to school with her mother playing Yahtzee in her Granny's nicotine cloud walking to the bowling alley with her grandfather and eating casseroles at the family reunions she attended every year In a thoughtful humorous voice born of Appalachian storytelling Childers brings to life in these essays events that affected the entire region large families that squeezed into tiny apartments during the Great Depression a girl who stepped into a rowboat from a second story window during Huntington's 1937 flood brothers who were whisked away to World War II and Vietnam and a young man who returned home from the South Pacific and worked his life away as a railroad engineer Childers uses these family tales to make sense of her personal journey and find the joy and clarity that often emerge after the earth shakes terribly beneath us *Once I Too Had Wings* Emma Bell Miles, 2014-03-11 Emma Bell Miles 1879-1919 was a gifted writer poet naturalist and artist with a keen perspective on Appalachian life and culture She and her husband Frank lived on Walden's Ridge in southeast Tennessee where they struggled to raise a family in the difficult mountain environment Between 1908 and 1918 Miles kept a series of journals in which she recorded in beautiful and haunting prose the natural wonders and local customs of Walden's Ridge Jobs were scarce however and as the family's financial situation deteriorated Miles began to sell literary works and paintings to make ends meet Her short stories appeared in national magazines such as Harper's Monthly and Lippincott's and in 1905 she published *Spirit of the Mountains* a nonfiction book about southern Appalachia After the death of her three year old son from scarlet fever in 1913 the journals took a more somber turn as Miles documented the difficulties of mountain life the plight of women in rural communities the effect of disparities of class and wealth and her own struggle with tuberculosis Previously examined only by a handful of scholars the journals contain both poignant and incisive accounts of nature and a woman's perspective on love and marriage death customs child raising medical care and subsistence on the land in southern Appalachia in the early twentieth century With a foreword by Elizabeth S D Engelhardt this edited selection of Emma Bell Miles's journals is illustrated with examples of her painting **Negotiating a Perilous Empowerment** Erica Abrams Locklear, 2011-11-19 In many parts of Appalachia family ties run deep constituting an important part of an individual's sense of self In some cases when Appalachian learners seek new forms of knowledge those family ties can be challenged by the accusation that they have gotten above their raisings a charge that can have a lasting impact on family and community acceptance Those who advocate literacy sometimes ignore an important fact although empowering newly acquired literacies can create identity conflicts for learners especially Appalachian women In *Negotiating a Perilous Empowerment* Erica Abrams Locklear explores these literacy initiated conflicts analyzing how authors from the region portray them in their fiction and creative nonfiction Abrams Locklear blends literacy studies with literary criticism to analyze the central female characters in the works of Harriette Simpson Arnow Linda Scott DeRosier Denise Giardina and Lee Smith She shows how these authors deftly overturn stereotypes of an illiterate Appalachia by creating highly literate characters women who not only cherish the power of words but also push the boundaries of what literacy means *Negotiating a Perilous Empowerment*

includes in depth interviews with Linda Scott DeRosier and Lee Smith making this an insightful study of an important literary genre

**Out of the Mountains** Meredith Sue Willis, 2010-07-13 Meredith Sue Willis's *Out of the Mountains* is a collection of thirteen short stories set in contemporary Appalachia. Firmly grounded in place, the stories voyage out into the conflicting cultural identities that native Appalachians experience as they balance mainstream and mountain identities. Willis's stories explore the complex negotiations between longtime natives of the region and its newcomers and the rifts that develop within families over current issues such as mountaintop removal and homophobia. Always, however, the situations depicted in these stories are explored in the service of a deeper understanding of the people involved and of the place. This is not the mythic version of Appalachia but the Appalachia of the twenty-first century.

**Standing Our Ground** Joyce M. Barry, 2012-08-22 *Standing Our Ground: Women, Environmental Justice, and the Fight to End Mountaintop Removal* examines women's efforts to end mountaintop removal coal mining in West Virginia. Mountaintop removal coal mining, which involves demolishing the tops of hills and mountains to provide access to coal seams, is one of the most significant environmental threats in Appalachia, where it is most commonly practiced. The Appalachian women featured in Barry's book have firsthand experience with the negative impacts of Big Coal in West Virginia. Through their work in organizations such as the Coal River Mountain Watch and the Ohio Valley Environmental Coalition, they fight to save their mountain communities by promoting the development of alternative energy resources. Barry's engaging and original work reveals how women's tireless organizing efforts have made mountaintop removal a global political and environmental issue and laid the groundwork for a robust environmental justice movement in central Appalachia.

*Power in the Blood* Linda Tate, 2009-03-24 *Power in the Blood: A Family Narrative* traces Linda Tate's journey to rediscover the Cherokee Appalachian branch of her family and provides an unflinching examination of the poverty, discrimination, and family violence that marked their lives. In her search for the truth of her own past, Tate scoured archives, libraries, and courthouses throughout Kentucky, Tennessee, Alabama, Illinois, and Missouri; visited numerous cemeteries; and combed through census records, marriage records, court cases, local histories, old maps, and photographs. As she began to locate distant relatives, fifth, sixth, seventh cousins, all descended from her great-great-grandmother, Louisiana, they gathered in kitchens and living rooms, held family reunions, and swapped stories. A past that had long been buried slowly came to light as family members shared the pieces of the family's tale that had been passed along to them. *Power in the Blood* is a dramatic family history that reads like a novel, as Tate's compelling narrative reveals one mystery after another. Innovative and groundbreaking in its approach to research and storytelling, *Power in the Blood* shows that exploring a family story can enhance understanding of history, life, and culture, and that honest examination of the past can lead to healing and liberation in the present.

**Beyond Hill and Hollow** Elizabeth Sanders Delwiche Engelhardt, 2005.
