrary to activists accusations of complacency Black and White faith leaders have fought steadily for racial and social justice since the end of the Civil Rights movement of the 1950s and 1960s Wuthnow introduces us to the communities congregations and faith based coalitions that have worked on fair housing school desegregation affirmative action criminal justice and other issues over many years Often overshadowed by the Religious Right these progressive faith based racial justice advocates kept up the fight even as media attention shifted elsewhere Wuthnow tells the stories of the faith based affordable housing project in St Louis that sparked controversy in the Nixon White House a pastor s lawsuit in North Carolina that launched the nation s first

busing program for school desegregation the faith outreach initiative for Barack Obama's presidential campaign and church mobilized protests following the deaths of Trayvon Martin Freddie Gray and George Floyd Drawing on extensive materials from denominations journalists and social scientists Wuthnow offers a detailed and frank discussion of both the achievements and the limitations of faith leaders' roles He focuses on different issues that emerged at different times tracing the efforts of Black and White faith leaders who sometimes worked cooperatively and more often tackled problems in complementary ways Taken together these stories provide lessons in what faith communities have done and how they can better advocate for racial justice in the years ahead
