By Still Waters George William Russell,1906 *Blue Eclipse Book* li Patrick Joseph,2020-11-12 A poetic story rhyme that is a compilation of scripted youthful times Within these pages is a shard from a greater story that chronicles the legacy of characters meant for the entertainment each individually purposed for a grand design And as the wheels of fate turn each character will play their part unable to understand the greater role they partake in within the great theatrics of the world play Each figure within this are pulled from historical sources past and present with subtle liberties to flesh out the true nature of their character So as disparate destined paths cross into the other and intersect the fiery ambition they posses will become their sword while the purity of their immortal soul will become their shield individually designed to protect a sincere dream while defending their outer shell from being torn away from this mortal coil And as each soul delves beyond the grip of the unfamiliar of their opening acts a threshold would demand to be crossed as they individually with warm hearts and open minds yearn for meaning as they individually await a glimpse of their true purpose escaping the confines of ephemeral restraints to push to a space that exists beyond sight

How Religion Evolved Brian McVeigh,2017-07-12 Why did many religious leaders Moses Old Testament prophets Zoroaster claim they heard divine voices Why do ancient civilizations exhibit key similarities e g the living dead treating the dead as if they were still alive speaking idols care and feeding of effigies monumental mortuary

architecture and houses of gods pyramids ziggurats temples How do we explain strange behaviour such as spirit possession speaking in tongues channelling hypnosis and schizophrenic hallucinations Are these lingering vestiges of an older mentality Brian J McVeigh answers these riddles by updating bicameralism First proposed by the psychologist Julian Jaynes this theory postulates that an earlier mentality existed a human the brain s left hemisphere heard voices of gods or ancestors the brain s right hemisphere Therefore ancient religious texts reporting divine voices were recounting of audio visual hallucinations a method of social control when early populations expanded As growing political economic complexity destabilized god governed states in the late second millennium BCE divine voices became inadequate Eventually humans had to culturally acquire new cognitive skills modern religions to accommodate increasing social pressures selves replaced the gods and history witnessed an inward turn This psychological interiorization of spiritual experience laid the foundations for the world s great religions and philosophies that arose in India China Greece and the Middle East in the middle of the first millennium BCE

André Breton André Breton, 2003-10 This is a kind of essence of Breton variously translated by some of our finest writers each of whom highlights different facets of Breton s complex work Mark Polizzotti s useful introduction provides context and a brief analysis of the artist and his times Diane di Prima author of Recollections of My Life as a Woman Mark Polizzotti who is a poet a translator and the author of the definitive biography of Andr Breton has chosen stellar translations of Breton s dazzling poetry and placed it in its lively context This shapely introduction to the life and work of Andr Breton is smart concise and exciting I cannot imagine a better one Ron Padgett poet and translator of The Complete Poems of Blaise Cendrars The Poets for the

Millennium Series generally and Andr Breton s Selected Works specifically offers a workable image of an author and the work and the conjuncture all at once What comes across is a vivid presentation of Andre Breton not just as an art czar a manifesto merchant but a serious haunted inventive and strangely profound poet of the imagination who invented or archeologized new ways of dreaming but insisted on bearing witness with them in the actual world Polizzotti does justice as I think no other writer has to the double burden of Breton s work Robert Kelly A superbly chosen selection of Breton s poetry and prose translated in every case with an elegant intelligence and preceded by an unusually thorough introduction showing quite exactly how the poet s life informed each epoch of his work It proves again the remarkable un boringness of Breton and how important he is now to our own poetry and to us Mary Ann Caws author of The Surrealist Look An Erotics of Encounter and editor of The Surrealist Painters and Poets
