*Migrantes peruanos a Canadá, Chile y España. Ciudadanía y redes familiares transnacionales* Varios Autores, 2015-07-01  
Las migraciones de las personas peruanas a tres países representando mundos diversos Canadá en América del Norte, España en Europa y Chile en América del Sur se han estudiado para mostrar las transformaciones que esta movilidad geográfica produce en los migrantes. En concreto, para ver los cambios en las representaciones de los inmigrantes respecto a los derechos de la ciudadanía social. [Redes familiares y político-clientelares en Manizales \(Colombia\) 1850-1930](#) Giraldo Zuluaga, Luisa Fernanda, 2025-03-12. Esta investigación examina la forma de organización que adoptaron las familias notables o de élite en la ciudad de Manizales así como la conformación de redes familiares que articularon riqueza, prestigio y poder elementales fundamentales en la estructuración de la vida económica social y política. Asimismo, indaga cómo los vínculos parentales entre ciertas familias propiciaron la formación de grupos interrelacionados. Además, explora cómo las alianzas entre determinadas familias permitieron la creación de amplias redes familiares que fueron claves en la configuración de una sociedad que emergió en la segunda mitad del siglo XIX.

**Growing in the Shadow of an Empire** Giuseppe De Luca, Gaetano Sabatini, 2012      **Familias en Cambio en Un Mundo en Cambio**, 2006      [Blood, Land and Power](#) Manuel Pérez-García, 2021-04-15. The historical data and vast information in the historical sources is arranged in this book using software to make clusters of data and quantification. This serves as illustrative example for future research on how to apply such methods to historical research. The analysis of formation of new elites and powerful families and the social networks they belonged to serves to understand in the long run how groups and families in localities of southern Europe have consolidated their power and how political institutions then and now have served to the perpetuation of such families in the exercise of power. Disputes and rivalry between factions elites and groups of power to control land as main economic source of power and political institutions have not ceased since the early modern period until today. Southern and Mediterranean Europe localities are a good example in which fierce

struggles between elite groups have lasted across space and time

*Challenges of Latino Aging in the Americas* William A. Vega, Kyriakos S. Markides, Jacqueline L. Angel, Fernando M. Torres-Gil, 2015-03-18

This book examines one of the most important demographic changes facing the United States: an overall aging population and the increasing influence of Latinos. It also looks at the changing demographics in Mexico and its impact on the health and financial well-being of aging Mexicans and Mexican Americans. The book provides a conceptual and accessible framework that will educate and inform readers about the interconnectedness of the demographic trends facing these two countries. It also explores the ultimate personal, social, and political impact they will have on all Americans in the U.S. as well as Mexico. *Challenges of Latino Aging in the Americas* features papers presented at the 2013 International Conference on Aging in the Americas held at the University of Texas at Austin September 2013. It brings together the work of many leading scholars from the fields of sociology, demography, psychology, anthropology, geography, social work, geriatric medicine, epidemiology, and public affairs. Coverage in this edited collection includes working with diverse populations, culturally compatible interventions for diverse elderly, the health, mental health, and social needs, and concerns of aging Latinos, and the policy, political, and bi-lateral implications of aging and diversity in the U.S. and Mexico. The book provides a rich blend of empirical evidence with insightful cutting-edge analysis that will serve as an insightful resource for researchers and policy makers, professors, and graduate students in a wide range of fields from sociology and demography to economics and political science.

**El "problema" del embarazo en la adolescencia. Contribuciones a un debate**

Claudio Stern, 2012

El embarazo en la adolescencia es considerado como un riesgo para la salud materna e infantil así como un factor que contribuye al desmesurado crecimiento de la población a la deserción escolar y a la perpetuación de la pobreza al coartar las posibilidades de desarrollo familiar. Sus causas se atribuyen principalmente a la sexualidad precoz y a la falta de información y de acceso a los métodos anticonceptivos. Esta publicación pone en cuestión los supuestos antes mencionados, destacando dos factores realmente subyacentes a esta problemática: la pobreza y la desigualdad que dejan pocas oportunidades alternativas de desarrollo a una gran cantidad de nuestros jóvenes y la falta de una verdadera educación para el ejercicio de la sexualidad que les permita enfrentarse con responsabilidad a este aspecto tan central para su vida.

Bolivian Labor Immigrants' Experiences in

Argentina Cynthia Pizarro, 2015-12-03 Bolivian Labor Immigrants Experiences in Argentina examines key issues regarding the structural factors that pattern the integration of Bolivian immigrants in labor markets segmented by inequalities based on class gender ethnicity race nationality and migratory and legal status The book provides ethnographic insights about the various ways in which Bolivian immigrants experience harsh living and working conditions in Argentina demonstrating that these men and women are capable of dealing with oppressive situations and of performing particular ways of resistance The book also refers to the trajectories of some Bolivians who had previously migrated to Spain and returned to Argentina after the European crisis in 2008 And it compares the south south labor migration from Bolivia to Argentina with the north north one from Tajikistan to the Russian Federation The focus on labor migrants does not lead to a reductionist economic analysis of their trajectories experiences and prospects for the future On the contrary they are studied from a holistic anthropological approach considering that migrants make sense of their territorial mobility from complex points of view anchored in their life experiences Therefore contributors consider that migration is a process that involves economic social cultural and political dimensions

*Nationalism and National Identities* Martin Bulmer, John Solomos, 2014-01-02 Nationalism and nationalist ideas are a major force in the contemporary world This volume brings together original papers from a number of countries dealing both with theories and case studies of particular national contexts Taken together these papers shed light on the processes through which nationalist sentiments and ideas are articulated and given social and political meaning in specific situations They cover a broad range of different kinds of nationalist movements and ideologies using a variety of theoretical perspectives and based on varying empirical methodologies The cases covered include a comparison of Bosnia Herzegovina and the North Caucasus the role of religion in nationalist sentiment in Spain ethnicity and nationalism in Turkey Basque nationalism the Basque diaspora across the Atlantic the patrimonial state and inter ethnic conflict in Nigeria and nationalist movements in Uzbekistan and Tajikistan Though this is the empirical focus all chapters raise relevant theoretical questions and challenge differing approaches to the phenomenon of nationalism in the social sciences This book was originally published as a special issue of Ethnic and Racial Studies
