Confessionalization in Europe, 1555-1700 John M. Headley, Hans J. Hillerbrand, 2017-03-02 Confessionalization in Europe 1555 1700 brings together a closely focused set of essays by leading scholars from the USA UK and Europe in memory of Bodo Nischan They address what historians of the Early Modern period have recently come to define as the pre eminent issue in the history of the Reformation as they turn their emphases from the earlier part of the 16th century to the relatively neglected latter half of the century By the time of his death Bodo Nischan had distinguished himself as a significant contributor to this central problem of confessionalization The concept involves the practice of confession building which in relation to that of social disciplining

promoted interrelated processes contributing decisively to the formation of confessional churches greater social cohesion and the emergence of the Early Modern absolute state Many religious practices earlier considered as adiaphora indifferent matters now became treated as marks of demarcation between the emerging Protestant confessional churches and at the same time politicized as the early modern state sought to impose greater social control Through the analysis of such liturgical ritual and ceremonial practices Nischan helped show the way towards a better understanding of the Reformation's engagement with the people These are the themes treated in this volume

A Tapestry of African Histories Nicholas K. Githuku, 2021-10-18 In *A Tapestry of African Histories* With Longer Times and Wider Geopolitics contributors demonstrate that African historians are neither comfortable nor content with studying continental or global geopolitical social and economic events across the superficial divide of time as if they were disparate or disconnected Instead the chapters within the volume reevaluate African history through a geopolitically transcendent lens that brings African countries into conversation with other pertinent histories both within and outside of the continent The collection analyzes the pre and post colonial eras within African countries such as Kenya Malawi and Sudan examining major historical figures and events struggles for independence and stability contemporary urban settlements social and economic development as well as constitutional legal and human rights issues that began in the colonial era and persist to this day

Book of Lemmas Wim van den Dungen, 2016-12-16 The *Book of Lemmas* presents the outlines of an immanent and transcendent metaphysics The latter is introduced by a survey of epistemology in particular criticism demarcating between valid and invalid propositions and between science and metaphysics Immanent metaphysics does not move beyond the limitations of conceptual reason and is a heuristic of science The ontological principal of the proposed process ontology is the actual occasion defined by its two state vectors material efficiency and scalar finality information and consciousness

Sino-Japanese Reflections Joshua A. Fogel,Matthew Fraleigh,2022-05-09

Sino Japanese Reflections offers ten richly detailed case studies that examine various forms of cultural and literary interaction between Japanese and Chinese intellectuals from the late Ming to the early twentieth century The authors consider efforts by early modern scholars on each side of the Yellow Sea to understand the language and culture of the other to draw upon received texts and forms and to contribute to shared literary practices Whereas literary and cultural flow within the Sinosphere is sometimes imagined to be an entirely unidirectional process of textual dissemination from China to the periphery the contributions to this volume reveal a more complex picture highlighting how literary and cultural engagement was always an opportunity for creative adaptation and negotiation Examining materials such as Chinese translations of Japanese vernacular poetry Japanese engagements with Chinese supernatural stories adaptations of Japanese historical tales into vernacular Chinese Sinitic poetry composed in Japan and Japanese Sinology the volume brings together recent work by literary scholars and intellectual historians of multiple generations all of whom have a strong comparative interest in Sino Japanese studies
