Reflecting Glass Professional Coaching For Leadership Development:

The Reflecting Glass L. West, M. Milan, 2001-10-02 Leadership is currently one of the most hotly discussed topics in business. This is the first book to not only identify the characteristics of successful leadership but to show how these qualities can be developed. The Reflecting Glass surveys the field of executive coaching including its origins, the theoretical framework underpinning it, the forms it can take and the value it adds. Based on the experience of two leading practitioners and with contributions from other key players, it provides a detailed methodology for working one to one with people at the top of organisations in order to help them become fully effective. Executive coaching has experienced exponential growth over the last five years but as yet there has been little critical appraisal of the activity. This book provides that critique. By describing and benchmarking good practice, The Reflecting Glass will be a valuable tool for those in leadership positions considering executive coaching for themselves as well as the HR professional. Executive Performance Norah Njuba Bwaya, 2017-09-14 Three words describe the treatise in your hands: passion, experience and depth. It is one thing to write a theory and quite another to adduce gems of wisdom from a calling that was lived in numerous settings explored over decades and then studied: such is the case for Dr Norah's *Executive Performance*. The book includes lessons from a doctoral study on executive performance in Uganda. It presents a framework of eight critical pillars of executive performance and a model for generating intrinsic motivation to perform. It confirms that performance is mostly about leadership, sociocultural beliefs and performers' attitudes. More importantly, it presents practical ideas about leadership that appropriately addresses sociocultural and mind set challenges to unlock performance among Ugandan executives. In here are invaluable thoughts, nuggets and incredible wisdom for business owners, organization leaders and executives who are looking for ideas to enhance organizational performance in an African setting. Indeed, *Executive Performance* is a collector's piece. *Leading Professional Practice in Education* Christine Wise, Marion Cartwright, Pete Bradshaw, 2012-09-05 This volume provides an overview of key contemporary themes in educational leadership. It focuses on developing professional capacity, organisation improvement and the implementation of change, looking at theoretical frameworks and concepts, recent research studies and case examples of effective practice. The book covers leading learning and learner leadership, change processes and distributed leadership, leading professional development for educational contexts. Designed to encourage critical analysis and debate, this volume will be a useful resource for postgraduate and professional development courses in educational leadership and for practitioners. It is a companion to *Educational Leadership: Context, Strategy and Collaboration*, also published by Sage.
