Strauss,Michelle Botting,2000 This title presents reflections on the significance of Dooyeweerd s philosophy by academics from five continents and eight countries **The Philosophy of Reflection** Shadworth H. Hodgson,1878 **The Philosophy of Reflection: Analysis of phenomena. Index** Shadworth Hollway Hodgson,1878 **Reflections on Naturalism** José Ignacio Galparsoro,Alberto Cordero,2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective Philosophy of Reflection Shadworth Hollway Hodgson,1898 **Reflections on Philosophy and Religion** Alan Donagan,1999 This book contains the collected papers of Alan Donagan on topics in the philosophy of religion Donagan was respected as a leading figure in American moral

philosophy His untimely death in 1991 prevented him from collecting his philosophical reflections on religion particularly Christianity and its relation to ethics and other concerns This collection therefore constitutes the fullest expression of Donagan s thought on Christianity and ethics in which it is possible to discern the outlines of a coherent overarching theory Editor Anthony Perovich has supplied a useful introduction which brings Donagan s work into focus and brings out the unifying themes in the essays Becoming a Subject Marcia Cavell,2006-02-23 Marcia Cavell draws on philosophy psychoanalysis and the sciences of the mind in an investigation of human subjectivity She describes the ideal of a subject as an agent doing things for reasons and able to assume responsibility for itself The book investigates what might stand in the way of this Reflections on Philosophy Leemon B. McHenry,Takashi Yagisawa,2003 Reflections on Philosophy presents original essays written specifically for introductory students by analytical philosophers which explore important topics and issues in philosophy The essays convey some of the most important concepts and arguments in eleven key topics including logic metaphysics free will and determinism epistemology ethics political philosophy philosophy of religion philosophy of mind and more The goal of each chapter is to teach philosophy by doing philosophy actively engaging students in the process of philosophical thought as they navigate through a brief but carefully designed chain of reasoning to reach a specific philosophical thesis Thought provoking challenging yet accessible to the novice each of these essays introduces students to both important issues in philosophy and the methods and logic of philosophers *The moralists, a philosophical rhapsody. Phenomenological Reflections on Mindfulness in the Buddhist Tradition Erol Čopelj,2022-06-24 This book offers an original phenomenological description of mindfulness and related phenomena such as concentration sam dhi and the practice of insight vipassan It demonstrates that phenomenological method has the power to

reanimate ancient Buddhist texts giving new life to the phenomena at which those texts point Beginning with descriptions of how mindfulness is encountered in everyday pre philosophical life the book moves on to an analysis of how the Pali Nik yas of Theravada Buddhism define mindfulness and the practice of cultivating it It then offers a critique of the contemporary attempts to explain mindfulness as a kind of attention The author argues that mindfulness is not attention nor can it be understood as a mere modification of the attentive process Rather becoming mindful involves a radical shift in perspective According to the author s account being mindful is the feeling of being tuned in to the open horizon which is contrasted with Edmund Husserl s transcendental horizon The book also elucidates the difference between the practice of cultivating mindfulness with the practice of the phenomenological epoch which reveals new possibilities for the practice of phenomenology itself Phenomenological Reflections on Mindfulness in the Buddhist Tradition will appeal to scholars and

advanced students interested in phenomenology Buddhist philosophy and comparative philosophy
