Günter Grass Ronald Hayman, 2024-11-01 Günter Grass is one of the writers who grew up in a Germany already in the grip of Nazism None of them has found better ways than his of translating the sordid history of the movement into fiction none has looked more critically at the denazification and reconstruction of Germany In this important study originally published in 1985 Ronald Hayman scrutinizes Grass's development and assesses his achievement He finds that Grass's more recent work does not fulfil the promise of the *The Tin Drum* and his other early novels While this study focuses mainly on the fiction it also takes into account the poetry plays political writing criticism and graphic work Grass is important not only as an exemplar of the guilt-laden German conscience but as one of the most ambitious and accomplished living fabulists

The Politics of Interweaving Performance Cultures Erika Fischer-Lichte, Torsten Jost, Saskya Iris Jain, 2014-01-10 This book provides a timely intervention in the fields of performance studies and theatre history and to larger issues of global cultural exchange The authors offer a provocative argument for rethinking the scholarly assessment of how diverse performative cultures interact how they are interwoven and how they are dependent upon each other While the term intercultural theatre as a concept points back to postcolonialism and its contradictions *The Politics of Interweaving Performance Cultures* explores global developments in the performing arts that cannot adequately be explained and understood using postcolonial theory The authors challenge the dichotomy the West and the rest where Western cultures are universal and non-Western cultures are particular as well as ideas of national culture and cultural ownership This volume uses international case studies to explore the politics of globalization looking at new paternalistic forms of exchange and the new inequalities emerging from it These case studies are guided by the principle that processes of interweaving performance cultures are in fact political processes The authors explore the inextricability of the aesthetic and the political whereby aesthetics cannot be perceived as opposite to the political rather the aesthetic is the political Helen Gilbert's essay *Let the Games Begin* Pageants Protests Indigeneity 1968 2010 won the 2015 Marlis Thiersch Prize for best essay from the Australasian Drama Theatre and Performance Studies Association
