**Reflections on Exile** Edward W. Said,      **Postcolonial Theory and Autobiography** David Huddart, 2008-04-18

Cultural theory has often been criticized for covert Eurocentric and universalist tendencies. Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference. Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze, and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience, investigation, and knowledge.

**The Re-Emergence of the Single State Solution in Palestine/Israel**

Cherine Hussein, 2015-02-11. Providing the first in-depth intellectual and organizational mapping of the single state idea's recent resurgence in Palestine/Israel, this book enquires into its nature as a phenomenon of resistance as well as into its potential as a counter-hegemonic force in the making against the processes of Zionism. Reconstructing this moment of re-emergence through primary material and interviews with diverse influential intellectuals, its analysis highlights their self-understandings, worldviews, strategies, and perceptions of the phenomenon in which they are involved while questioning whether the single state idea has the potential to become a Gramscian-inspired movement of resistance against Zionism. In presenting this rare insight into a resistance movement in the making, this book resurrects an empowering image of Antonio Gramsci infused with the writings of Edward Said. This it does in an effort to both problematize the dominant interpretations of Gramsci's writings in International Relations and to decolonise the abstract way in which resistance and counter-hegemony are often studied in the discipline. Contributing a mapping of a silenced alternative and hopeful way forward in the context of escalating violence, this book is essential reading for those studying the Arab/Israeli conflict, Middle East Politics, and International Relations.

**Cartographies of Exile** Karen Elizabeth Bishop, 2016-04-20. This book proposes a fundamental relationship between exile and mapping. It seeks to understand the cartographic imperative inherent in the exilic condition: the exilic impulses fundamental to mapping and the varied forms of description proper to both. The vital intimacy of the relationship between exile and mapping compels a new spatial literacy that requires the cultivation of localized, dynamic reading practices attuned to the complexities of understanding space as text and texts as spatial artifacts. The collection asks: what kinds of maps do exiles make? How are they conceived, drawn, read? Are they private maps or can they be shaped collectively? What is their relationship to memory and history? How do maps provide for new ways of imagining the fractured

experience of exile and offer up both new strategies for reading displacement and new displaced reading strategies Where does exilic mapping fit into a history of cartography particularly within the twentieth century spatial turn The original work that makes up this interdisciplinary collection presents a varied look at cartographic strategies employed in writing art and film from the pre Contact Americas to the Renaissance to late postmodernism the effects of exile in its many manifestations on cartographic textual systems ways of seeing and forms of reading the challenges of traversing and mapping unstable landscapes and restrictive social and political networks and the felicities and difficulties of both giving into the map and attempting to escape the map that provides for exile in the first place Cartographies of Exile will be of interest to students and scholars working in literary and cultural studies gender sexuality and race studies anthropology art history and architecture film performance visual studies and the fine arts

**Sanctuary** Nicole A. Waligora-Davis, 2011-03-01 In 2005 hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America Disproportionately impacted by the ravages of the storm displaced black victims were often characterized by the media as refugees The characterization was wrong headed and yet deeply revealing Sanctuary African Americans and Empire traces the long history of this and related terms like alien and foreign a rhetorical shorthand that has shortchanged black America for over 250 years In tracing the language and politics that have informed debates about African American citizenship Sanctuary in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation slave law the Black Codes and Jim Crow blacks seldom benefited from the actions of the state Blackness helped to define social cultural and legal aspects of American citizenship in a manner that excluded black people themselves They have been treated rather as foreigners in their home country African American civil rights efforts worked to change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity

*In the Light of Medieval Spain* S. Doubleday, D. Coleman, 2008-08-04 This volume brings together a team of leading scholars in Spanish studies to interrogate the contemporary significance of the medieval past offering a counterbalance to intellectual withdrawal from urgent public debates

Postcolonial Encounters in International Relations Alina Sajed, 2013-07-18 Postcolonial Encounters in International Relations examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even

further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration. The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb. By adopting a postcolonial perspective a perspective quite marginal in International Relations the book investigates a different international relations which emerges via narratives of migration. A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory.

***Shakespeare and the Cultural Colonization of Ireland*** Robin Bates, 2008-01-11 Focusing on plays Richard II Henry V and Hamlet which appear prominently in the writing of the Irish nationalist movement of the early twentieth century this study explores how Irish writers such as Sean O Casey Samuel Beckett W B Yeats G B Shaw James Joyce and Seamus Heaney resisted English cultural colonization through a combination of reappropriation and critique of Shakespeare's work.

***T.S. Eliot, Poetry, and Earth*** Etienne Terblanche, 2016-05-12 T S Eliot enjoyed a profound relationship with Earth. Criticism of his work does not suggest that this exists in his poetic oeuvre. Writing into this gap Etienne Terblanche demonstrates that Eliot presents Earth as a process in which humans immerse themselves. The Waste Land and Four Quartets in particular re-locate the modern reader towards mindfulness of Earth's continuation and one's radical becoming within that process. But what are the potential implications for ecocriticism? Based on its careful reading of the poems from a new material perspective this book shows how vital it has become for ecocriticism to be skeptical about the extent of its skepticism to follow instead the twentieth century's most important poet who at the end of searing skepticism finds affirmation of Earth art and real presence.

**Paradoxical Citizenship** Silvia Nagy-Zekmi, 2008-01-01 In a collection of intriguing essays on the work of Edward Said internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough Orientalism the role of the intellectual the Question of Palestine and finally his dramatic memoir Out of Place. This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker.

**Democratic Multiplicity** James Tully, Keith Cherry, Fonna Forman, Jeanne Morefield, Joshua Nichols, Pablo Ouziel, David Owen, Oliver Schmidtke, 2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science.

**The New Yoder** Peter Dula, Chris K. Huebner, 2010-01-01 The work of John Howard Yoder has become increasingly influential in recent years. Moreover it is gaining influence in some surprising places. No longer restricted to the world of theological ethicists and Mennonites Yoder has been discovered as a refreshing voice by scholars working in many other fields. For thirty five years Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the

Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr But in the last decade there has been a clearly identifiable shift in direction A new generation of scholars has begun reading Yoder alongside figures most often associated with post structuralism neo Nietzscheanism and post colonialism resulting in original and productive new readings of his work At the same time scholars from outside of theology and ethics departments indeed outside of Christianity itself like Romand Coles and Daniel Boyarin have discovered in Yoder a significant conversation partner for their own work This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work **Edward Said and the Authority of**

**Literary Criticism** Nicolas Vandeviver, 2019-09-26 This book examines the earliest writings of Edward Said and the foundations of what came to be known as postcolonial criticism in order to reveal how the groundbreaking author of Orientalism turned literary criticism into a form of political intervention Tracing Said's shifting conceptions of literature and agency in relation to the history of American literary studies in the thirty years or so between the end of World War II and the last quarter of the twentieth century this book offers a rich and novel understanding of the critical practice of this indispensable figure and the institutional context from which it emerged By combining broad scale literary history with granular attention to the vocabulary of criticism Nicolas Vandeviver brings to light the harmonizing of methodological conflicts that informs Said's approach to literature and argues that Said's enduring political significance is grounded in his practice as a literary critic **Writing Diaspora in the West** P. McCarthy, 2009-02-17 In this bold intervention into the understanding of the diasporic experience within cultural studies McCarthy challenges a critical position emergent over the last thirty years what he calls the new marginalism He confronts the liberal orthodoxies that prevail in this area exposing contradictions in the thinking of its major theorists
