Reflections of Fantasy Beverly Lyon Clark, 1986 In Victorian England, non-realistic fiction was largely forced underground with Alice into such marginal fiction as fantasy for children. Only now is fantasy beginning to receive the attention it deserves in both fiction and literary criticism. Beverly Lyon Clark's *Reflections of Fantasy* extends recent theoretical work on fantasy by exploring the technique of the mirror world. Tracing the fantasy mirror world in Carroll, Nabokov, and Pynchon allows Clark to shed light on the dialectic central to fantasy that between the real and the not-real and also on Victorian and contemporary views of fictional reality on the use of metaphoric and metonymic modes on the ramifications of self-consciousness. She explores these themes in analyses of Alice's *Adventures in Wonderland*, *Through the Looking Glass*, Anya's *strange chudes*, *Pale Fire*, *Ada*, and *The Crying of Lot 49*.

Pretexts André Gide, 2017-07-05 Most of André Gide's richly varied literary output has long been available to American readers. Only one aspect of his protean career has been lacking in translation: the essays, the publication of which will go far to explain why Gide holds in France such high rank as a critic. Many of the essays in *Pretexts: Reflections on Literature and Morality* were provoked by events in the cultural and political world of twentieth-century France, a turbulent setting that produced a lasting literature. These essays are vintage Gide, informed by his characteristic spirit, his hard brilliance, pointed honesty, and the enduring relevance of his concerns. Readers of his *Journals* will be prepared for the style, intelligence, and marksmanship that Gide brings to bear in these forty-two articles on life as well as on letters. His range, as always, is broad: a long and moving memoir of his encounters with Oscar Wilde; a series of combats against reactionary nationalists and self-appointed purifiers of morals; estimates of Mallarmé, Baudelaire, Proust, Gautier, and Valéry; among others, letters to Jacques Rivière, Jean Cocteau, and Francis Jammes; and general essays on art, literature, the theater, and politics. Justin O'Brien, famous for his studies in modern French literature, has written that Gide is related to La Fontaine and Racine by his essential conciseness and crystalline style; to Montaigne and Goethe by his inquiring mind, which reconciled unrest and serenity to

Baudelaire by his lucid prophetic criticism O'Brien who has done so much to bring contemporary French literature to America supervised the translations in *Pretexts Reflections on Literature and Morality* prepared several of them himself and contributes an informative general introduction and additional commentary to preface the various sections of this major book

Self-reflection is fundamental for human thinking on many levels Philosophy has described the mind's capacity to observe itself as a core element of human existence Political and social sciences have shown how modern democracies depend on society's ability to critically reflect on their own values and practices And literature of all ages has proven self-reflexivity to be a crucial trait of cultural production This volume provides the first diachronic panorama of genres forms and functions of literary self-reflection and their connections with social political and philosophical discourses from the 17th century to the present Far beyond the usual focus on postmodernist opacity these contributions present a rich tradition of critical transparency Literary texts that show us what is behind and beyond them **Dictionary of the Political Thought of the**
